Applicants must be located in the western United States or United States Territories as identified in the

Reclamation Act of June 17, 1902, as amended or Hawaii. Sponsors of water reclamation and reuse projects specifically authorized for funding under the Title XVI Act, including projects eligible under the WIIN Act, which have not reached their Federal funding ceiling, are also eligible to receive an award under this FOA. Entities not eligible under this FOA include, but are not limited to Federal governmental entities, Research institutions including universities and nonprofits, For-profit organizations, and Individuals. Entities not eligible to apply are encouraged to partner with eligible entities to improve the deployment of state-of-the-art technologies.

**Agency Name:** Bureau of Reclamation

**Description:** The objective of this announcement is to invite research sponsors to submit proposals to cost share Title XVI Research activities that seek to address water supply challenges by establishing or expanding the use of water reclamation and reuse, improving existing water reuse facilities, and/or streamlining the implementation of state-of-the-art technology for new facilities.

For the purposes of this FOA, state of the art is defined as the latest and most advanced technologies or processes currently available in the industry for deployment and implementation. "State-of-the-art technology" does not include innovative technologies or processes that are not commercially available and are currently under development through pilot or demonstration research efforts.

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** Category A: States, Indian tribes, irrigation districts, water districts, or other organizations with water or power delivery authority located in the Western United States or United States Territories including Alaska, Arizona, California, Colorado, Hawaii, Idaho, Kansas, Montana, Nebraska, Nevada, New Mexico, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, Wyoming, American Samoa, Guam, the Northern Mariana Islands, and the Virgin Islands. Category B: Universities, nonprofit research institutions, and nonprofit organizations.

**Agency Name:** Bureau of Reclamation

**Description:** The objective of this opportunity is to invite eligible non-Federal entities to leverage their money and resources by cost sharing with Reclamation on applied science projects to develop hydrologic information and water management tools and improve modeling and forecasting capabilities. Results from these projects will be used by water managers to increase water supply reliability, provide flexibility in water operations, and improve water management. Project results must be readily applicable by

water managers, resulting in tools and information that can be used to: support water supply reliability, management of water deliveries, water marketing activities, drought management activities, conjunctive use of ground and surface water, water rights administration, ability to meet endangered species requirements, watershed health, conservation and efficiency, and other water management objectives.

Relief  
Regional Development

**Category  
Explanation:**

**Expected Number  
of Awards:** 15

**CFDA Number(s):** 97.111 -- Regional  
Catastrophic  
Preparedness Grant  
Program (RCPGP)

**Cost Sharing or  
Matching  
Requirement:** No

**Eligible Applicants:** County governments  
Special district governments  
Others (see text field entitled "Additional Information on  
Eligibility" for clarification)  
City or township governments  
Independent school districts

**Additional Information on Eligibility:** Local Governments (as defined by 2 C.F.R. Section  
200.64) located within one of the 100 most populous  
Metropolitan Statistical Areas (MSAs) per the Census  
Bureau's 2017 Population Estimates. Specific information  
on applicant eligibility is identified in the program notice of  
funding opportunity.

**Agency Name:** Department of Homeland Security - FEMA

**Description:** The purpose of the RCPGP is to build state and local capacity to  
manage catastrophic incidents by improving and expanding  
regional collaboration for catastrophic incident preparedness. The  
National Response Framework (3rd edition, 2016) (or  
superseding edition) defines a catastrophic incident as any  
natural or manmade incident, including terrorism, that results in  
extraordinary levels of mass casualties, damage, or disruption  
severely affecting the population, infrastructure, environment,  
economy, national morale, or government functions. The regional  
interdependencies of effective Prevention, Protection, Mitigation,  
Response, and Recovery activities require a cohesive regional  
approach to catastrophic planning. The objective of RCPGP is to  
close known capability gaps, encourage innovative regional  
solutions to issues related to catastrophic incidents, and build on  
existing regional efforts. Applicants' RCPGP projects should  
increase capability levels in the Food, Water, and Sheltering  
Community Lifeline as measured in the Housing or Logistics and  
Supply Chain Management core capabilities reported through the  
Threat and Hazard Identification and Risk Assessment  
(THIRA)/Stakeholder Preparedness Review (SPR). Through

regional collaboration, the RCPGP supports the development and delivery of projects that address Community Lifelines, which are critical to manage catastrophic incidents. Stabilizing and restoring lifelines in catastrophes requires solutions that go beyond scaling up existing plans and capabilities to maximize the creative power of cross-sector coordination while respecting the roles of private sector partners and agency authorities at all levels of government. To this end, RCPGP applicants are encouraged to develop projects that build a continuous cycle of planning, organizing, training, and exercising with regional partners across the whole community to improve their collective readiness posture. This program is intended to be regional in nature and benefit multiple States.

<b>Expected Number of Awards:</b>	17	<b>Award Floor:</b>	\$30,000
<b>CFDA Number(s):</b>	10.326 -- Capacity Building for Non-Land Grant Colleges of Agriculture (NLGCA)		
<b>Cost Sharing or Matching Requirement:</b>	No		

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** Applications may only be submitted by a Non-Land Grant College of Agriculture (NLGCAs) certified as such by the National Institute of Food and Agriculture at the time of application. A current list of NLGCA's certified by NIFA can be found at the NLGCA List Resource webpage. Award recipients may subaward to organizations not eligible to apply to this grants program, providing such organizations are necessary for the conduct of the project. All institutions certified as NLGCA prior to December 21, 2018 must reapply for certification and meet the new criteria for NLGCA certification contained in the Federal Register Notice. In order for an institution to qualify as a NLGCA, it must be a public college or

university offering a baccalaureate or higher degree in the study of agricultural sciences, forestry, or both, which is any of the 32 specified areas of study: Agricultural and domestic animal services; Agricultural and extension education services; Agricultural and food products processing; Agricultural business and management; Agricultural communication or agricultural journalism; Agricultural economics; Agricultural engineering; Agricultural mechanization; Agricultural production operations; Agricultural public services; Agriculture; Animal sciences; Applied horticulture or horticulture operations; Aquaculture; Equestrian/Equine Studies; Floriculture or floristry operations and management; Food science; Forest sciences and biology; Forestry; Greenhouse operations and management; International agriculture; Natural resource economics; Natural resources management and policy; Natural resources or conservation; Ornamental horticulture; Plant nursery operations and management; Plant sciences; Range science and management; Soil sciences; Turf and turfgrass management; Urban forestry; and Wood science and wood products or pulp or paper technology. If you are not sure if you are eligible to request NLGCA designation, you can look at the NLGCA Eligibility Flow Chart. In addition, Section 7102 of the Agriculture Improvement Act of 2018 removed the opt-in, opt-out language that had previously required Hispanic Serving Agricultural Colleges and Universities (HSACU) and McIntire-Stennis Colleges and Universities to relinquish that status if they wanted to pursue NLGCA designation. There are no longer any such limitations. To request that NIFA provide certification of NLGCA status, an Authorized Representative must go to the Non-Land-Grant University designation webpage and complete a web-based form indicating the institution meets the qualifications. Within 30 days of submission, NIFA will provide the administrative point of contact specified on the request, with a certification of NLGCA designation or a response indicating why the request for certification is being denied. For the purposes of this program, the individual branches of a college or university that are separately accredited as degree-granting institutions as indicated per the Official List of Certified Non-Land Grant Colleges of Agriculture, are treated as separate institutions, and are therefore eligible to apply for NLGCA Program awards. Separate branches or campuses of a college or university that are not individually accredited as degree-granting institutions are not treated as separate institutions, and are therefore not eligible to submit an application. Accreditation must be conferred by an agency or association recognized by the Secretary of the U.S. Department of Education. NLGCA applicants may submit (as the lead applicant) any number of applications in response to this RFA; however, your institution will be limited to a maximum of two grant awards as the lead (applicant) institution. Your institution may participate in any number of NLGCA-funded projects as a partner institution in any given year. However, a Project Director is limited to one funded-project, for which they are the lead Project Director in the FY.

**Agency Name:**

National Institute of Food and Agriculture

**Description:**

NLGCA Institutions may use the funds: (a) to successfully compete for funds from Federal grants and other sources to carry out educational, research, and outreach activities that address priority concerns of national, regional, State, and local interest; (b) to disseminate information relating to priority concerns to interested members of the agriculture, renewable resources, and other relevant communities, the public, and any other

interested entity; (c) to encourage members of the agriculture, renewable resources, and other relevant communities to participate in priority education, research, and outreach activities by providing matching funding to leverage grant funds; and (d) through: (1) the purchase or other acquisition of equipment and other infrastructure (not including alteration, repair, renovation, or construction of buildings); (2) the professional growth and development of the faculty of the NLGCA Institution; and (3) the development of graduate assistantships.

Applications may only be submitted by a Non-Land Grant College of Agriculture (NLGCAs) certified as such by the National Institute of Food and Agriculture at the time of application. A current list of NLGCA's certified by NIFA can be found at the [NLGCA List Resource webpage](#). Award recipients may subaward to organizations not eligible to apply to this grants program, providing such organizations are necessary for the conduct of the project. All institutions certified as NLGCA prior to December 21, 2018 must [reapply for certification](#) and meet the new criteria for NLGCA certification contained in the [Federal Register](#) Notice.

**Catalog of Federal Domestic Assistance Number:** 10.912, Environmental Quality Incentives Program  
 NRCS is announcing the availability of up to \$12.5 million in CIG funding to stimulate the development and adoption of innovative conservation approaches and technologies. Applications will be accepted from eligible entities in any of the 50 States, the District of Columbia, the Caribbean Area (Puerto Rico and the U.S. Virgin Islands), and the Pacific Islands Area (Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands). All U.S.-based non-federal entities (NFE) and individuals are invited to apply, with the sole exception of federal agencies. Projects may be between one and three years in duration. The maximum award amount for a single award in FY 2019 is \$2 million.  
**APPLICATIONS DUE DATE:** Applications must be received by 5 p.m. Eastern Time on July 30, 2019.  
**SUBMISSIONS:** Applications must be submitted electronically through grants.gov. Submissions must be received by the time and date due. Late submissions will not be reviewed or considered. The agency will rely on system generated date and time receipt

documentation for Grants.gov submissions. Click here for more on how to submit an application.

The grants.gov electronic submission interface is called Workspace. Workspace is the standard way for organizations or individuals to apply for federal grants in grants.gov. Workspace allows an applicant grant team to access and edit different forms within an application simultaneously. In addition, the forms may be filled out online or as a PDF. An overview of Workspace can be viewed at grants.gov (WEBINAR - Getting Started with Workspace: Become a Workspace Wizard).

Please allow extra time to register in Workspace because there are several preliminary registration steps before an applicant can submit the application. To register, go to [www.grants.gov](http://www.grants.gov), click on "Applicants", then click on "Get Registered." If you have completed a prior grants.gov application, you may already have completed the registration process.

Persons with disabilities who require alternative means for communication (e.g., Braille, large print, or audio tape) should contact the USDA TARGET Center at (202) 720-2600 (voice and TDD).

The purpose of CIG is to stimulate the development and adoption of innovative conservation approaches and technologies in conjunction with agricultural production. CIG projects are expected to lead to the transfer of conservation technologies, management systems, and innovative approaches (such as market-based systems) to agricultural producers, into NRCS technical manuals and guides, or to the private sector. CIG generally funds pilot projects, field demonstrations, and on-farm conservation research. On-farm conservation research is defined as an investigation conducted to answer a specific applied conservation question using a statistically valid design while employing farm-scale equipment on farms, ranches or private forest lands.

**Eligible Applicants:** Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"

**Additional Information on Eligibility:** As defined in the On-Farm Trials statute, eligible entities are limited to:• private entities whose primary business is related to agriculture• nongovernmental organizations (NGOs) with experience working with agricultural producers• non-Federal government agencies On-Farm Trials entities must have access to a sufficient number of producer participants in order to facilitate implementation of On-Farm Trials of conservation practices and systems on private lands.

**Agency Name:** Natural Resources Conservation Service

**Description:** The purpose of On-Farm Trials is to stimulate the adoption and evaluation of innovative conservation approaches in partnership with agricultural producers. For 2019, NRCS is implementing On-Farm Trials through eligible entities, which in turn work collaboratively with NRCS and agricultural producers to implement innovative approaches on private lands. On-Farm Trials supports the implementation of innovative approaches that have a positive conservation impact but which, for any number of reasons, have not yet been adopted by producers. On-Farm Trials funding is designed to provide technical and financial assistance to producers to help compensate for any risks associated with implementation of new conservation practices, systems and approaches. Evaluation is a key component of On-Farm Trials to ensure that environmental, financial and social (to the extent possible) impacts of implementing innovative approaches are captured and disseminated. NRCS intends to use the results of On-Farm Trials project evaluations and analyses to explore development of new or modification of existing NRCS business practices, guidance documents, technical tools, and conservation practice standards. NRCS gives priority to projects that implement innovative conservation approaches that are applicable to a range of ag operation sizes and types. The Soil Health Demo Trial (SHD) component of On-Farm Trials focuses exclusively on implementation of conservation practices and systems that improve soil health. Eligible entities receiving SHD awards agree to follow consistent soil health assessment protocols to evaluate the impacts of practice and system implementation.

## Additional Information

**Agency Name:**

National Institute of Food and Agriculture

**Description:**

Applications to the FY 2019 Agriculture and Food Research Initiative - Sustainable Agricultural Systems (SAS) Request for Applications (RFA) must focus on approaches that promote transformational changes in the U.S. food and agriculture system within the next 25 years. NIFA seeks creative and visionary applications that take a systems approach, and that will significantly improve the supply of abundant, affordable, safe, nutritious, and accessible food, while providing sustainable opportunities for expansion of the bioeconomy through novel animal, crop, and forest products and supporting technologies. These approaches must demonstrate current and future social, behavioral, economic, health, and environmental impacts. Additionally, the outcomes of the work being proposed must result in societal benefits, including promotion of rural prosperity and enhancement of quality of life for those involved in food and agricultural value chains from production to utilization and consumption. See AFRI SAS RFA for details.

