SBIR

The SBIR Program

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has the potential for commercialization. Through a competitive awards-based program, SBIR enables small businesses to explore their technological potential and provides the incentive to profit from its commercialization. By including qualified small businesses in the nation's R&D arena, high-tech innovation is stimulated and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

USDA posts rural funding guide for local governments

The U.S. Department of Agriculture (USDA) recently posted a useful guide outlining federal funding programs available to support rural communities.

Federal Resources for Sustainable Rural Communities (PDF 44p 6MB) is a guide to programs from the Partnership for Sustainable Communities and the U.S. Department of Agriculture (USDA) that rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life. It is a collaborative effort among USDA, the Department of Housing and Urban Development, the Department of Transportation and the Environmental Protection Agency.

The guide has key information on funding and technical assistance opportunities available from the four agencies, as well as examples of how rural communities across the country have benefitted from federal resources. The resource guide can be accessed here.

Farm Loans
FSA makes direct and guaranteed farm ownership and operating loans to family-size farmers and ranchers who cannot obtain commercial credit from a bank, Farm Credit System institution, or other lender. FSA loans can be used to purchase land, livestock, equipment, feed, seed, and supplies. Loans can also be used to construct buildings or make farm improvements.
Housing Assistance
USDA provides homeownership opportunities to low- and moderate-income rural Americans through several loan, grant, and loan guarantee programs. The programs also make funding available to individuals to finance vital improvements necessary to make their homes decent, safe, and sanitary. USDA Multi-Family Housing Programs offer Rural Rental Housing Loans to provide affordable multi-family rental housing for very low-, low-, and moderate-income families; the elderly; and persons with disabilities. In addition, rental assistance is available to eligible families.
Rural Development Loan Assistance
USDA Rural Development forges partnerships with rural communities, funding projects that bring housing, community facilities, business guarantees, utilities and other services to rural America. USDA provides technical assistance and financial backing for rural businesses and cooperatives to create quality jobs in rural areas. Rural Development promotes the President's National Energy Policy and ultimately the nation's energy security by engaging the entrepreneurial spirit of rural America in the development of renewable energy and energy efficiency improvements. Rural Development works with low-income individuals, State, local and Indian tribal governments, as well as private and nonprofit organizations and user-owned cooperatives.

Utility Services

USDA supports deployment of reliable and affordable water, waste treatment, electric power and telecommunications services, including broadband, to help rural areas expand economic opportunities and improve the quality of life for rural residents. Rural Development provides funding opportunities in the form of payments, grants, loans, and loan guarantees, for the development and commercialization of vital utility services. These programs revitalize rural communities with a variety of improvements, and create sustainable opportunities for wealth, new jobs, and increased economic activity in rural America.

Crop and Livestock Insurance

USDA helps producers manage their business risks. The mission of USDA's Risk Management Agency (RMA) is to promote, support, and regulate sound risk management solutions to preserve and strengthen the economic stability of America's agricultural producers. As part of this mission, RMA operates and manages the Federal Crop Insurance Corporation (FCIC).

RMA has three divisions: Insurance Services, Product Management, and Risk Compliance. Seventeen private-sector insurance companies sell and service the policies. RMA develops and/or approves the premium rate, administers premium and expense subsidies, approves and supports products, and reinsures the companies. RMA also sponsors educational and outreach programs and seminars on the general topic of risk.

Federal State Marketing Improvement Program

This matching grant program, also known as FSMIP, provides matching funds to State Departments of Agriculture and other appropriate State agencies to assist in exploring new market opportunities for food and agricultural products, and to encourage research and innovation aimed at improving the efficiency and performance of the marketing system.

Specialty Crop Block Grant Program

The SCBGP funds can be requested to enhance the competitiveness of specialty crops. Specialty crops are defined as fruits and vegetables, tree nuts, dried fruits, and nursery crops (including floriculture).