It is recommended that applicants should have completed a majority of their graduate coursework prior to the beginning of their fellowship in order to fully participate in the activities. Students in the final year of their graduate program are not advised to apply for this fellowship. Federal agencies and employees are not allowed to receive funds under this announcement but may serve as project partners. If federal agencies are collaborators, applicants are expected to provide details on the planned level of federal engagement in the application. Examples might include, but are not limited to participating in an advisory capacity or providing facilities for research. National Estuarine Research Reserve staff are ineligible to submit an application for a fellowship under this announcement. DOC/NOAA supports cultural and gender diversity and encourages women and minority individuals and groups to submit applications to this program. In addition, DOC/NOAA is strongly committed to broadening the participation of historically black colleges and universities, Hispanic serving institutions, tribal colleges and universities, and institutions that work in underserved areas. DOC/NOAA encourages applications involving any of the above institutions to apply. The lead applicant on any proposal will be responsible for ensuring that allocated funds are used for the purposes of, and in a manner consistent with this program, including any funds awarded to an eligible sub-awardee.

**Agency Name:**

Department of Commerce

**Description:**

The purpose of this notice is to solicit grant proposals for the National Estuarine Research Reserve System's Margaret A. Davidson Graduate Fellowship (Davidson Fellowship) from master's and doctoral students actively enrolled in a graduate program at an accredited university. The National Estuarine Research Reserve System is a program of the Office for Coastal Management which has an interest in balancing the needs of the natural environment and coastal economies and is responsible for implementing the Coastal Zone Management Act. The goals of the Davidson Fellowship are to build the next generation of leaders in estuarine science and coastal management by affording qualified graduate students the opportunity to conduct collaborative science within the National Estuarine Research Reserve System; partake in professional development opportunities; and receive mentoring to support professional growth. All Davidson Fellowship projects must be conducted in a research reserve and should be designed to contribute to one of the reserve's priority management areas, and thus enhance the scientific understanding of the natural or social science aspects of the research subject matter. One fellow will be selected for each of the 29 reserves for a two-year duration. Mentoring and professional development activities will be provided to build knowledge and skills needed to successfully contribute to the workforce responsible for the coast. These opportunities are also designed to create a strong network among the fellows during their tenure and into the early portion of their careers. Typically, awards will be made to the fellow's graduate institution through the use of a cooperative agreement. Funds are expected to be available on a competitive basis to qualified graduate students. To be eligible, applicants must be citizens or permanent residents of U.S. states or territories, and admitted to or enrolled full-time in a master's or doctoral program at a U.S. accredited university. Minority students are encouraged to apply. Additional information about the fellowship may be found at: <https://coast.noaa.gov/nerrs/research/davidson-fellowship.html>

**Description:** The NIST's Technology Partnerships Office (TPO) is seeking applications from eligible applicants for activities to assess the potential economic impacts, resulting from Federal research investments, of meeting the Nation's need for technology infrastructure [1] to support the Internet of Things (IoT). By identifying technological and economic trends in IoT research and assessing critical gaps in the Nation's IoT technology infrastructure, the recipient will produce an economic study to help guide industry, academia, and federal researchers in their efforts to accelerate the critical research needed for timely IoT development.

[1] Technology infrastructure can loosely be defined as the broad base of quasi-public technologies (technologies with varying degrees of public good content) and technical knowledge that supports firms', universities', and laboratories' research, production, distribution and marketing of novel and improved products, processes, and services (e.g., higher quality, more effective, more efficient, more productive).

Economic Development Administration  
FY 2017 Economic Development Assistance Programs - Application submission and program requirements for EDA's Public Works and Economic Adjustment Assistance programs.  
Synopsis 1

**Document Type:** Grants Notice

<b>Funding Opportunity Number:</b>	EDAP-2017
<b>Funding Opportunity Title:</b>	FY 2017 Economic Development Assistance Programs Application submission and program requirements for EDA's Public Works and Economic Adjustment Assistance programs.
<b>Opportunity Category:</b>	Discretionary
<b>Opportunity Category Explanation:</b>	
<b>Funding Instrument Type:</b>	Cooperative Agreement Grant
<b>Category of Funding Activity:</b>	Other (see text field entitled "Explanation of Other Category of Funding Activity" for clarification)
<b>Category Explanation:</b>	The Economic Development Administration's (EDA's) mission is to lead the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for economic growth and success in the worldwide economy. EDA fulfills this mission through strategic investments and partnerships that create the regional economic ecosystems required to foster globally competitive regions throughout the United States. EDA supports development in economically distressed areas of the United States by fostering job creation and attracting private investment. Specifically, under the Economic Development Assistance programs (EDAP) Notice of Funding Availability (NOFA), EDA will make construction, non-construction, and revolving loan fund investments under the Public Works and Economic Adjustment Assistance (EAA) Programs. Through this NOFA, EDA will also designate a portion of its EAA funding to support communities and regions that have been negatively impacted by changes in the coal economy (Assistance to Coal Communities, or ACC 2017). Grants made under these programs will leverage regional assets to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, encourage economic development, and strengthen America's ability to compete in the global marketplace. Through the EDAP NOFA, EDA solicits applications from rural and urban communities to develop initiatives that advance new ideas and creative approaches to address rapidly evolving economic conditions.

**Agency Name:**

Economic Development Administration

**Description:**

Under this NOFA, EDA solicits applications from applicants in rural and urban areas to provide investments that support construction, non-construction, technical assistance, and revolving loan fund projects under EDA's Public Works and EAA programs. Grants and cooperative agreements made under these programs are designed to leverage existing regional assets and support the implementation of economic development strategies that advance new ideas and creative approaches to advance economic prosperity in distressed communities, including communities and regions that have been impacted, or can reasonably demonstrate that they will be impacted, by coal mining or coal power plant employment loss, or employment loss in the supply chain industries of either. EDA provides strategic investments on a competitive- merit-basis to support economic development, foster job creation, and attract private investment in economically distressed areas of the United States. This EDAP NOFA supersedes the EDAP Federal Funding Opportunity dated December 23, 2016.

Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance programs. Under the Planning program EDA assists eligible recipients in creating regional economic development plans designed to build capacity and guide the economic prosperity and resiliency of an area or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which articulate and prioritize the strategic economic goals of recipients' respective regions. In general, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA designated Economic Development Districts to enable these organizations to develop and implement relevant CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help develop and implement CEDS and associated economic development activities. The Planning program also helps support organizations, including District Organizations, Indian Tribes, and other eligible recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of high-quality jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. The Local Technical Assistance program strengthens the capacity of local or State organizations, institutions of higher education, and other eligible recipients to undertake and promote effective economic development programs through projects such as feasibility analyses and impact studies.

## Description

Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance programs. Under the Planning program EDA assists eligible recipients in creating regional economic development plans designed to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which articulate and prioritize the strategic economic goals of recipients' respective regions. In general, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts to enable these organizations to develop and implement relevant CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help develop and implement CEDS and associated economic development activities. The Planning program also helps support planning organizations, including District Organizations, Indian Tribes, and other eligible Recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. The Local Technical Assistance program strengthens the capacity of local or State organizations, institutions of higher education, and other eligible recipients to undertake and promote effective economic development programs through projects such as feasibility analyses and impact studies.

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** Under this NOFO, only FY 2018 NIST SBIR Phase I awardees are eligible to submit applications. Each applicant must qualify as a small business concern for R/R&D purposes, as defined in Section 1.05 of this NOFO, at the time of award. In addition, the primary employment of the principal investigator must be with the small business at the time of the award and during the conduct of the proposed research. Primary employment means that more than one-half of the principal investigator's time is spent working with the small business. Primary employment with a small business precludes full-time employment with another organization. Occasionally, deviations from this requirement may occur, which must be approved in writing by the NIST Grants Officer after consultation with the SBIR Program Manager. Further, a small business may only replace the principal investigator on an SBIR Phase II award if the NIST Grants Officer provides prior written approval. Personnel obtained through a Professional Employer Organization or other similar personnel leasing company may be considered employees of the awardee.

**Agency Name:** National Institute of Standards and Technology

**Description:** This NOFO provides an opportunity to all FY 2018 NIST SBIR Phase I awardees to submit a Phase II application following completion of Phase I. This NOFO provides instructions for FY 2019 NIST SBIR Phase II application preparation and submission requirements. In Phase II, work from Phase I that exhibits potential for commercial application is further developed. Phase II is the R&D or prototype development phase. To apply for a Phase II award, each Phase I awardee will be required to submit a comprehensive application outlining the proposed research and a detailed plan to commercialize the final product. Each NIST Phase II award is for

up to \$400,000 and up to a 24-month period of performance. One year after completing the Phase II R&D activity, the awardee shall be required to report on its commercialization activities. Up to an additional \$6,500 may be requested for Technical and Business Assistance (TABAs); see Section 5.11 for more information about TABAs.

**Category Explanation:**

**Expected Number of Awards:** 10

**CFDA Number(s):** 11.011 -- Ocean  
Exploration

**Cost Sharing or Matching  
Requirement:** No

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** Eligible applicants are U.S.-based institutions of higher education; non-profit institutions; state, local, and tribal governments; federal agencies; for-profit organizations; and U.S. territories that possess the statutory authority to accept funding for this type of work. PLEASE NOTE: Before non-NOAA federal applicants may be funded, they must affirm that they have legal authority to receive funds from another federal agency in excess of their appropriation. Because this announcement is not proposing to procure goods or services from the applicants, the Economy Act (31 U.S.C. section 1535) is not an appropriate basis. NOAA and other federal agencies that possess the statutory authority to accept funding for this type of work must agree to take FY 2020 funding for proposed projects (both one and two year projects) and allocate them in FY 2020. The DOC and NOAA support cultural and gender diversity and encourage women and minority individuals and groups to submit applications to this Announcement of Federal Funding Opportunity (FFO). In addition, DOC/NOAA is strongly committed to broadening the participation of historically black colleges and universities, Hispanic serving institutions, tribal colleges and universities, and institutions that work in underserved areas. DOC/NOAA encourages applications involving any of the above institutions to apply.

**Agency Name:** Department of Commerce

**Description:** NOAA's Office of Ocean Exploration & Research (OER) is soliciting proposals for ocean exploration in waters under U.S. jurisdiction, including the U.S. Exclusive Economic Zone (EEZ). OER is interested in projects that provide data and information that may inform ocean-related segments of the U.S. economy, also referred to as the Blue Economy, and in projects that support Seabed 2030 goals, an international collaboration to fully map the global ocean by the year 2030.

**Agency Name:** National Institute of Standards and Technology

**Description:** NIST is soliciting applications for financial assistance for Fiscal Year 2019 (FY19) within the following NIST grant programs:

1. the Associate Director for Innovation and Industry Services (ADIIS);
2. the Associate Director for Laboratory Programs (ADLP);
3. the Communications Technology Laboratory (CTL);
4. the Engineering Laboratory (EL);
5. Fire Research (FR);
6. the Information Technology Laboratory (ITL);
7. the International and Academic Affairs Office (IAAO);
8. the Material Measurement Laboratory (MML);
9. the NIST Center for Neutron Research (NCNR);
10. the Physical Measurement Laboratory (PML);
11. the Special Programs Office (SPO); and
12. the Standards Coordination Office (SCO).

Detailed Program Descriptions, Funding Availability, and Evaluation Criteria for each respective subtopic can be found in the full announcement.

This funding opportunity will result in the award of grants or cooperative agreements. A grant or cooperative agreement is not the correct funding vehicle if the principal purpose is to provide products or services for the direct benefit or use of the federal government.

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** 1. Eligible Applicants: Eligible applicants are developers that have-- (a) Applied to an authorized public chartering authority to operate a charter school; and (b) Provided adequate and timely notice to that authority. (Section 4310(6) of the ESEA). Additionally, the charter school must be located in a State with a State statute specifically authorizing the establishment of charter schools (section 4310(2) of the ESEA) and in which a State entity currently does not have a CSP State Entity grant (CFDA number 84.282A) under section 4303 of the ESEA. (Section 4305(a)(2) of the ESEA). Eligibility in a State with a CSP

SEA grant (CFDA 84.282A) under the ESEA, as amended by NCLB, is limited to grants for replication and expansion (CFDA 84.282E) and only if the Department has not approved an amendment to the SEA's approved grant application authorizing the SEA to make subgrants for replication and expansion. As a general matter, the Secretary considers charter schools that have been in operation for more than five years to be past the initial implementation phase and, therefore, ineligible to receive CSP funds under CFDA number 84.282B to support the opening of a new charter school or under CFDA number 84.282E for the replication of a high-quality charter school; however, such schools may receive CSP funds under CFDA number 84.282E for the expansion of a high-quality charter school. Note: If an applicant has applied to an authorized public chartering agency to operate a new school and has not yet been approved, it should include information in its application addressing the plan and timeline to receive notification from the authorizer on the final decision. Additionally, an applicant should delineate any costs in its proposed budget that are projected to be incurred prior to the date the applicant's charter school application is approved by the authorized public chartering agency.

**Agency Name:** Department of Education

**Description:** Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 ([84 FR 3768](#)), or at [www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf](http://www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf).

Purpose of Program: The major purposes of the CSP are to expand opportunities for all students, particularly traditionally underserved students, to attend charter schools [1] and meet challenging State academic standards; provide financial assistance for the planning, program design, and initial implementation of public charter schools; increase the number of high-quality charter schools available to students across the United States; evaluate the impact of charter schools on student

achievement, families, and communities; share best practices between charter schools and other public schools; encourage States to provide facilities support to charter schools; and support efforts to strengthen the charter school authorizing process.

Through CSP Grants to Charter School Developers for the Opening of New Charter Schools and for the Replication and Expansion of High-Quality Charter Schools (CFDA numbers 84.282B and 84.282E, respectively) (also referred to as Developer Grants), the Department provides funds to charter school developers on a competitive basis to enable them to open new charter schools (CFDA number 84.282B) or replicate or expand high-quality charter schools (CFDA number 84.282E). Eligibility for a grant under this competition is limited to charter school developers in States that do not currently have a CSP State Entity grant (CFDA number 84.282A) under the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA). [2] Eligibility in a State with a CSP State Educational Agency (SEA) grant under the ESEA, as amended by the No Child Left Behind Act of 2001 (NCLB) (CFDA number 84.282A), is limited to charter school developers applying for grants for the replication and expansion of high-quality charter schools (CFDA number 84.282E) and only if the Department has not approved an amendment to the SEA's approved grant application authorizing the SEA to make subgrants for replication and expansion. Charter schools that receive financial assistance through Developer Grants provide programs of elementary or secondary education, or both, and may also serve students in early childhood education programs or postsecondary students.

Catalog of Federal Domestic Assistance (CFDA) number 84.282E.

[1] Italicized terms are defined in the Definitions section of this notice.

[2] All references to the ESEA in this notice are to the ESEA, as amended by the ESSA, unless otherwise noted.

## Eligibility

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** 1. Eligible Applicants: Eligible applicants are developers that have--(a) Applied to an authorized public chartering authority to operate a charter school; and (b) Provided adequate and timely notice to that authority. (Section 4310(6) of the ESEA). Additionally, the charter school must be located in a State with a State statute specifically authorizing the establishment of charter schools (section 4310(2) of the ESEA) and in which a State entity currently does not have a CSP State Entity grant (CFDA number 84.282A) under section 4303 of the ESEA. (Section 4305(a)(2) of the ESEA). Eligibility in a State with a CSP SEA grant (CFDA 84.282A) under the ESEA, as amended by NCLB, is limited to grants for replication and expansion (CFDA 84.282E) and only if the Department has not approved an amendment to the SEA's approved grant application authorizing the SEA to make subgrants for replication and expansion.

## Additional Information

**Agency Name:** Department of Education

**Description:** Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal

Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on February 13, 2019 ([84 FR 3768](#)), or at [www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf](http://www.govinfo.gov/content/pkg/FR-2019-02-13/pdf/2019-02206.pdf).

Purpose of Program: The major purposes of the CSP are to expand opportunities for all students, particularly traditionally underserved students, to attend charter schools [1] and meet challenging State academic standards; provide financial assistance for the planning, program design, and initial implementation of public charter schools; increase the number of high-quality charter schools available to students across the United States; evaluate the impact of charter schools on student achievement, families, and communities; share best practices between charter schools and other public schools; encourage States to provide facilities support to charter schools; and support efforts to strengthen the charter school authorizing process.

Through CSP Grants to Charter School Developers for the Opening of New Charter Schools and for the Replication and Expansion of High-Quality Charter Schools (CFDA numbers 84.282B and 84.282E, respectively) (also referred to as Developer Grants), the Department provides funds to charter school developers on a competitive basis to enable them to open new charter schools (CFDA number 84.282B) or replicate or expand high-quality charter schools (CFDA number 84.282E). Eligibility for a grant under this competition is limited to charter school developers in States that do not currently have a CSP State Entity grant (CFDA number 84.282A) under the Elementary and Secondary Education Act of 1965 (ESEA), as amended by the Every Student Succeeds Act (ESSA). [2] Eligibility in a State with a CSP State Educational Agency (SEA) grant under the ESEA, as amended by the No Child Left Behind Act of 2001 (NCLB) (CFDA number 84.282A), is limited to charter school developers applying for grants for the replication and expansion of high-quality charter schools (CFDA number 84.282E) and only if the Department has not approved an amendment to the SEA's approved grant application authorizing the SEA to make subgrants for replication and expansion. Charter schools that receive financial assistance through Developer Grants provide programs of elementary or secondary education, or both, and may also serve students in early childhood education programs or postsecondary students.

Catalog of Federal Domestic Assistance (CFDA) number 84.282B.

**Additional Information on Eligibility:**

**Agency Name:** Office of Science

**Description:** The Office of Science (SC) of the Department of Energy hereby announces its continuing interest in receiving grant applications for support of work in the following program areas: Advanced Scientific Computing Research, Basic Energy Sciences, Biological and Environmental Research, Fusion Energy Sciences, High Energy Physics, and Nuclear Physics. On September 3, 1992, DOE published in the Federal Register the Office of Energy Research Financial Assistance Program (now called the Office of Science Financial Assistance Program), 10 CFR 605, as a Final Rule, which contained a solicitation for this program. Information about submission of applications, eligibility, limitations, evaluation and selection processes and other policies and procedures are specified in 10 CFR 605.

This FOA (DE-FOA-0001968) is our annual, broad, open solicitation that covers all of the research areas in the Office of Science and is open throughout the Fiscal Year.

This FOA will remain open until September 30, 2019, 11:59 PM Eastern Time, or until it is succeeded by another issuance, whichever occurs first. This annual FOA (DE-FOA-0001968) succeeds FOA DE-FOA-0001820, which was published May 25, 2018.

**Additional Information on Eligibility:** The Secretary is authorized to make grants to provide technical assistance to public and nonprofit private entities and coordinate networks of such entities to establish and operate transitional living youth projects for homeless youth. For profit organizations are not eligible. Private institutions of higher education must be nonprofit entities. In selecting eligible applicants to receive grants under this FOA, priority will be given to applicants who have experience in providing shelter and services to homeless youth as required by the Runway and Homeless Youth (RHY) Act. Faith-based and community organizations that meet the eligibility requirements are eligible to receive awards under this funding opportunity announcement. Applications from individuals (including sole proprietorships) and foreign entities are not eligible and will be disqualified from competitive review and from funding under this announcement.

**Agency Name:**

Administration for Children & Families - ACYF/FYSB

**Description:**

The Administration for Children and Families, Administration on Children, Youth and Families' Family and Youth Services Bureau (FYSB) announces the availability of funds under the Transitional Living Program's Maternity Group Home (MGH) grant program (hereafter referred to as the MGH program). The purpose of FYSB's MGH program is to provide safe, stable, and appropriate shelter only for pregnant and/or parenting youth ages 16 to under 22 and their dependent child(ren) for 18 months and, under extenuating circumstances, up to 21 months. Service providers must accommodate for the needs and safety of the dependent children to include facility safety standards for infants and children

on the premises. MGH services include, but are not limited to, parenting skills, child development, family budgeting, and health and nutrition education, in addition to the required services provided under the Transitional Living Program to help MGH youth realize improvements in four core outcome areas. The MGH combination of shelter and services is designed to promote long-term, economic independence to ensure the well-being of the youth and their child(ren). Grants awarded under this announcement will have a start date of September 30, 2019 and will be for a 36-month project period.

<b>Eligible Applicants:</b>	Others (see text field entitled "Additional Information on Eligibility" for clarification)
-----------------------------	--

<b>Additional Information on Eligibility:</b>	Eligibility for RWHAP Part A grants is based in part on the number of confirmed AIDS cases within a statutorily specified "metropolitan area." The Secretary uses the Office of Management and Budget's (OMB) census-based definitions of a Metropolitan Statistical Area (MSA) in determining the geographic boundaries of a RWHAP metropolitan area. HHS utilizes the OMB geographic boundaries that were in effect when a jurisdiction was initially funded under RWHAP Part A. For all newly eligible areas, the boundaries are based on current OMB MSA boundary definitions. RWHAP Part A recipients that are classified as an EMA or as a TGA and continue to meet the status as an eligible area as defined in statute are eligible to apply for these funds. For an EMA, this is more than 2,000 cases of AIDS reported and confirmed during the most recent five (5) calendar years, and for a TGA, this is at least 1,000, but fewer than 2,000 cases of AIDS reported and confirmed during the most recent five (5) calendar years for which such data are available. In addition, for three (3) consecutive years, recipients must not have fallen below both the required incidence levels already specified, and required prevalence levels (cumulative total of living cases of AIDS reported to and confirmed by the Director of CDC, as of December 31 of the most recent calendar year for which such data are available). For an EMA, the required prevalence is 3,000 living cases of AIDS. For a TGA, the required prevalence is 1,500 or more living cases of AIDS. However, for a TGA with five (5) percent or less of the total amount from grants awarded to the area under Part A unobligated, as of the end of the most recent fiscal year, the required prevalence is at least 1,400 (and fewer than 1,500) living cases of AIDS. This competition is open to eligible Part A jurisdictions to provide comprehensive primary health care and support services for people with HIV who are low income, uninsured, and underserved in their service areas as listed in Appendix B.

<b>Agency Name:</b>	Health Resources and Services Administration
---------------------	--

<b>Description:</b>	This notice announces the opportunity to apply for funding under the Ryan White HIV/AIDS Program (RWHAP) Part A HIV Emergency Relief Grant Program. The purpose of this program is
---------------------	--

to provide direct financial assistance to an eligible metropolitan area (EMA) or a transitional grant area (TGA) that has been severely affected by the HIV epidemic. Grant funds assist eligible jurisdictions to develop or enhance access to a comprehensive continuum of high quality, community-based care for people with HIV who are low-income through the provision of formula, supplemental, and Minority AIDS Initiative (MAI) funds. RWHAP Part A recipients must provide comprehensive primary health care and support services throughout the entire designated geographic service area. The goal is to provide optimal HIV care and treatment for people with HIV who are low-income, uninsured, and underserved, to improve their health outcomes.

**Agency Name:**

Office of Procurement Operations - Grants Division

**Description:**

The Science and Technology Directorate (S&T) is DHS's primary research and development (R&D) arm. S&T manages science and technology research, from development through transition, for the department's operational components and the nation's first responders. S&T's engineers, scientists and researchers work closely with industry and academic partners to ensure R&D investments address the high-priority needs of today and the growing demands of the future.

Advances in the ability to design and engineer biological organisms for intended purposes, an ability commonly called synthetic biology, increase our understandings of natural systems. Improved understandings of natural systems can equate to improved performance of those (and other) systems. For instance, synthetic biology can be used to alter genetic information within cells to enable a range of outcomes, from simple things like changing the color of a plant to complex things like designing improved medicines that seek and eliminate diseased cells within a sick person. At the same time, improvements in engineering techniques, tools, and applications can be merged with biology to develop biological parts and systems that are working and sustainable. In addition, synthetic biology is unique among the basic sciences because it exists at the intersection of engineering, science and commercial impact – three valuable arenas. As a result of these advantages, synthetic biology is a field in which the U.S. cannot afford to lag.

To stay competitive in the search for answers through biology, the U.S. government needs to have close relationships with the bioengineering, or synthetic biology, community, including commercial companies and end users. Having a close relationship with the synthetic biology community would enable the government to keep abreast of the changes and impacts brought about by synthetic biology, so the government could assess the potential upsides and dangers resulting from synthetic biology processes. As a result, DHS proposes to bring together a community of scientists, engineering developers, commercial companies, and end users to enable DHS to both understand the possible directions the synthetic biology community may take in the future, and also influence those directions

Private institutions of higher education  
City or township governments  
Public housing authorities/Indian housing authorities  
State governments  
Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education

**Additional Information on Eligibility:** Human Trafficking Program Eligible Applicants: For the purposes of housing and trauma-informed, client centered services under this NOFA, of which \$13,500,000 is available, additional eligible applicants, and subrecipients, defined as other governments, e.g., town, borough, parish, village or other general purpose political subdivision of a state, territory, or federally recognized Indian tribe government. Additionally, institutions of higher education are eligible if they hold an IRS 501(c)(3) final determinate letter. If the applicant chooses to include subrecipients, the subrecipients must meet the same eligibility requirements as the applicant. If a non-profit organization will submit the application, a copy of the IRS 501(c)(3) must be attached to this application. Additionally, if the application includes subrecipients, non-profit documentation for the subrecipients must also be attached to this application. Human Trafficking Technical Assistance Eligible Applicants: For the purposes of the technical assistance under this NOFA, of which \$1,000,000 is available, the following lists eligible applicants in addition to the eligible applicants listed above under program eligible applicants: Non-profits without 501(c)(3) status with IRS, other than institutions of higher education; Private institutions of higher education; Private institutions other than small businesses; and Small businesses. Lobbying, promoting, or advocating the legalization/regulation of prostitution. The Federal Government is opposed to prostitution and related activities, which are inherently harmful and dehumanizing, contributing to the phenomenon of trafficking in persons. U.S. nongovernmental organizations and their subrecipients cannot use federal funds to lobby for, promote, or advocate the legalization or regulation of prostitution as a legitimate form of work. Foreign nongovernmental organizations and their subrecipients that receive federal funds to fight trafficking in persons cannot lobby for, promote, or advocate the legalization or regulation of prostitution as a legitimate form of work. It is the responsibility of the primary recipient to ensure these criteria are met by its subrecipients. The following conditions apply to any project recipient and its subrecipients if selected for conditional award and must be confirmed prior to issues of the grant agreement: 1. certify that it does not promote, support, or advocate the legalization or practice of prostitution; and 2. will not use grant funds or program match funds to promote, support, or advocate the legalization or practice of

prostitution. Additionally, an applicant or its subrecipients cannot use offshore accounts to avoid taxes. The following conditions apply to any project recipients and its subrecipients if selected for conditional award and must be confirmed prior to issuance of the grant agreement: 1. does not hold money in offshore accounts for the purpose of avoiding paying the tax described in 26 U.S.C. 1511(a), and agrees that it will not hold money in any such accounts for such a purpose during the period of performance of the award if conditionally selected; and 2. agrees that, if, during the period of performance of award if conditionally selected, the recipient and any subrecipients learns that it does hold money in offshore accounts for such a purpose, it will immediately stop any further obligations of award funds. It will provide prompt written notification to Office of Justice Programs (OJP) and will resume (or permit resumption of) such obligations only if expressly authorized to do so by OJP. Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.

**Agency Name:**

Department of Housing and Urban Development

**Description:**

Housing and Services: The U.S. Department of Justice (DOJ) and the U.S. Department of Housing and Urban Development (HUD) have partnered under this NOFA to address human trafficking that occurs within communities. The purpose of this program is to enhance the quality and quantity of safe housing and specialized services available to assist victims of human trafficking, as defined by the Trafficking Victims Protection Act (TVPA) of 2000, as amended. This includes specialized housing and services that are enhanced by a collaborative and coordinated community response that engages appropriate community resources. Organizations that demonstrate the ability to provide safe housing options and client-focused services for victims of human trafficking that result in obtaining and remaining in permanent housing situations with the necessary supportive services to ensure participant success for housing retention, that includes obtaining the necessary income to promote self-sufficiency, are encouraged to apply for this funding. Technical Assistance: This NOFA includes up to \$1 million for a technical assistance provider that has experience in assisting HUD-funded and DOJ-funded organizations in the areas of housing and services specifically for victims of human trafficking.