The Farmers Market Promotion Program

The FMPP was created through a recent amendment of the Farmer-to-Consumer Direct Marketing Act of 1976. The grants, authorized by the FMPP, are targeted to help improve and expand domestic farmers markets, roadside stands, community-supported agriculture programs and other direct producer-to-consumer market opportunities.

Organic Cost Share Program

AMS administers two organic certification cost share programs. Each program provides cost share assistance, through participating States, to organic producers and/or organic handlers. Recipients must receive initial certification or continuation of certification from a USDA accredited certifying agent (ACA).

Agency Name: Department of Commerce

Description: EDA seeks applications to develop and test measures, metrics, indicators, and methodologies to help the agency more effectively assess, evaluate, and report on the full impact of its economic development investments on regional economies across the Nation. Proposals must discuss how robust indicators and metrics will be identified; establish appropriate program metrics for EDA investments and validate the statistical relationship between grant outputs and outcomes (capacity building) and realized (economic growth, competitiveness and sustainability) outcomes. EDA is particularly interested in appropriate program metrics for non-construction, innovation-supporting programs. Models must include testing on EDA grantees, an impact analysis design and how a valid statistical methodology will corroborate that the proposed metric model works. All metrics should be consistent with EDA's logic model. Deliverables will include an implementation toolkit accessible to EDA staff with operational recommendations in addition to reports establishing proven metrics, supporting analysis and statistical corroboration.

Agency Name: Department of Commerce

Description: Climate variability and change present society with significant economic, health, safety, and national security challenges. NOAA advances scientific and technical programs to help society cope with and adapt to today's variations in climate and to prepare for tomorrow's. Toward this end, the agency conducts and supports climate research, essential oceanic and atmospheric observations, modeling, information management, assessments, interdisciplinary decision-support research, outreach, education, and partnership development. These investments are key to NOAA's mission of "Science, Service, and Stewardship" and are guided by the agency's vision to create and sustain enhanced resilience in ecosystems, communities, and economies, as described in NOAA's Next Generation Strategic Plan (NGSP). Fostering climate adaptation and mitigation, and, specifically, the development of an informed society anticipating and responding to climate and its impacts is one of the primary pathways through which NOAA plans to advance its mission. The NGSP outlines NOAA's long-term climate goal, with the following objectives: 1) improved scientific understanding of the changing climate system and its impacts; 2) assessments of current and future states of the climate system that identify potential impacts and inform science, service, and stewardship decisions; 3) mitigation and adaptation choices supported by sustained, reliable, and timely climate services; and 4) a climate-literate public that understands its vulnerabilities to a changing climate and makes informed decisions. NOAA works in

partnership with all levels of governing structures (e.g., federal, state, tribal, regional, local) as well as academic, private, and international research entities, and it places a substantial emphasis on productive partnerships and interactions with decision-makers and other stakeholders. Within this context, NOAA's Climate Program Office (CPO) manages competitive research programs through which NOAA funds high-priority climate science, assessments, decision support research, outreach, education, and capacity-building activities designed to advance our understanding of Earth's climate system and to foster the application of this knowledge to enable effective decisions. CPO supports research that is conducted across the United States and internationally. CPO also provides strategic guidance for the agency's climate science and services programs and supports NOAA's contributions to the U.S. Global Change Research Program (USGCRP) and its National Climate Assessment and similar international endeavors. In seeking to advance the NGSP climate objective of an improved scientific understanding of the changing climate system and its impacts, CPO supports research that advances core capabilities in (a) observing systems, climate monitoring and data stewardship (b) understanding and modeling, (c) predictions and projections, and (d) informing decisions. These core capabilities are, in turn, intended to advance NOAA's ability to provide sustained, reliable, and timely climate services dealing with the following broad, societal challenge areas: (a) climate impacts on water resources, (b) coasts and climate resilience, (c) sustainability of marine ecosystems, and (d) changes in extremes of weather and climate.