**Agency Name:** Fish and Wildlife Service

**Description:** The Sport Fish Restoration Act and the Wildlife Restoration Act, as amended by the Wildlife and Sport Fish Restoration Programs Improvement Act of 2000 (Pub. L. 106-408) authorize the Secretary of the Interior to make up to \$6,000,000 available annually under the Wildlife and Sport Fish Restoration Program (WSFR) to fund multistate conservation project grants. The primary goal of the MSCGP is to provide grant funds to address regional or national priority needs (National Conservation Needs or NCNs) of the State fish and wildlife agencies (States) and their partners that are beyond the scope and capabilities of a single State. Projects awarded funding are published annually in the Federal Register. Lists of past awards are also available from the Wildlife and Sport Fish Restoration Program or the Association of Fish and Wildlife Agencies contacts listed below (Section VIII, Agency Contacts). WSFR's mission is to work through partnerships to conserve and manage fish and wildlife and their habitats for the use and enjoyment of current and future generations. WSFR's vision is of healthy, diverse, and accessible fish and wildlife populations that offer recreation, economic activity, and other societal benefits, in addition to sustainable ecological functions. WSFR's guiding principle is that society benefits from conservation-based management of fish and wildlife and their habitats and opportunities to use and enjoy them. The MSCGP aligns with WSFR's mission, vision, and guiding principle, and support three of the Department of the Interior's priorities including, Creating a conservation stewardship legacy second only to Teddy Roosevelt; Utilizing our natural resources; and Restoring trust with our local communities. Projects funded through the MSCGP provide grant funds to address regional or national level priority needs of the States that are beyond the scope and capabilities of a single State.

**Description:** The Fish and Wildlife Management Assistance Program provides technical and financial assistance to other federal agencies, states, local governments, Native American tribes, non-governmental organizations, citizen groups, and landowners for the conservation and management of fish and wildlife resources. This includes minimizing the establishment, spread, and impact of aquatic invasive species. Specifically, aquatic habitat conservation projects under this program must protect, restore, and enhance fish and aquatic habitats, as outlined in the National Fish Habitat

Action Plan (Action Plan). Likewise, projects under this program directly or indirectly, support and promote public access to recreational fishing opportunities and the sustainable use of other natural resources. Funded projects may be carried out by Fish Habitat Partnerships (FHPs) recognized by the National Fish Habitat Board (Board) or the partners of Board recognized FHPs. More information about the FHPs and their partners can be found online at [www.fishhabitat.org](http://www.fishhabitat.org).

#### Additional Information

<b>Agency Name:</b>	Fish and Wildlife Service
<b>Description:</b>	<p>Federal Program: Department of the Interior, United States (U.S.) Fish and Wildlife Service, Division of Natural Resources and Conservation Planning Catalog of Federal Domestic Assistance (CFDA) Number: 15.631 Authorizing Legislation: Partners for Fish and Wildlife Act of 2006, S.260 Public Law 109-294; Fish and Wildlife Act of 1956, 16 U.S.C. 742a-c, 747e-742j; and Fish and Wildlife Coordination Act of 1958, 16 U.S.C. 661 667(e).</p> <p>The Partners for Fish and Wildlife (PFW) Program is a voluntary, incentive-based program that provides direct technical assistance and financial assistance in the form of cooperative and grant agreements to private landowners to restore and conserve fish and wildlife habitat for the benefit of federal trust resources. The PFW Program is delivered through more than 250 full-time staff, active in all 50 States and territories. Partners for Fish and Wildlife Program staff coordinate with project partners, stakeholders and other Service programs to identify geographic focus areas and develop habitat conservation priorities within these focus areas. Geographic focus areas define where the program directs resources to conserve habitat for federal trust species. Project work plans are developed strategically, in coordination with partners, and with substantial involvement from Service field staff. The program has been in existence since 1987 and has over 30 years of successful delivery. Project selection will seek to align or support the Secretary's priorities. It also advance the Department of the Interior's mission, U.S. Fish and Wildlife Service's mission, and PFW's mission, promote biological diversity, and based upon sound scientific biological principles. Program strategic plans inform the types of projects funded under this opportunity.</p> <p>***Applicants seeking technical or financial assistance from the PFW Program are requested to consult with the Regional PFW Program office BEFORE developing or submitting an application (see Section VIII. Agency Contacts at the end of this announcement).</p> <p>***Project selection will seek to align or support the Secretary's priorities. Program funding will enhance the missions of DOI, FWS, and PFW.</p> <p>1. Restoring trust with local communities: The PFW program has local field biologists across all 50 states stationed and living in the communities they serve which enhances trust and allows sustainable relationship building. Projects which support and build trust with local communities will receive high prioritization. 2. Modernizing our infrastructure: The PFW program will assist with modernizing fish passage structures to allow safe travel by aquatic resources and at the same time, allow for structural</p>

stability by designing units to avoid flood damage. Additionally, wetland levees, water control structures, and fencing projects are a few examples of modernizing infrastructure to support American conservation.<sup>3</sup> Ensuring sovereignty means something: Many PFW projects support tribal operations and PFW staff will continue to recognize opportunities to enhance those relationships.<sup>4</sup> Hunt/Fish: The PFW Program will continue to deliver on-the-ground habitat to support robust populations of wildlife for recreational use by the American public. These will support Secretarial Orders 3347, 3356, and 3362.<sup>5</sup> National Wildlife Refuge System. PFW Program staff will favor conservation activities and projects that are on private lands near National Wildlife Refuge (Refuges) lands. Activities or projects that complement conservation practices on Refuges or resolve problems on Refuges that are caused by off-refuge land use practices will be given higher priority.<sup>6</sup> Expand priority habitats, reduce habitat fragmentation, establish conservation buffers, and provide wildlife movement corridors that result in self-sustaining systems. Our staff will give preference to habitat improvement projects near protected land, including land owned or controlled by the National Wildlife Refuge System, National Forests, National Park Service, U.S. Department of Agriculture, other federal agencies, tribal, state agencies, or nongovernment entities.<sup>7</sup> Regional strategic plans and priorities. PFW Program regional and field staff work with conservation partners to identify habitat conservation priorities and delineate geographic focus areas in our Regional strategic plans. The geographic focus areas represent an integration of shared habitat conservation priorities among the Service, conservation partners, and stakeholders. We will concentrate our technical and financial resources in these focus areas to conserve priority habitat. Habitat improvement projects that meet region-specific priorities and are located within geographic focus areas will receive higher priority. However, field staff are not prohibited from implementing high-value habitat improvement projects outside of these geographic focus areas.

Additional Information

<b>Agency Name:</b>	Fish and Wildlife Service
<b>Description:</b>	Federal Program: Department of the Interior, United States (U.S.) Fish and Wildlife Service, National Wildlife Refuge System, Division of Natural Resources and Conservation Planning, Coastal Program Catalog of Federal Domestic Assistance (CFDA) Number: 15.630 Authorizing Legislation: Fish and Wildlife Coordination Act (16 U.S.C. 661-667e), Fish and Wildlife Act of 1956 (16 U.S.C. 742a-742j, not including

742 d-l), National Wildlife Refuge System Improvement Act of 1997 (Public Law 105-57)

The Coastal Program is a voluntary, community-based program that provides technical and financial assistance through cooperative agreements to coastal communities, conservation partners, and landowners to restore and protect fish and wildlife habitat on public and private lands. Coastal Program staff coordinates with project partners, stakeholders and other Service programs to identify geographic focus areas and develop habitat conservation priorities within these focus areas. Geographic focus areas are where the Coastal Program directs resources to conserve habitat for Federal trust species. Regional staff develop five-year strategic work plans based on the conservation priorities and the geographic focus areas that guides the work of the program. Projects are developed in collaboration with partners, and with substantial involvement from Service field staff. Projects must advance the missions of the U.S. Department of the Interior (DOI), U.S. Fish and Wildlife Service (Service), and the Coastal Program, and be based on sound scientific biological principles. Projects must also support the financial assistance priorities of Department of the Interior, specifically Priorities 1, 3, 8.

#### DOI Priority Coastal Program Support

1. Creating a conservation stewardship legacy second only to Teddy Roosevelt  
The Coastal Program mission is to achieve voluntary habitat conservation by providing technical and financial assistance, in collaboration with partners, for the benefit of Federal trust species. Working with partners, we deliver strategic habitat conservation by conducting landscape-scale planning and design and implementing habitat improvement and protection projects.

3. Restoring trust with local communities The Coastal Program partners with local communities to plan and deliver priority habitat conservation projects that benefit recovery and management of Federal trust species, and address other community priorities;

8. Modernizing our infrastructure Some Coastal Program projects are designed to: (1) improve habitat connectivity (e.g., fish passage structures, culvert retrofits, stream channel improvements, and removal of tidal restrictions and low head dams and levees); (2) attenuate coastal erosion (e.g., wetland restoration, living shorelines, streambank stabilizations, dune restorations, revegetation, and fencing); and (3) maintain habitat for migratory birds and waterfowl (e.g., construction of berms and installation of water control structures).

\*\*\*If you have a potential project that meets the VI. APPLICATION REVIEW criteria, we request that you consult with your regional Coastal Program office below BEFORE developing or submitting an application.

**Additional Information on Eligibility:** By statute, grants under this program may be awarded to states, territories, units of local government, federally recognized Indian tribal governments (as determined by the Secretary of the Interior), and nonprofit, nongovernmental organizations (defined as an organization that is described in section 501(c)(3) of Title 26 and is exempt from taxation under 501(a) of such title) For the purposes of this program, a unit of local government is any city, county, township, town, borough, parish, village, or other general purpose political subdivision of a state, territory, or federally recognized Indian tribal government. All recipients and subrecipients must forgo any profit or management fee. Nonprofit organizations that hold money in offshore accounts for the purpose of avoiding paying the

tax described in 26 U.S.C. § 511(a) are not eligible to apply. Grantees awarded funding in Fiscal Years (FYs) 2017 or 2018 under the Comprehensive Services for All Victims of Human Trafficking, Specialized Services for Victims of Human Trafficking, or the Enhanced Collaborative Model Human Trafficking Task Force solicitations are not eligible to apply for funding under Purpose Areas 1 and 2 of this program, unless the new proposal outlines new services, cost items, or a distinct geographic scope not included in the FY 2017 or 2018 award. Under this solicitation, an applicant may submit one or more applications under each purpose area for which they are eligible. OVC may make more than one award to a single organization. OVC welcomes applications under which two or more entities would carry out the federal award; however, only one entity may be the applicant. Any others must be proposed subrecipients ("subgrantees"). (Note: For additional information on subawards, see "Budget and Associated Documentation" under Section D. Application and Submission Information.) The applicant must be the entity that would have primary responsibility for carrying out the award, including administering the funding and managing the entire project.

**Agency Name:**

Office for Victims of Crime

**Description:**

This solicitation will provide funding for direct services to victims of sex trafficking and labor trafficking, as well as for efforts to increase the capacity of communities to respond to human trafficking through the development of interagency partnerships, professional training, and public awareness activities. Applicants may apply for one or more of the following purpose areas (PAs) and focus areas (FAs): PA 1: Comprehensive Services for Victims of All Forms of Human Trafficking which has 3 FAs (FA 1. Building Capacity to Provide Comprehensive Services, FA 2. Sustaining Capacity to Provide Comprehensive Services to Victims of All Forms of Human Trafficking, and FA 3. **Cost Sharing or  
Matching Requirement:** Yes

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** Category 1 (OJJDP-2019-16249): Specialized Services and Mentoring for Child and Youth Victims of Sex Trafficking and Sexual Exploitation Eligible applicants are limited to states (including territories), units of local government, federally recognized Indian tribal governments (as determined by the Secretary of the Interior), nonprofit organizations and for-profit organizations (including tribal nonprofit and for-profit organizations), and institutions of higher education (including tribal institutions of higher education). Eligible applicants that propose to provide direct services to youth must not include youth who are age 18 or older in the population they will serve. Category 2 (OJJDP-2019-16250): Enhanced Service Delivery for Boys Who Are Victims of Sex and Labor Trafficking and Commercial Sexual Exploitation Eligible applicants are limited to states (including territories), units of local government, federally recognized Indian tribal governments, nonprofit organizations, and nongovernmental organizations. Applicants that are nonprofit organizations must be organizations described in 26 U.S.C. 501(c)(3) and exempt from taxation under 26 U.S.C. 501(a). Nonprofit organizations that hold money in offshore accounts for the purposes of avoiding paying the tax described in 26 U.S.C. 511(a) are not eligible to apply. Eligible applicants that propose to provide direct services to youth must not include youth who are age 18 or older in the population they will serve. Federal laws prohibit recipients of OJP funding from discriminating in the delivery of services on the basis of age, race, color, national origin, sex, religion, or disability. The applicant may, under certain circumstances, limit services based upon sex and refer otherwise eligible beneficiaries outside of the specialized group to other services. All recipients and subrecipients (including any for-profit organization) must forgo any profit or management fee. Category 3 (OJJDP-2019-16251): Preventing Sex Trafficking of Girls and Involvement in the Juvenile Justice System Eligible applicants are limited to states (including territories), units of local government, federally recognized Indian tribal governments, nonprofit organizations and for-profit organizations (including tribal nonprofit and for-profit organizations), and institutions of higher education (including tribal institutions of higher education). For the purposes of this solicitation, "youth involved in the juvenile justice system" refers to those youth younger than age 18 who have been arrested or referred for intake to a public agency (state, tribal, city, or county) legally responsible for handling juvenile crime, delinquency, and youth in need of guidance, treatment, or rehabilitation due to problematic behavior (i.e., truancy, running away, ungovernable, etc.). Eligible applicants that propose to provide direct services to youth must not include youth who are age 18 or older in the population they will serve. All recipients and subrecipients (including any for-profit organization) must forgo any profit or management fee. For all three categories, OJJDP will consider applications under which two or more entities would carry out the federal award; however, only one entity may be the applicant. Any others must be proposed as subrecipients (subgrantees). The applicant must be the entity that would have primary responsibility for carrying out the award, including administering the funding and managing the entire

program. Under this solicitation, only one application by any particular applicant entity will be considered. An entity may, however, be proposed as a subrecipient (subgrantee) in more than one application. For additional information on subawards, see the OJP Grant Application Resource Guide.

**Agency Name:** Office of Juvenile Justice Delinquency Prevention

**Description:** The purpose of the program is to support the efforts of organizations to develop or enhance their mentoring capacity, facilitate outreach efforts, and increase the availability of direct services for child and youth victims of commercial sexual exploitation and domestic sex trafficking. Under this initiative, experienced organizations work with OJJDP's existing training and technical assistance provider to develop or enhance mentoring service models and mentor training based on best practices to focus on the needs of girls and boys, who are at risk or are victims of commercial sexual exploitation and domestic sex trafficking.

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** Eligible applicants for these grants are private non-profit or public agencies. These organizations include rural, urban, or Native American agencies that have previously served disadvantaged youth in a YouthBuild or other similar program. These agencies or organizations may include, but are not limited to: • Community and faith-based organizations with IRS 501(c)(3) non-profit status; • An entity carrying out activities under WIOA, such as a local workforce development board or one-stop center partner program; • Educational institutions, including a local school board, public school district, or community college; • A community action agency; • A State or local housing development agency; • Any Indian and Native American entity eligible for grants under Section 166 of WIOA, including Federally and other than Federally-Recognized Tribes, Native American non-profit organizations, and Native Hawaiian and Alaska Native organizations; • A community development corporation; • A State or local youth service conservation corps; and • Any other public or private non-profit entity that is eligible to provide education or employment training under a Federal program and can meet the required elements of the grant.

**Agency Name:** Employment and Training Administration

**Description:** The Employment and Training Administration (ETA), U.S. Department of Labor (DOL), announces the availability of approximately \$85 million in grant funds authorized by the Workforce Innovation and Opportunity Act (WIOA) (Pub. L. 113-128) for YouthBuild.

Under this Funding Opportunity Announcement (FOA), DOL will award grants through a competitive process to organizations providing pre-apprenticeship services that support education, occupational skills training, and employment services to at-risk youth, ages 16 to 24, while performing

meaningful work and service to their communities. In addition to construction skills training, YouthBuild applicants may include occupational skills training in other in-demand industries. This expansion into additional in-demand industries is the Construction Plus component, a priority in this grant competition.

DOL hopes to serve approximately 5,250 participants during the grant period of performance, with approximately 70 projects awarded across the country. Individual grants will range from \$700,000 to \$1.5 million and require a 25 percent match from applicants, using sources other than Federal funding.

**Agency Name:** Employment and Training Administration

**Description:** This Announcement solicits applications for the Apprenticeships: Closing the Skills Gap grant program. The purpose of this program is to promote apprenticeships as a significant workforce solution in filling current middle- and high-skilled job vacancies and closing the skills gap between employer workforce needs and the skills of the current workforce.

In June 2017, the President issued Executive Order 13801 on Expanding Apprenticeship in America, which lays out an expansive vision for apprenticeship that would increase the number of apprentices in the nation to an unprecedented level across all industries. The overarching goals of this grant program are threefold: (1) to accelerate the expansion of apprenticeships to new industry sectors and occupations, such as cybersecurity and those involving artificial intelligence; (2) to promote the large-scale expansion of apprenticeships across the nation to a range of employers, including small- and medium-sized employers; and (3) to increase apprenticeship opportunities for all Americans.

<b>Additional Information on Eligibility:</b>	<p>The following organizations and entities may apply for grant funds for Stand Down events: State and Local Workforce Development Boards, Veteran Service Organizations, local public agencies, tribal governments, and non-profit organizations including community and faith-based organizations. Organizations registered with the Internal Revenue Service as 501(c)(4) entities are not eligible to apply for this funding opportunity.</p>
<b>Agency Name:</b>	Veterans Employment and Training Service
<b>Description:</b>	<p>DOL VETS supports local Stand Down (SD) events that assist homeless veterans by providing a wide variety of employment, social, and health services. A homeless veteran is a veteran, as defined in 38 U.S.C. 101(2), who is "homeless" as that term is defined at 42 U.S.C. 11302(a)-(b), as amended by the Homeless Emergency Assistance and Rapid Transition to Housing Act of 2009 (Public Law 111-22). Stand Down grant funds must be used to enhance employment and training opportunities or to promote the self-sufficiency of homeless veterans through paid work. Veterans experiencing homelessness do not always have access to basic hygiene supplies necessary to maintain their health and appearance. Lack of</p>

shelter limits their ability to prepare for and present themselves at job interviews or be contacted for follow-up. Basic services such as showers, haircuts, attention to health concerns, and other collaborative services provided at SD events can give participants a greater sense of self and an opportunity to improve their chances of securing and maintaining employment. Each year, VETS sets funds aside from the Homeless Veterans' Reintegration Program (HVRP) budget activity to award SD grants. Stand Down funding is a non-competitive grant awarded on a first-come, first-served basis until available annual funding is exhausted. VETS will continue to accept applications and process when additional funds become available. The maximum amount that can be awarded, per applicant for a geographic area, in a fiscal year (October 1 – September 30) is \$7,000 for a one-day event and \$10,000 for a multi-day event. Grants may be awarded to multiple organizations that conduct SD events in the same general area so long as there is no commingling of federal funds. In the event of a significant natural or man-made disaster, VETS may elect to accept and award grants for SD events in excess of the \$10,000 limit. VETS recognizes the following as circumstances that may justify awarding SD grants in higher amounts: emergencies or major disasters, as defined in the Stafford Act, which have been declared eligible for public assistance by the Federal Emergency Management Agency (FEMA). In addition, emergencies or disaster situations of national significance, natural or man-made, that could result in a potentially large loss of employment, as declared or otherwise recognized in writing by the chief official of the Federal Agency with jurisdiction over the Federal response to the emergency or disaster. If the VETS Assistant Secretary determines it is appropriate to award increased grants for SD events due to a disaster, the VETS Assistant Secretary will announce such a determination in writing, including the maximum amount that can be awarded on account of such an identified disaster, in order to provide notice to entities proposing to conduct SD events in those geographic areas where a disaster has been declared or to which a substantial number of veterans have relocated or been relocated. Acceptable uses of Stand Down grant funds do not change in such circumstances. All applications should be emailed to the appropriate DVET of the state in which the SD event is planned.

**Additional Information on Eligibility:**

**Agency Name:** National Archives and Records Administration

**Description:** The National Historical Publications and Records Commission seeks projects that will significantly improve public discovery and use of major historical records collections. The Commission is especially interested in collections of America’s early legal records, such as the records of colonial, territorial, county, and early statehood and tribal proceedings that document the evolution of the nation’s legal history. All types of historical records are eligible, including documents, photographs, born-digital records, and analog audio and moving images. Projects may: • Digitize historical records collections, or related collections, held by a single institution and make them freely available online • Provide access to born-digital records • Create new freely-available virtual collections drawn from historical records held by multiple institutions • Create new tools and methods for users to access records The NHPRC welcomes collaborative

projects, particularly for bringing together related records from multiple institutions. Projects that address significant needs in the field and result in replicable and scalable approaches will be more competitive. We also encourage organizations to actively engage the public in the work of the project. Applicants should also consult Access to Historical Records: Archival Projects program, which has different requirements and award amounts. For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>). Applications that consist entirely of ineligible activities will not be considered. Award Information A grant is for one to three years and for between \$100,000 and \$350,000. We expect to make up to five grants in this category for a total of up to \$1,000,000. Grants begin no earlier than January 1, 2021. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications and other products that result from its support. Eligibility Eligible applicants: • Nonprofit organizations or institutions • Colleges, universities, and other academic institutions • State or local government agencies • Federally-acknowledged or state-recognized Native American tribes or groups Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. The Commission provides no more than 50 per cent of total project costs in the Access to Historical Records: Major Initiatives category. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost sharing contribution. Other Requirements Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF. A complete preliminary application includes the Application for Federal Assistance (Standard Form 424), a Project Narrative, and Budget. Applications lacking these items will not be considered. Ineligible applications will not be reviewed.

#### **Additional Information on Eligibility:**

**Agency Name:** National Archives and Records Administration

**Description:** The National Historical Publications and Records Commission seeks projects that will significantly improve public discovery and use of major historical records collections. The Commission is especially interested in collections of America's early legal records, such as the records of colonial, territorial, county, and early statehood and tribal proceedings that document the evolution of the nation's legal history. All types of historical records are eligible, including documents, photographs, born-digital records, and analog audio and moving images. Projects may:

- Digitize historical records collections, or related collections, held by a single institution and make them freely available online
- Provide access to born-digital records
- Create new freely-available virtual collections drawn from historical records held by multiple institutions
- Create new tools and methods for users to access records

The NHPRC welcomes collaborative projects, particularly for bringing together related records from multiple institutions. Projects that address significant needs in the field and result in replicable and scalable approaches will be more competitive. We also encourage organizations to actively engage the public in the work of the project. Applicants should also consult Access to Historical Records: Archival Projects program, which has different requirements and award

amounts. For a comprehensive list of Commission limitations on funding, please see: "What we do and do not fund" (<http://www.archives.gov/nhprc/apply/eligibility.html>). Applications that consist entirely of ineligible activities will not be considered. Award Information A grant is for one to three years and between \$100,000 and \$350,000. We expect to make up to five grants in this category for a total of up to \$1,000,000. Grants begin no earlier than January 1, 2021. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publicity, publications, and other products that result from its support. Eligibility Eligible applicants:• U.S. nonprofit organizations or institutions• U.S. colleges, universities, and other academic institutions• State or local government agencies• Federally-acknowledged or state-recognized Native American tribes or groups Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. The Commission provides no more than 50 per cent of total project costs in the Access to Historical Records: Major Initiatives category. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost sharing contribution. Other Requirements Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. #### **Additional Information on Eligibility:**

**Agency Name:** National Archives and Records Administration

**Description:** The National Historical Publications and Records Commission seeks proposals to publish documentary editions of historical records. Projects may focus on broad historical movements in U.S. history, such as politics, law (including the social and cultural history of the law), social reform, business, military, the arts, and other aspects of the national experience, or may be centered on the papers of major figures from American history. Whether conceived as a thematic or a biographical edition, the historical value of the records and their expected usefulness to broad audiences must justify the costs of the project.

The goal of this program is to provide access to, and editorial context for, the historical documents and records that tell the American story. Applicants should demonstrate familiarity with the best practices recommended by the [Association for Documentary Editing](#) or the Modern. All new projects (those which have never received NHPRC funding) must have definitive plans for publishing and preserving a digital edition which provides online access to a searchable collection of documents. New projects may also prepare print editions (including ebooks and searchable PDFs posted online) as part of their overall publishing plan, but the contents of those volumes must be published in a fully-searchable digital edition within a reasonable period of time following print publication. The NHPRC encourages projects to provide free access to online editions. Projects that do not have definitive plans for digital dissemination and preservation in place at the time of application will not be considered.

Grants are awarded for collecting, describing, preserving, compiling, transcribing, annotating, editing, encoding, and publishing documentary source materials online and in print. Eligible documentary edition projects typically focus on original manuscript or typewritten documents, but may also include other formats, such as analog audio and/or born-digital records. Because of the focus on documentary sources, grants do not support preparation of critical editions of published works unless such works are just a small portion of the larger project.

For a comprehensive list of the Commission's limitations on funding, please see [What We Do and Do Not Fund](#). Applications that consist entirely of ineligible activities will not be considered.

**Ongoing projects:** Applicants from ongoing projects must demonstrate that they have successfully achieved the performance objectives associated with previous NHPRC awards; provide updated, current information, including a description of the new activities; describe the content and historical significance of the specific materials to be edited during the proposed grant period; show progress towards completing the edition; and justify costs in a new budget.

#### **Award Information**

A grant is for one or two years and for up to \$200,000 per year. The Commission expects to make up to 25 grants in this category for a total of up to \$3,000,000. Grants begin no earlier than January 1, 2020.

The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, publicity, and other products that result from its support.

#### **Eligibility**

- U.S. nonprofit organizations or institutions
- U.S. colleges, universities, and other academic institutions
- State or local government agencies
- Federally-acknowledged or state-recognized Native American tribes or groups

#### **Cost Sharing**

The total costs of a project are shared between the NHPRC and the applicant organization.

The Commission provides no more than 50 per cent of total project costs in the Publishing Historical Records in Documentary Editions category. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101).

Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost sharing contribution.

#### **Other Requirements**

Applicant organizations must be registered in the System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at <https://sam.gov>. Please refer to the User Guides section and the Grants Registrations PDF.

A complete application includes the Application for Federal Assistance (Standard Form 424), Assurances -- Non-Construction Programs (Standard Form 424B), a Project Narrative, Summary, Supplementary Materials, and Budget. Applications lacking these items will not be considered.

Ineligible applications will not be reviewed.

#### Additional Information on Eligibility:

**Agency Name:**

National Endowment for the Arts

**Description:**

The Arts Endowment's support of a project may start on July 1, 2020, or any time thereafter. A grant period of up to two years is allowed. An organization may submit as a lead applicant two applications to Our Town. A partnering organization may serve as a partner on as many applications as they like. You may apply to other National Endowment for the Arts funding opportunities, including Art Works and Challenge America, in addition to Our Town. In each case, the request must be for a distinctly different project, or a distinctly different phase of a project. If you have applied to the NEA in the past and were not recommended for funding, you may apply again to any funding opportunity, including Our Town.

Program Description Our Town is the National Endowment for the Arts' creative placemaking grants program. Through project-based funding, we support projects that integrate arts, culture, and design activities into efforts that strengthen communities by advancing local economic, physical, and/or social outcomes. Successful Our Town projects ultimately lay the groundwork for systemic changes that sustain the integration of arts, culture, and design into local strategies for strengthening communities. These projects require a partnership between a local government entity and nonprofit organization, one of which must be a cultural organization; and should engage in partnership with other sectors (such as agriculture and food, economic development, education and youth, environment and energy, health, housing, public safety, transportation, and workforce development). Matching grants range from \$25,000 to \$200,000, with a minimum cost share/match equal to the grant amount. FY 2020 marks the 10 year anniversary of the Our Town program. We are looking for projects that reflect a new and catalytic way of working, and demonstrate the potential for sustained support and recognition for arts, design, and cultural strategies as integral to every phase of community development.

**Agency Name:** National Endowment for the Arts

**Description:** An organization may submit only one application through one of the following FY 2020 categories: Art Works or Challenge America.

The Arts Endowment's support of a project may start on or after June 1, 2020. Generally, a period of performance of up to two years is allowed.