Agency Name:	Department of Commerce
Description:	The U.S. Integrated Ocean Observing System (IOOS®) is

	a national and regional partnership working to provide observations, data, and new tools and forecasts to improve safety, enhance the economy, and protect our environment. NOAA is requesting proposals for coordinated regional efforts that further the IOOS in two topic areas, 1) sustaining and enhancing comprehensive regional observing systems and 2) verification and validation of observing technologies for studying and monitoring coastal and ocean environments. NOAA invites applicants to submit proposals for one or both of these topic areas, described in detail below, and requests applicants submit separate applications for each topic area. For single topic proposals, clearly identify the topic area and present all required information such that merit reviewers can associate proposal elements (project description, partners, budgets) with the specific topic area. NOAA anticipates making multiple awards, subject to the availability of funds, in amounts ranging from $1,000,000 to $4,000,000 per year, for up to five years.

Funding Opportunity Title:	FY 2014 Economic Development Assistance Programs
Opportunity Category:	Discretionary
Funding Instrument Type:	Cooperative Agreement Grant
Category of Funding Activity:	Other (see text field entitled "Explanation of Other Category of Funding Activity" for clarification) Regional Development
Category Explanation:	The Economic Development Administration's (EDA's) mission is to lead the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for economic growth and success in the worldwide

	economy. EDA fulfills this mission through strategic investments and partnerships that create the regional economic ecosystems required to foster globally competitive regions throughout the United States. EDA supports development in economically distressed areas of the United States by fostering job creation and attracting private investment. Specifically, under the Economic Development Assistance programs (EDAP) Federal Funding Opportunity (FFO) announcement, EDA will make construction, non-construction, and revolving loan fund investments under the Public Works and Economic Adjustment Assistance Programs. Grants made under these programs will leverage regional assets to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, encourage economic development, and strengthen America's ability to compete in the global marketplace. Through the EDAP FFO, EDA solicits applications from rural and urban communities to develop initiatives that advance new ideas and creative approaches to address rapidly evolving economic conditions.

Original Closing Date for Applications:	The deadlines for the remaining funding cycles of FY 2014 and the first funding cycle of FY 2015 are listed below. The first funding cycle of FY 2014 is covered under EDA's FY 2013 Economic Development Assistance programs (EDAP) FFO dated November 26, 2012. EDA strongly encourages electronic submissions of applications through www.grants.gov (Grants.gov). To be considered during a particular funding cycle, completed applications must be validated and time-stamped by Grants.gov by 11:59 p.m. Eastern Time on the applicable funding cycle deadline. Alternatively, paper applications may be delivered to the applicable regional office listed in section VIII. of this FFO. Paper applications must be received no later than 5:00 p.m. local time in the applicable regional office on the funding cycle

Current Closing Date for Applications:	deadline and the applicant must use a delivery confirmation service from their selected carrier. If your application is received after the deadline, it will be considered late and will not be reviewed by EDA for that funding cycle. EDA will not accept facsimile or email transmissions of applications. The next four funding cycle deadlines are: December 13, 2012 for funding cycle 2 of FY 2014; March 14, 2014 for funding cycle 3 of FY 2014; June 13, 2014 for funding cycle 4 of FY 2014; and October 17, 2015 for funding cycle 1 of FY 2014. Please see section IV.C. of this FFO for more information on application deadlines under this announcement The deadlines for the remaining funding cycles of FY 2014 and the first funding cycle of FY 2015 are listed below. The first funding cycle of FY 2014 is covered under EDA's FY 2013 Economic Development Assistance programs (EDAP) FFO dated November 26, 2012. EDA strongly encourages electronic submissions of applications through www.grants.gov (Grants.gov). To be considered during a particular funding cycle, completed applications must be validated and time-stamped by Grants.gov by 11:59 p.m. Eastern Time on the applicable funding cycle deadline. Alternatively, paper applications may be delivered to the applicable regional office listed in section VIII. of this FFO. Paper applications must be received no later than 5:00 p.m. local time in the applicable regional office on the funding cycle deadline and the applicant must use a delivery confirmation service from their selected carrier. If your application is received after the deadline, it will be considered late and will not be reviewed by EDA for that funding cycle. EDA will not accept facsimile or email transmissions of applications. The next four funding cycle deadlines are: December 13, 2013 for funding cycle 2 of FY 2014; March 14, 2014 for funding cycle 3 of FY 2014; June 13, 2014 for funding cycle 4 of FY 2014 ; and October 17, 2015 for funding cycle 1 of FY 2014. Please see section IV.C. of this FFO for more information on application deadlines under this announcement