Grant Program Description  
 "The Arts . . . belong to all the people of the United States" \*  
 Art Works is the National Endowment for the Arts' principal grants program. Through project-based funding, we support public engagement with, and access to, various forms of excellent art across the nation, the creation of art that meets the highest standards of excellence, learning in the arts at all stages of life, and the integration of the arts into the fabric of community life. Projects may be large or small, existing or new, and may take place in any part of the nation's 50 states, the District of Columbia, and U.S. territories.  
 We encourage applications for artistically excellent projects that address any of the following activities below:

- Honor the 2020 centennial of women's voting rights in the United States (aka the Women's Suffrage Centennial).
- Engage with Historically Black Colleges and Universities (HBCUs); Hispanic or Latino organizations; or the Native American, Alaskan Native, and Native Hawaiian arts.
- Celebrate America's creativity and cultural heritage.
- Invite a dialogue that fosters a mutual respect for the diverse beliefs and values of all persons and groups.
- Enrich our humanity by broadening our understanding of ourselves as individuals and as a society.

\*1965 Enabling Legislation for the National Endowment for the Arts in the National Foundation on the Arts and the Humanities Act of 1965

## Additional Information on Eligibility:

**Agency Name:** National Endowment for the Arts

**Description:** An organization may submit only one proposal under this program solicitation. This Cooperative Agreement will begin no earlier than January 1, 2020, and extend for up to 24 months. Program Description The National Endowment for the Arts ("Arts Endowment") assists organizations in effectivity incorporating the arts into community development efforts by funding creative placemaking projects across the country. These projects advance local economic, physical, and/or social outcomes by placing the arts at the table with other sectors, such as agriculture and food, economic development, education and youth, environment and energy, health, housing, public safety, transportation, and workforce development. For the last decade, these activities have primarily been supported through the agency's Our Town grant program. In the course of this work, it became clear that many Our Town grantees would benefit from direct, hands-on technical assistance while executing their projects at the local level. In 2016, the Arts Endowment began the Our Town Technical Assistance Pilot Program to provide select Our Town grantees with targeted technical assistance. To build upon the pilot program's success and to further strengthen the field of creative placemaking, the Arts Endowment now plans to develop a more expansive technical assistance program. The Creative Placemaking Technical Assistance Program will serve a wider audience of both prospective applicants to and grantees of the Our Town program, as well other communities interested in undertaking creative placemaking activities. Short-term technical assistance institutes will be convened to gather experts with teams of local leaders.

**Description:** An organization may submit only one proposal under this program solicitation. This Cooperative Agreement will begin no earlier than March 1, 2020, and extend for up to 24 months and no fewer than 12 months. Program Description NEA Research Labs are intended to serve as “hubs” or centers of excellence in the domain of interest. Each NEA Research Lab will develop a pipeline of projects or products, even while conducting at least one major study. In addition, NEA Research Labs will be positioned to fulfill ad hoc analyses or information requests concerning the research agenda being pursued, as may be required during the project period of performance. Such requests will not involve new data collection. Priority will be given to applications that show capacity to design and implement a series of studies based on theory-driven research questions and methodologies that will yield important information about the impact of the arts within the selected topic area. Research methodologies may include such approaches as quasi-experimental or experimental designs, or analyses that use primary and/or secondary data. Competitive applications will take into account any extant research that serves as a basis for a theoretical framework and helps to motivate the proposed studies. We also welcome novel and promising research approaches, such as rigorous analyses of organizational or social networks, and/or social media data, and statistically driven meta-analyses. In addition, we are interested in translational research that moves scientific evidence toward the development, testing, and standardization of new arts-related projects, models, tools, or techniques that can be used easily by other practitioners and researchers.

<b>Agency Name:</b>	National Endowment for the Humanities		
<b>Description:</b>	The National Endowment for the Humanities' Summer Stipends program aims to stimulate new research in the humanities and its publication. The program works to accomplish this goal by: • Providing small awards to individuals pursuing advanced research that is of value to humanities		

scholars, general audiences, or both. • Supporting projects at any stage of development, but most especially early-stage research and late-stage writing in which small awards are most effective • Furthering the NEH's commitment to diversity and inclusion in the humanities by encouraging applications from independent scholars and faculty at Hispanic Serving Institutions, Historically Black Colleges and Universities, tribal colleges and universities, and community colleges Summer Stipends support continuous full-time work on a humanities project for a period of two consecutive months. NEH funds may support recipients' compensation, travel, and other costs related to the proposed scholarly research. Summer Stipends are awarded to individual scholars. Organizations are not eligible to apply, even if an institution of higher education serves as a nominator.

**Description:** The National Endowment for the Humanities (NEH) Division of Preservation and Access is accepting applications for the Humanities Collections and Reference Resources (HCRR) program . The program supports projects that provide an essential underpinning for scholarship, education, and public programming in the humanities. Thousands of libraries, archives, museums, and historical organizations across the country maintain important collections of books and manuscripts, photographs, sound recordings and moving images, archaeological and ethnographic artifacts, art and material culture, and digital objects. Funding from this program strengthens efforts to extend the life of such materials and make their intellectual content widely accessible, often through the use of digital technology. Awards are also made to create various reference resources that facilitate use of cultural materials, from works that provide basic information quickly to tools that synthesize and codify knowledge of a subject for in-depth investigation.

**Additional Information on Eligibility:** To be selected for an ATCMTD award, an applicant must be an eligible applicant. Eligible applicants are State or local governments, transit agencies, metropolitan planning organizations (MPO) representing a population of over 200,000, or other political subdivisions of a State or local government (such as publicly owned toll or port authorities), or a multijurisdictional group or consortia of research institutions or academic institutions.(23 U.S.C. 503(c)(4)(N)). Partnership with the private sector or public agencies, including multimodal and multijurisdictional entities, research institutions, organizations representing transportation and technology leaders, or other transportation stakeholders, is encouraged. Typically, a consortium is a meaningful arrangement with all members involved in planning the overall direction of the group's activities and participating in most aspects of the group; the

consortium is a long-term relationship intended to last the full life of the grant. Any application submitted by a sole research or academic institution and that is not part of a consortium will not be considered for selection.

**Agency Name:** DOT Federal Highway Administration

**Description:** Up to \$60 million in Federal Funding to provide grants to eligible entities to develop model deployment sites for large scale installation and operation of advanced transportation technologies to improve safety, efficiency, system performance, and infrastructure return on investment. (23 U.S.C. 503(c)(4)(A)).

**Description:** The Federal Transit Administration (FTA) announces the availability of \$15 million of Fiscal Year 2017 and Fiscal Year 2018 research funds for eligible projects. Synopses and full announcement are posted on Grants.gov and Federal Register as opportunity FTA-2019-008-TRI. The Integrated Mobility Innovation Demonstration program's primary purpose is to fund projects that demonstrate innovative, effective approaches, practices, partnerships, and technologies to enhance public transportation effectiveness, increase efficiency, expand quality, promote safety, and improve the traveler's experience. This NOFO integrates three distinct areas of inquiry: Mobility on Demand (MOD) and Sandbox demonstrations; FTA's Strategic Transit Automation Research (STAR); and Mobility Payment Integration (MPI) to allow applicants to comprehensively plan multiple areas of mobility research.

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** The Department determines application eligibility as part of the Eligibility Review stage. Applicants and applications deemed ineligible at this stage will be disqualified. The Department will apply the criteria under Section C.1. as part of the Eligibility Review stage. Hub Size: In order to satisfy the hub size requirement set forth in 49 U.S.C. § 41743(c)(1)(A), the airport serving the community or consortium may not be larger than a small hub airport, as determined using the FAA's most recently published classification effective on the date that the community or consortium files an application. Same Project Limitation: Under 49 U.S.C. § 41743(c)(4)(B), a community or consortium may not receive a new grant to support the same project more than once in a ten-year period. In assessing whether a previous grantee's current application represents a new project, the Department will compare the goals and objectives of the previous grant, including the key components of the means by which those goals and objectives were to be achieved, to the current application. For example, if a community received an earlier grant to support a revenue guarantee for service to a particular destination or direction, a new application by that community for another revenue guarantee for service to the

same destination or in the same direction would be subject to the ten-year restriction, even if the revenue guarantee were structured differently or the type of carrier were different. However, a new application by such a previous grantee for service to a new destination or direction using a revenue guarantee, or for general marketing and promotion (including advertising and public relations) of the airport and the various services it offers, is eligible at any time. The Department recognizes that not all revenue guarantees, marketing agreements, studies, or other activities are of the same nature, and that if a subsequent application incorporates different goals or significantly different components, it may be sufficiently different to constitute a new project under 49 U.S.C. § 41743(c). In FAA 2018, Congress has authorized limited waivers of the Ten-Year Same Project Limitation. Under new § 41743(c)(4)(C), the Secretary may waive the limitation, and thus make additional grants to a community or consortium of communities to participate in support of the same project within a 10-year period, if she determines that communities “spent little or no money on [their] previous project or encountered industry or environmental challenges, due to circumstances that were reasonably beyond [their] control....” The Department will only consider waiver requests as part of complete and timely applications submitted in response to this Order. Communities seeking a waiver must include in their application a discussion of the facts and circumstances that the Secretary should consider in applying the statutory test to their request, e.g., a full history of the previous grant and a documented and well-supported description of any industry or environmental challenges encountered in the communities. Concurrent Grant Limitation: A community or consortium may have only one SCASDP grant at any time. If a community or consortium applies for a subsequent SCASDP grant when its current grant has not yet expired, that community/consortium must notify the Department of its intent to terminate the current SCASDP grant, and if the community/consortium is selected for a new grant, such termination must take place prior to entering into the new grant agreement. In addition, for consortium member applicants, permission must be granted from both the grant sponsor and the Department to withdraw from the current SCASDP grant before that consortium member will be deemed eligible to receive a subsequent SCASDP grant. Private Entities: Private organizations may not be designated as the legal sponsor of a grant under the Small Community Program. Airport Capital Improvement Projects: Airport capital improvement projects, including, but not limited to, runway expansions and enhancements, the construction of additional aircraft gates, and other airport terminal expansions and reconfigurations are ineligible for funding under the Small Community Program. Airports seeking funding for airport capital improvement projects may want to consult with their local FAA Regional Office to discuss potential eligibility for grants under the Airport Improvement Program. Deadline: See Section D.4 (“Submission Dates and Times”). Multiple Applications Prohibited: A community may file only one application for a grant, either individually or as part of a consortium. Essential Air Service Communities: As was the case in FY 2017, small communities that currently receive subsidized air service under the Essential Air Service (“EAS”) or Alternate Essential Air Service (“AEAS”) program will not be considered for SCASDP funds. The EAS statute (49 U.S.C. § 41733(c)(E)) now includes a provision requiring that the Department consider whether an air carrier has included a marketing proposal in its proposal to provide subsidized EAS as part of the carrier selection criteria. In light of this and the scarcity of SCASDP

funds, the Department will not consider awarding additional Federal support under SCASDP for the marketing of subsidized EAS air service. 2. Cost Sharing or Matching Cost sharing or matching is not required for applications. However, applications that provide multiple levels of contributions (state, local, cash and in-kind contributions) will be viewed more favorably. See Section E.1.c (“Cost sharing and Local Contributions”). 3. Other Communities Without Existing Air Service: Communities that do not currently have commercial air service are eligible for SCASDP funds. Consortium Applications: Both individual communities and consortia of communities are eligible for SCASDP funds. An application from a consortium of communities must be one that seeks to facilitate the efforts of the communities working together toward one joint grant project, with one joint objective, including the establishment of one entity to ensure that the joint objective is accomplished.

**Agency Name:**

69A345 Office of the Under Secretary for Policy

**Description:**

The Small Community Program was established by the Wendell H. Ford Aviation Investment and Reform Act for the 21st Century (Pub. L. No. 106-181), reauthorized by the Vision 100-Century of Aviation Reauthorization Act (Pub. L. No. 108-176), and subsequently reauthorized by the FAA Modernization and Reform Act of 2012 (Pub. L. No. 112-95) as amended, the Disaster Tax Relief and Airport and Airway Extension Act of 2017 (Pub. L. No. 115-63), and the FAA Reauthorization Act of 2018 (Pub. L. No. 115-254) (FAA 2018).[1] The program is designed to provide financial assistance to small communities in order to help them enhance their air service. The Department provides this assistance in the form of monetary grants that are disbursed on a reimbursable basis. Authorization for this program is codified at 49 U.S.C. § 41743.

The Small Community Program is authorized to receive appropriations under 49 U.S.C. § 41743(e)(2). Appropriations are provided for this program for award selection in FY 2018 pursuant to the Consolidated Appropriations Act, 2018 (Pub. L. No. 115-141).

49 U.S.C. § 41743(c) sets forth the “Criteria for Participation.” As detailed below, in implementing these statutory criteria the Department has determined that certain criteria will be considered as part of the Eligibility Review, and other criteria will be considered as part of the Technical Review. The Department’s application of these criteria has not changed, but more clarity is being provided at this time to assist applicants.

**B. FEDERAL AWARD INFORMATION**

No more than four communities or consortia of communities, or a combination thereof, from the same State may be selected to participate in the program in any fiscal year. No more than 40 communities or consortia of communities, or a combination thereof, may be selected to participate in the program in each year for which the funds are appropriated. Applications for renewal or supplementation of existing projects are not eligible to compete with applications for new Federal awards.

Pursuant to the authorities described above, the Department has \$12.5 million available for FY 2018 grant awards to carry out this program. There is no other limitation on the amount of individual awards, and the amounts awarded will vary depending upon the features and merits of the selected proposals. In past years, the Department’s

individual grant sizes have ranged from \$20,000 to nearly \$1.6 million. Funding amounts made available for reimbursement may be impacted by future limitations placed on the spending authority and appropriations enacted for the Department. OST may, at its discretion, issue partial funding awards up to the level authorized and provided that the above conditions are met.

[1] FAA 2018 made a number of structural and technical changes to the program which apply to grants from FY 2018 forward and which are reflected in this Order.

Applicants experiencing technical issues with Grants.gov that are beyond the applicant's control must contact BUILDgrants@dot.gov or Howard Hill at 202-366-0301 prior to the deadline with the user name of the registrant and details of the technical issue experienced. The applicant must provide 1: Details of the technical issue experienced 2: Screen capture(s) of the technical issue experienced along corresponding "Grant tracking number" (Grants.gov) 3: The "Legal Business Name" for the applicant that was provided in the SF-424. 4: The AOR name submitted in the SF-424 (Grants.gov). 5: The DUNS number associated with the Application. 6: The Grants.gov Help Desk Tracking Number. To ensure a fair competition for limited discretionary funds, the following conditions are not valid reasons to permit late submissions: (1) failure to complete the registration process before the deadline date; (2) failure to follow Grants.gov instructions on how to register and apply as posted on its website; (3) failure to follow all of the instructions in this notice of funding availability; and (4) technical issues experienced with the applicant's computer or information technology (IT) environment. After DOT staff review the information submitted and contact the Grants.gov Help Desk to validate the technical issues, DOT staff will contact you to either approve or deny your request to submit a late application through Grants.gov. If the technical issues you reported cannot be validated, your application will be rejected as untimely.

**Archive Date:** Jan 31, 2020

**Estimated Total Program Funding:** \$900,000,000

**Award Ceiling:** \$25,000,000

**Award Floor:** \$0

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** Eligible Applicants for BUILD Transportation Discretionary Grants are States, local and tribal governments, including U.S. territories, transit agencies, port authorities, metropolitan planning

organizations (MPOs), and other political subdivisions of State or local governments. Multiple States or jurisdictions may submit a joint application and must identify a lead applicant as the primary point of contact. Each project party in a joint application must be an Eligible Applicant. Joint applications must include a description of the roles and responsibilities of each project party and must be signed by each project party.

**Agency Name:**

Department of Transportation

**Description:**

The FY 2019 Appropriations Act provided \$900 million for National Infrastructure Investments. As with previous rounds, funds for the FY 2019 BUILD Transportation program are to be awarded on a competitive basis for projects that will have a significant local or regional impact. The Act also allows DOT to use a small portion of the \$900 million for oversight and administration of grants. If this solicitation does not result in the award and obligation of all available funds, DOT may publish additional solicitations. The Consolidated Appropriations Act, 2019 specifies that BUILD Transportation Discretionary Grants may not be less than \$5 million and not greater than \$25 million, except that for projects located in rural areas the minimum BUILD Transportation Discretionary Grant size is \$1 million. The FY 2019 Appropriations Act specifies that not more than 50 percent of funds can be spent on projects located in a rural area with a population equal to or less than 200,000 and not more than 50 percent of funds can be spent on projects located in an urbanized area with a population of more than 200,000. The Department revised the definition for rural and urban projects from previous BUILD/TIGER rounds to two categories, consistent with the urban and rural funding maximums. Pursuant to the FY Consolidated Appropriations Act, 2019, no more than 10 percent of the funds made available for TIGER BUILD Transportation Discretionary Grants (or \$90 million) may be awarded to projects in a single State. Further, pursuant to the Consolidated Appropriations Act, 2019, DOT must take measures to ensure an equitable geographic distribution of grant funds, an appropriate balance in addressing the needs of urban and rural areas, and investment in a variety of transportation modes. The Consolidated Appropriations Act, 2019 requires that FY 2019 BUILD funds are only available for obligation through September 30, 2021. No FY 2019 BUILD funds may be expended after September 30, 2026. As part of the review and selection process described in the Notice of Funding Opportunity, DOT will consider whether a project is ready to proceed with an obligation of grant funds from DOT within the statutory time provided. Under the FY 2019 Appropriations Act, no waiver is possible for these deadlines. The FY 2019 Appropriations Act allows for up to 20 percent of available funds (or \$180 million) to be used by the Department to pay the subsidy and administrative costs for a project receiving credit assistance under the Transportation Infrastructure Finance and Innovation Act of 1998 ("TIFIA") program, if it would further the purposes of the BUILD Transportation Discretionary Grant program. Recipients of prior TIGER Discretionary Grants may apply for funding to support additional phases of a project awarded funds in earlier rounds of this program. However, to be competitive, the applicant should demonstrate the extent to which the previously funded project phase has been able to meet estimated project schedules and budget, as well as the ability to realize the benefits expected for the project. DOT expects that each BUILD Transportation Discretionary Grant will be administered by one of the relevant modal administrations, pursuant to a grant agreement between the BUILD Transportation Discretionary Grant recipient and the relevant modal administration.

## **Farm Loans**

FSA makes direct and guaranteed farm ownership and operating loans to family-size farmers and ranchers who cannot obtain commercial credit from a bank, Farm Credit System institution, or other lender. FSA loans can be used to purchase land, livestock, equipment, feed, seed, and supplies. Loans can also be used to construct buildings or make farm improvements.

## **Housing Assistance**

USDA provides homeownership opportunities to low- and moderate-income rural Americans through several loan, grant, and loan guarantee programs. The programs also make funding available to individuals to finance vital improvements necessary to make their homes decent, safe, and sanitary. USDA Multi-Family Housing Programs offer Rural Rental Housing Loans to provide affordable multi-family rental housing for very low-, low-, and moderate-income families; the elderly; and persons with disabilities. In addition, rental assistance is available to eligible families.

## **Rural Development Loan and Grant Assistance**

USDA Rural Development forges partnerships with rural communities, funding projects that bring housing, community facilities, business guarantees, utilities and other services to rural America. USDA provides technical assistance and financial backing for rural businesses and cooperatives to create quality jobs in rural areas. Rural Development promotes the President's National Energy Policy and ultimately the nation's energy security by engaging the entrepreneurial spirit of rural America in the development of renewable energy and energy efficiency improvements. Rural Development works with low-income individuals, State, local and Indian tribal governments, as well as private and nonprofit organizations and user-owned cooperatives.

## **Beginning Farmers and Ranchers**

USDA, through the Farm Service Agency, provides direct and guaranteed loans to beginning farmers and ranchers who are unable to obtain financing from commercial credit sources. Each fiscal year, the Agency targets a portion of its direct and guaranteed farm ownership (FO) and operating loan (OL) funds to beginning farmers and ranchers.

## **Crop and Livestock Insurance**

USDA helps producers manage their business risks. The mission of USDA's Risk Management Agency (RMA) is to promote, support, and regulate sound risk management solutions to preserve and strengthen the economic stability of America's agricultural producers. As part of this mission, RMA operates and manages the Federal Crop Insurance Corporation (FCIC).

RMA has three divisions: Insurance Services, Product Management, and Risk Compliance. Seventeen private-sector insurance companies sell and service the policies. RMA develops and/or approves the premium rate, administers premium and expense subsidies, approves and supports products, and reinsures the companies. RMA also sponsors educational and outreach programs and seminars on the general topic of risk.

## **Federal State Marketing Improvement Program**

This matching grant program, also known as FSMIP, provides matching funds to State Departments of Agriculture and other appropriate State agencies to assist in exploring new market opportunities for food and agricultural products, and to encourage research and innovation aimed at improving the efficiency and performance of the marketing system.

---

## [Specialty Crop Block Grant Program](#)

The SCBGP funds can be requested to enhance the competitiveness of specialty crops. Specialty crops are defined as fruits and vegetables, tree nuts, dried fruits, and nursery crops (including floriculture).

## [The Farmers Market Promotion Program](#)

The FMPP was created through a recent amendment of the Farmer-to-Consumer Direct Marketing Act of 1976. The grants, authorized by the FMPP, are targeted to help improve and expand domestic farmers markets, roadside stands, community-supported agriculture programs and other direct producer-to-consumer market opportunities.

## [Organic Cost Share Program](#)

AMS administers two organic certification cost share programs. Each program provides cost share assistance, through participating States, to organic producers and/or organic handlers. Recipients must receive initial certification or continuation of certification from a USDA accredited certifying agent (ACA).

## WHAT IS ECONOMIC DEVELOPMENT?

*Economic Development creates the conditions for economic growth* and improved quality of life by expanding the capacity of individuals, firms, and communities to maximize the use of their talents and skills to support innovation, lower transaction costs, and responsibly produce and trade valuable goods and services.

Economic Development requires effective, collaborative institutions focused on advancing mutual gain for the public and the private sector.

*Economic Development is essential to ensuring our economic future.*

- [Special American Business Internship Training Program \(SABIT\)](#). A technical assistance initiative of the International Trade Administration of the U.S. Department of Commerce, SABIT offers organizations competitive grants and an opportunity to host industry-specific delegations. SABIT serves as an initial entry point for U.S. businesses seeking funding to establish long-term relationships with potential customers, distributors, or partners in the former Soviet Union. The program trains Eurasian managers and scientists in commonly accepted business practices as a means of facilitating cross border relationships. In turn, these personal relationships serve as a basis for business development and reduce market access barriers for U.S. businesses

## Corporation for National and Community Service

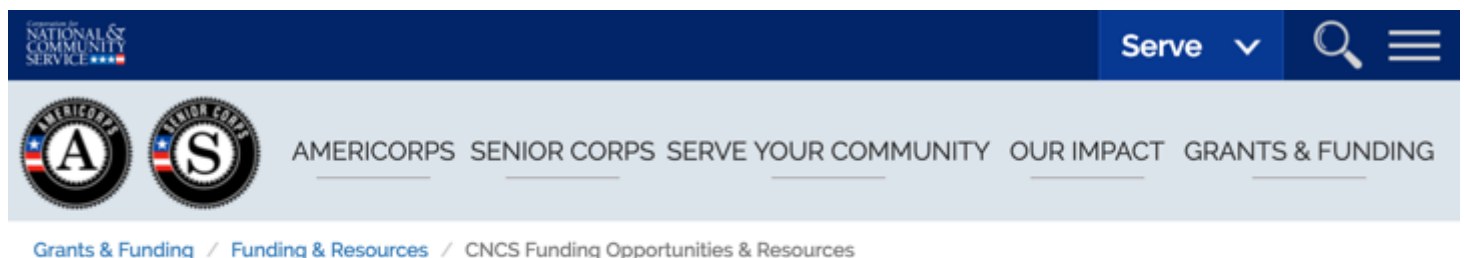

### General Program Overview

AmeriCorps provides resources, both human and financial, to organizations that engage Americans in intensive service to meet our country's critical needs.

Grantees use the funding to support AmeriCorps members for intensive service in their community. AmeriCorps grants partially cover the expense of operating an AmeriCorps program and do not cover general organizational expenses. A cash and in-kind match is required.

The main website can be accessed here: <http://www.nationalservice.gov>

## National Service In Hawaii

**Meeting Community Needs in Hawaii:** Last year more than **3,600** Americans of all ages and backgrounds met local needs, strengthened communities, and expanded economic opportunity through national service in Hawaii. The Corporation for National and Community Service (CNCS) invested more than **\$8.1 million** to support cost-effective community solutions, working hand in hand with local partners to empower citizens to solve problems. AmeriCorps members and Senior Corps volunteers are preparing today's students for tomorrow's jobs, reducing crime and reviving cities, connecting veterans to services, fighting the opioid epidemic, helping seniors live independently, and rebuilding communities after disasters. Service members served at more than **300** locations across Hawaii, including schools, food banks, homeless shelters, health clinics, youth centers, veterans facilities, and other nonprofit and faith-based organizations. Through a unique public-private partnership, CNCS, its grantees, and project sponsors generated more than **\$9.6 million** in outside resources from businesses, foundations, public agencies, and other sources in FY 2017. This local support strengthened community impact and increased the return on taxpayer dollars.

### AmeriCorps

Last year, more than **600** AmeriCorps members met pressing local needs across Hawaii, making a lasting impact in communities while gaining valuable skills and experience to advance their careers. AmeriCorps members serve through one of three programs:

- **AmeriCorps State & National** engages men and women in intensive service at thousands of locations across the country through nonprofits, schools, public agencies, tribes, and community and faith-based groups. Most AmeriCorps grant funding goes to the Hawaii Commission on National & Community Service, the Governor-appointed State Service Commission, which in turn awards grants to organizations to respond to local needs.
- **AmeriCorps VISTA** (Volunteers In Service To America) taps the skills, talents, and passion of Americans of all ages to support community efforts to overcome poverty.
- **AmeriCorps NCCC** (National Civilian Community Corps) is a full-time, team-based residential program for 18-24 year-olds. Members develop leadership skills by serving in public safety, environment, and disaster projects. FEMA Corps, a unit of NCCC, focuses solely on disaster preparedness, response, and recovery.

## Senior Corps

Senior Corps taps the skills, talents, and experience of Americans age 55 and over to meet a wide range of community challenges. Last year, more than **3,000** Hawaii seniors met critical community needs while contributing to longer, healthier lives through one of three Senior Corps programs:

- **Foster Grandparents** serve one-on-one as tutors and mentors to young people with exceptional needs.
- **Senior Companions** help homebound seniors and other adults maintain independence primarily in their own homes.
- **RSVP** volunteers conduct safety patrols, renovate homes, protect the environment, tutor and mentor youth, respond to natural disasters, and provide other services.

Last year in Hawaii, Foster Grandparents tutored and mentored **530** young people, Senior Companions helped **290** seniors live independently, and RSVP volunteers strengthened the impact of **150** organizations across the state.

## NEWS

**Bid Protest and Size Challenges**

Federal contracting laws and regulations ensure that federal procurement is conducted fairly, according to proper procedures, and in a competitive manner. However, sometimes an offeror or contractor has a reason to believe that a procurement is conducted unfairly, improperly, or anti-competitively—resulting in a "bid protest." [Learn more.](#)

## Forecast of Funding Opportunities under the Department of Education Discretionary Grant Programs for Fiscal Year (FY) 2018

This document lists virtually all programs and competitions under which the Department (we) has invited or expects to invite applications for new awards and provides actual or estimated deadline dates for the transmittal of applications under these programs. The lists are in the form of charts -- organized according to the Department's principal program offices -- and include programs and competitions we have previously announced, as well as those we plan to announce at a later date. **If you are interested in applying for any upcoming grants with the Department of Education, please take the time to register with SAM at [www.SAM.gov](http://www.SAM.gov), as you must have an active account in order to submit a grant application with our agency. We recommend you register now even as you are looking for eligible grant programs so that your SAM registration is active by the time the application is published. This will allow you to focus on writing the application during the period the application is available and you are not spending a portion of that time obtaining SAM registration. Please click [here](#) to refer to the SAM tip sheet for additional information.**

**Note:** This document is advisory only and is not an official application notice of the Department of Education. We expect to provide updates to this document starting in the first week of June in a fiscal year and continuing through the following August. Please keep in mind that the dates recorded in this document are **SUBJECT TO CHANGE** and that the average size/number of awards are **ESTIMATES**.