Agency Name: Economic Development Administration

Description: The Economic Development Administration's (EDA's) mission is to lead the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for economic growth and success in the worldwide economy. EDA fulfills this mission through strategic investments and partnerships that create the regional economic ecosystems required to foster globally competitive regions throughout the United States. EDA supports development in economically distressed areas of the United States by fostering job creation and attracting private investment. Specifically, under the Economic Development Assistance programs (EDAP) Federal Funding Opportunity (FFO) announcement, EDA will make construction, non-construction, and revolving loan fund investments

	under the Public Works and Economic Adjustment Assistance Programs. Grants made under these programs will leverage regional assets to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, encourage economic development, and strengthen America's ability to compete in the global marketplace. Through the EDAP FFO, EDA solicits applications from rural and urban communities to develop initiatives that advance new ideas and creative approaches to address rapidly evolving economic conditions.

Agency Name

Economic Development Administration

Description

Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance programs. Under the Planning

program EDA assists eligible recipients in creating regional economic development plans designed to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which articulate and prioritize the strategic economic goals of recipients' respective regions. In general, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts to enable these organizations to develop and implement relevant CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help develop and implement CEDS and associated economic development activities. The Planning program also helps support planning organizations, including District Organizations, Indian Tribes, and other eligible Recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the Nation's most economically distressed regions. The Local Technical Assistance program strengthens the capacity of local or State organizations, institutions of higher education, and other eligible recipients to undertake and promote effective economic development programs through projects such as feasibility analyses and impact studies.

Corporation for National and Community Service

General Program Overview
AmeriCorps provides resources, both human and financial, to organizations that engage Americans in intensive service to meet our country's critical needs.

Grantees use the funding to support AmeriCorps members for intensive service in their community. AmeriCorps grants partially cover the expense of operating an AmeriCorps program and do not cover general organizational expenses. A cash and in-kind match is required.

National Service In Hawaii

Meeting Community Needs in Hawaii: More than **3,500** people of all ages and backgrounds are helping to meet local needs, strengthen communities, and increase civic engagement through national service in Hawaii. Serving at more than **490** locations throughout the state, these citizens tutor and mentor children, support veterans and military families, provide health services, restore the environment, respond to disasters, increase economic opportunity, and recruit and manage volunteers. This year, the Corporation for National and Community Service (CNCS) will commit

more than **$5,460,000** to support Hawaii communities through national service initiatives. Through a unique public-private partnership, this federal investment will leverage an additional **$2,610,000** in other resources to strengthen community impact, build local support, and increase return on taxpayer dollars.

AmeriCorps

This year, AmeriCorps will provide more than **510** individuals the opportunity to provide intensive, results-driven service to meet education, environmental, health, economic, and other pressing needs in communities across Hawaii. Most AmeriCorps grant funding goes to the **Hawaii Commission on National & Community Service**, which in turn awards grants to nonprofit groups to respond to local needs. Most of the remainder of the grant funding is distributed by CNCS directly to multi-state and national organizations through a competitive grants process. Other individuals serve through AmeriCorps VISTA, whose members help bring individuals and communities out of poverty by serving full-time to fight illiteracy, improve health services, create businesses, and increase housing opportunities, and AmeriCorps NCCC (National Civilian Community Corps), a 10-month, full time residential program for men and women between the ages of 18 and 24. In exchange for their service, AmeriCorps members earn an education award that can be used to pay for college or to pay back qualified student loans. Since 1994, more than **4,900 Hawaii** residents have served more than **5.1 million** hours and have qualified for Segal AmeriCorps Education Awards totaling more than **$11,250,000**.