**Note on printing:** For best results, print this document in landscape orientation.

### Organization of this Document

We have assigned to each principal office a separate chart as follows:

Chart 1 - Institute of Education Sciences.

Chart 2 - Office of Elementary and Secondary Education.

Chart 3 - Office of Innovation and Improvement.

Chart 4 - Office of Postsecondary Education (Link to IFLE Chart)

Chart 5 - Office of Special Education and Rehabilitative Services (Links to RSA Chart)

Chart 6 - Office of Career, Technical and Adult Education

Chart 7 - Office of English Language Acquisition

### Grant Application Information

Here's how you can tell whether we've already published an application notice for a particular program or competition in the *Federal Register* and whether the dates we list in this Forecast of Funding Opportunities are actual or estimates:

If we have published the application notice, we will list the *Federal Register* (FR) volume and page number (e.g., 65 FR 53402) after the date in column two. The other dates for that program or competition (columns four and five) are actual (as opposed to estimated) dates.

If we do not follow the date in column two with an FR citation, it means that we have yet to publish the application notice, and the dates (columns, two, four, and five) are estimates only. The actual dates will appear in the official application notice for that program or competition in the *Federal Register*.

**Date of Application Notice.** In column two of the charts, we list the actual or estimated date for publication of the application notice for a given program or competition.

**Link to Notice.** In column three of the charts, after its publication in the *Federal Register*, we will provide a link to the application notice for a given program or competition.

**Electronic Grant Applications.** Applications may be submitted electronically, for certain programs listed in the Forecast, through the Grants Management System (G5: [www.g5.gov](http://www.g5.gov)) or through Grants.gov. The requirements and instructions for submitting applications electronically under the program identified will appear in the *Federal Register* in the application notice for these programs or competitions. It is important to note that, if a competition is using Grants.gov, it will not be using G5 and vice versa. As part of doing business with the Federal Government, applicants must have an active registration with SAM ([www.SAM.gov](http://www.SAM.gov)). Therefore, we strongly recommend that you create a SAM account now (or update your account if you already have an existing one) before the application package becomes available so that once the package is posted, your registration will be complete.

### Contact Information

**Program Contact Person.** In column seven of the charts, we list the name, e-mail address, fax, and telephone numbers of the person or persons to contact for obtaining an application or further information about the programs listed. We also include this information in the actual application notice for that program.

**For Users of TDD or FIRS.** If you use a telecommunications device for the deaf (TDD), you may call the TDD number, if any, listed in the individual application notice. If a TDD number is not listed for a given program, individuals who use a TDD may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

## Fiscal Information

**Available Funds.** The programs and funding amounts listed in this document are based on the Secretary's best estimates at this time. The Secretary is providing this document in order to give potential applicants adequate time to prepare applications. Potential applicants should note, however, that the Department may cancel some of the competitions listed in this document and may announce some new competitions not listed in this document.

**Estimated Average Size of Awards and Number of Awards.** Except for programs and competitions administered by the Office of Special Education and Rehabilitative Services (OSERS), column six lists estimated average size and number of awards. The amounts and numbers referenced in this column are advisory and represent the Secretary's best estimates at this time. The average size of an award is the estimate for a single-year project or for the first budget period of a multi-year project. In the application package for an individual program or competition, applicants will receive information about the amount the Secretary intends to make available for each year of a multi-year project.

In the case of programs and competitions administered by the principal components of OSERS, the charts differ with regard to the average size of awards. For programs and competitions of this office, column six of the charts lists the average or estimated maximum size of the awards per year. Applicants will receive further information about funding amounts in the application packages for the individual programs.

Note: The Department is not bound by any of the estimates in this document. We advise you to read the actual individual application notices for these programs or competitions published in the *Federal Register*.

## Labor-Management Grants Program

### Promoting Labor-Management Cooperation through Funding Support

The FMCS Grants Office provides federal grants to support the establishment and operation of plant-level, area-wide, industry or sectoral joint labor-management committees confronting specific, definable problems for which they have developed clear, innovative, and measurable long-term solutions.

The FMCS grants program, which began in 1981 under the authority of the Labor-Management Cooperation Act of 1978 (PL 95-524), has funded projects designed to improve communications, strategic planning, recruitment, industry changes, and economic development by encouraging cooperative efforts among labor, management, and communities to jointly address issues such as health, safety, employee training, and the resolution of workplace disputes.

In accordance with the terms of the Labor-Management Cooperation Act of 1978, FMCS considers applications from plant, geographic or area-wide committees. We especially encourage applications from area-wide, industry or sectoral joint labor-management committees focused on the 21<sup>st</sup> century economy and the challenges of a rapidly evolving workplace, such as:

- job security and skills
- working conditions for an increasingly mobile workforce
- consensus solutions to workplace standards
- organizational effectiveness
- economic development and competitiveness for entire communities;
- hiring and retaining the next generations of workers

Area or industry-wide applicants must include, among their participants, an employer and the collective bargaining representative of its employees. As long as this threshold requirement is met, area or industry-wide committees may also include community organizations, state and local government entities and employers whose employees are not represented by a labor organization.

## Financial Assistance

Most DHS components have authority to execute and manage financial assistance to support the DHS mission. Financial assistance is the transfer to a non-federal recipient anything of value for a public purpose, and at DHS includes grants, cooperative agreements, training, loans, direct payments, and flood insurance.

### Finding & Applying for Grants

[Search for HUD grants on Grants.gov](#) – Here you may search for discretionary HUD Grants, eligibility, and category. You will also find a Forecast for upcoming HUD grants.

[Browse Funding Opportunities Page](#) – HUD's Funding Opportunities page lists funding opportunities for competitive applicants and existing recipients.

[Award Announcements](#) – Lists HUD's discretionary grants awarded, starting with the most current year.

### Registering for Grants

**Obtain a DUNS Number** - The federal government uses DUNS (Data Universal Number System) numbers as the number to uniquely identify each organization, based on their physical location. The unique nine-digit number is used to track how federal funds are awarded and expended.

To apply for any of HUD's grants programs, your organization must have a DUNS number issued through [Dun & Bradstreet](#) and must have an active registration with [SAM.gov](#).

**Update!** Sam.gov is making important changes to its login and notarized letter review processes in June. Read more here: [SAM Update](#)

**Register through Sam.gov** - All applicants and recipients must maintain an active registration with the [System for Award Management \(SAM\)](#). SAM consolidated the capabilities of Central Contractor Registry (CCR), Online Representations and Certifications Application (ORCA), and Excluded Parties List System (EPLS).

All organizations must designate an E-Business Point of Contact (E-Biz POC) and Authorized Organization Representative (AOR) in SAM. Please visit [SAM.gov](#) for more information or to register.

**Register through Grants.Gov** - Most of HUD's discretionary grants are only available through [Grants.gov](#). Applicants interested in applying for HUD funds, must register with [Grants.gov](#) and, create a profile.

[HUD Conforming Regulation to 2 CFR 200](#) – Correction to a final rule that was published in the Federal Register on December 7, 2015 (80 FR 75931).

[Regulations implementing the HUD Reform Act \(24 CFR Part 4\)](#) - The HUD Reform Act was enacted to ensure accountability, transparency, and a level playing field in the grants process at the Department. This was primarily accomplished through Sections 102 & 103 of the Act.

[Grants Oversight and New Efficiency \(GONE Act\)](#) - The goal of the Grants Oversight and New Efficiency (GONE) Act is to close out expired grants.

[The Digital Accountability and Transparency Act of 2014 \(DATA Act\)](#) - To expand the Federal Funding Accountability and Transparency Act of 2006 to increase accountability and transparency in Federal spending, and for other purposes.

[Code of Conducts -- Conducting Business in Accordance with Core Values and Ethical Standards](#) - Applicants subject to 2 CFR 200.318 (most nonprofit organizations and state, local, and Indian tribal governments or government agencies or instrumentalities that receive federal awards of financial assistance) are required to develop and maintain a written code of conduct.

### Funding Opportunities

HUD awards discretionary funding through over 20 Grant programs that support HUD initiatives, including Affordable Housing Development and Preservation, Community and Economic Development, Environment and Energy, Fair Housing, Homelessness, Homeownership, Rental Assistance, and Supportive Housing and Services.

**Notice of Funding Availability (NOFA)** - The Notice of Funding Availability (NOFA) is a notice published each year in Grants.gov for HUD's Discretionary Funding Programs. This notice describes the type of funding available on a competitive basis and provides a contact where an application may be submitted, typically up to 60 to 90 days from the date of NOFA publication. Selection will then be made based upon specific factors and criteria identified within the NOFA.

## NASA Research Opportunities

Supporting research in science and technology is an important part of NASA's overall mission. NASA solicits this research through the release of various research announcements in a wide range of science and technology disciplines. NASA uses a peer review process to evaluate and select research proposals submitted in response to these research announcements. Researchers can help NASA achieve national research objectives by submitting research proposals and conducting awarded research. This site facilitates the search for NASA research opportunities.

#### Solicitations

Search for and view open, closed, past, and future NASA research announcements. The full text of the [solicitation announcements](#) can be viewed and downloaded.

Solicitations and selected proposals for years prior to NSPIRES implementation, January 1, 2005, were posted manually; therefore, some postings for years 2000-2004 may not be as complete as those posted through the NSPIRES system from 2005 to the present.

#### Getting Started

To submit a research proposal to NASA, individuals and the organizations with which they are affiliated must be registered in NSPIRES. Individuals may register at any time.

Organizations are required to have a valid registration with the System for Award Management (SAM) before they can register in NSPIRES. See [Registration Information](#) for more details on user and organization registration.

# National Science Foundation

The screenshot shows the NSF website with the header "National Science Foundation WHERE DISCOVERIES BEGIN" and a search bar. The main navigation bar includes links for Research Areas, Funding, Awards, Document Library, News, and About NSF. The left sidebar lists various funding-related links such as "About Funding", "Browse Funding Opportunities A-Z", "Due Dates", "Find Funding", "Merit Review", "Policies and Procedures", "Preparing Proposals", "Recent Opportunities", "Small Business", and "Transformative Research". The main content area is titled "About Funding" and contains the following text:

The National Science Foundation funds research and education in most [fields of science and engineering](#). It does this through grants, and cooperative agreements to more than 2,000 colleges, universities, K-12 school systems, businesses, informal science organizations and other research organizations throughout the United States. The Foundation accounts for about one-fourth of federal support to academic institutions for basic research.

NSF receives approximately 40,000 proposals each year for research, education and training projects, of which approximately 11,000 are funded. In addition, the Foundation receives several thousand applications for graduate and postdoctoral fellowships.

The agency operates no laboratories itself but does support National Research Centers, user facilities, certain oceanographic vessels and Antarctic research stations. The Foundation also supports cooperative research between universities and industry, US participation in international scientific and engineering efforts, and educational activities at every academic level.

## Loans

Start or expand your business with loans guaranteed by the Small Business Administration. Use Lender Match to find lenders that offer loans for your business.

FIND LENDERS

## The SBA helps small businesses get loans

The SBA works with lenders to provide loans to small businesses. The agency doesn't lend money directly to small business owners. Instead, it sets guidelines for loans made by its partnering lenders, community development organizations, and micro-lending institutions. The SBA reduces risk for lenders and makes it easier for them to access capital. That makes it easier for small businesses to get loans.

## Benefits of SBA-guaranteed loans

### Competitive terms

SBA-guaranteed loans generally have rates and fees that are comparable to non-guaranteed loans.

### Counseling and education

Some loans come with continued support to help you start and run your business.

### Unique benefits

Lower down payments, flexible overhead requirements, and no collateral needed for some loans.

Federal, state and local governments offer a wide range of financing programs to help small businesses start and grow their operations. These programs include low-interest loans, venture capital, and scientific and economic development grants.

Use SBA.gov's [Loans and Grants Search Tool](#) to get a list of financing programs for which you may qualify, or visit the resources below to learn more about small business financing programs.

## The Small Business Innovative Research Program - SBIR Program

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has the potential for commercialization. Through a competitive awards-based program, SBIR enables small businesses to explore their technological potential and provides the incentive to profit from its commercialization. By including qualified small businesses in the nation's R&D arena, high-tech innovation is stimulated, and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

## SBIR Mission and Program Goals

The mission of the SBIR program is to support scientific excellence and technological innovation through the investment of Federal research funds in critical American priorities to build a strong national economy.

The program's goals are four-fold:

- Stimulate technological innovation
- Meet Federal research and development needs.
- Foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons.
- Increase private-sector commercialization of innovations derived from Federal research and development funding.

## SBIR-Participating Agencies

Each year, Federal agencies with extramural research and development (R&D) budgets that exceed \$100 million are required to allocate 2.5 percent of their R&D budget to these programs. Currently, eleven Federal agencies participate in the program:

- [Department of Agriculture](#)
- Department of Commerce - [National Institute of Standards and Technology](#)
- [Department of Defense](#)
- [Department of Energy](#)
- [Department of Health and Human Services](#)
- [Department of Homeland Security](#)
- [Department of Transportation](#)
- [Environmental Protection Agency](#)
- [National Aeronautics and Space Administration](#)
- [National Science Foundation](#)

Each agency administers its own individual program within guidelines established by Congress. These agencies designate R&D topics in their solicitations and accept proposals from small businesses. Awards are made on a competitive basis after proposal evaluation.

## Three-Phase Program

The SBIR Program is structured in three phases:

*Phase I.* The objective of Phase I is to establish the technical merit, feasibility, and commercial potential of the proposed R/R&D efforts and to determine the quality of performance of the small business awardee organization prior to providing further Federal support in Phase II. SBIR Phase I awards normally do not exceed \$150,000 total costs for 6 months.

*Phase II.* The objective of Phase II is to continue the R/R&D efforts initiated in Phase I. Funding is based on the results achieved in Phase I and the scientific and technical merit and commercial potential of the project proposed in Phase II. Only Phase I awardees are eligible for a Phase II award. SBIR Phase II awards normally do not exceed \$1,000,000 total costs for 2 years.

*Phase III.* The objective of Phase III, where appropriate, is for the small business to pursue commercialization objectives resulting from the Phase I/II R/R&D activities. The SBIR program does not fund Phase III. Some Federal agencies, Phase III may involve follow-on non-SBIR funded R&D or production contracts for products, processes or services intended for use by the U.S. Government