Senior Corps

More than **3,000** seniors in Hawaii contribute their time and talents in one of three Senior Corps programs. Foster Grandparents serve one-on-one as tutors and mentors to more than **480** young people who have special needs. Senior Companions help more than **250** homebound seniors and other adults maintain independence in their own homes. RSVP volunteers conduct safety patrols, renovate homes, protect the environment, tutor and mentor youth, respond to natural disasters, and provide other services through more than **290** groups across Hawaii.

The Corporation for National and Community Service is a federal agency that improves lives, strengthens communities, and fosters civic engagement through service and volunteering. CNCS annually engages more than five million Americans in service to meet local needs through Senior Corps, AmeriCorps, and national days of service; improves communities through the Social Innovation Fund, and leads President Obama's

national call to service initiative, United We Serve. To learn more visit NationalService.gov or Serve.gov or call 202-606-5000 or TTY 1-800-833-3722.

FORECAST OF FUNDING OPPORTUNITIES UNDER THE DEPARTMENT OF EDUCATION DISCRETIONARY GRANT PROGRAMS FOR FISCAL YEAR (FY) 2014

(As of December 20, 2013)

This document lists virtually all programs and competitions under which the Department (we) has invited or expects to invite applications for new awards and provides actual or estimated deadline dates for the transmittal of applications under these programs. The lists are in the form of charts -- organized according to the Department's principal program offices -- and include programs and competitions we have previously announced, as well as those we plan to announce at a later date. **If you are interested in applying for any upcoming grants with the Department of Education, please take the time to register with SAM at www.SAM.gov, as you must have an active account in order to submit a grant application with our agency. We recommend you register now even as you are looking for eligible grant programs so that your SAM registration is active by the time the application is published. This will allow you to focus on writing the application during the period the application is available and you are not spending a portion of that time obtaining SAM registration. Please click here to refer to the SAM tip sheet for additional information.**

Note: This document is advisory only and is not an official application notice of the Department of Education. We expect to provide updates to this document starting in the first week of November in a fiscal year and continuing through the following July.

Note on printing: For best results, print this document in landscape orientation.

ORGANIZATION OF THIS DOCUMENT

We have assigned to each principal office a separate chart as follows:

Chart 1 - Institute of Education Sciences.

Chart 2 - Office of English Language Acquisition.

Chart 3 - Office of Elementary and Secondary Education.

Chart 4 - Office of Innovation and Improvement.

Chart 5 - Office of Postsecondary Education (Link to IFLE Chart)

Chart 6 - Office of Special Education and Rehabilitative Services (links to NIDRR, SEP, RSA charts).

Chart 7 - Office of Vocational and Adult Education.

Chart 8 - Office of the Deputy Secretary - ODS.

GRANT APPLICATION INFORMATION

Here's how you can tell whether we've already published an application notice for a particular program or competition in the *Federal Register* and whether the dates we list in this Forecast of Funding Opportunities are actual or estimates:

If we have published the application notice, we will list the *Federal Register* (FR) volume and page number (e.g., 65 FR 53402) after the date in column two. The other dates for that program or competition (columns four and five) are actual (as opposed to estimated) dates.

If we do not follow the date in column two with an FR citation, it means that we have yet to publish the application notice, and the dates (columns, two, four, and five) are estimates only. The actual dates will appear in the official application notice for that program or competition in the *Federal Register*.

Date of Application Notice. In column two of the charts, we lists the actual or estimated date for publication of the application notice for a given program or competition.

requirements, application submission information, performance measures, priorities and program contact information. The Acting Director of the Institute of Education Sciences (Institute) announces the Institute's FY 2016 competitions for grants to support education research and special education research. The Acting Director takes this action under the Education Sciences Reform Act of 2002. The Institute's purpose in awarding these grants is to provide national leadership in expanding fundamental knowledge and understanding of (1) developmental and school readiness outcomes for infants and toddlers with or at risk for disability, and (2) education outcomes for all students from early childhood education through postsecondary and adult education. Purpose of Program: The central purpose of the Institute's research grant programs is to provide interested individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all students. These interested individuals include parents, educators, students, researchers, and policymakers. In carrying out its grant programs, the Institute provides support for programs of research in areas of demonstrated national need. Competitions in This Notice: The Institute will conduct eight research competitions in FY 2016 through two of its centers: The Institute's National Center for Education Research (NCER) will hold six competitions: one competition for education research, one competition for education research training, one competition for education research and development centers, one competition for statistical and research methodology in education, one competition for partnerships and collaborations focused on problems of practice or policy, and one competition for research networks. The Institute's National Center for Special Education Research (NCSER) will hold two competitions: one competition for special education research

	and one competition for special education research training. Catalog of Federal Domestic Assistance (CFDA) Numbers: 84.305A, 84.305B, 84.305C, 84.305D, 84.305H, 84.305N, 84.324A, and 84.324B.Applications for grants under the Education Research, Research Training Programs in the Education Sciences, Education Research and Development Centers, Statistical and Research Methodology in Education, the Partnerships and Collaborations Focused on Problems of Practice or Policy, Research Networks Focused on Critical Problems of Education Policy and Practice, Special Education Research, and Research Training Programs in Special Education competitions, CFDA numbers 84.305A, 84.305B, 84.305C, 84.305D, 84.305H, 84.305N, 84.324A, and 84.324B, must be submitted electronically using the Governmentwide Grants.gov Apply site at www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not email an electronic copy of a grant application to us. You may access the electronic grant applications for the Education Research, Special Education Research, Research Training Programs in the Education Sciences, Research Training Programs in Special Education, Education Research and Development Centers, Statistical and Research Methodology in Education, Partnerships and Collaborations Focused on Problems of Practice or Policy, and Research Networks Focused on Critical Problems of Education Policy and Practice competitions at www.Grants.gov. You must search for the downloadable application package for each competition by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.305, not 84.305A).

- FY 2012 FP&S Grants Get Ready Guide. This short guide will help you kick-start your grant application. It identifies the most important elements of all the grant application questions.
- FY 2012 FP&S Grant Self-Evaluation Sheet. This tool is based on the application scoring dimensions used by the peer reviewers. It can help you assess your organization's readiness to apply for a grant and help you plan your application.

Video Resources

Two short Fire Prevention and Safety Program videos provide information that can help potential applicants.

- The FP&S Grants video gives an overview of the FP&S Grant Program, describing the purpose of the grants, eligible activities, and evaluation criteria.
- The Community Risk Assessment video describes the different types of risk assessments that applicants can use and explains how the risk assessment's information can support grant requests. Community risk assessments are critical to creating an effective fire prevention and safety project, and they are required to obtain a FP&S grant.

Website Resources

Visit the FP&S Grants home page on the Assistance to Firefighters Grants (AFG) website to find more information about recent awardees and models of successful FP&S projects.

Federal Funding Alternative To AFG

State Administrative Agencies (SAA) apply for and administer Federal grants on behalf of their States, including FEMA Preparedness Grants. The SAA will work with eligible organizations to comply with the general requirements of grant programs or cooperative agreements. Contact your State's SAA to find out what current Federal funding opportunities may be available to your organization. A listing of the SAAs and points of contact can be found at http://www.fema.gov/library/viewRecord.do?id=6363.

Current Closing Date for Applications:	Sep 28, 2015 Electronically submitted applications must be submitted no later than 11:59:59 p.m., ET, on the listed application due date.
Archive Date:	Oct 28, 2015
Estimated Total Program Funding:	$24,000,000
Award Ceiling:	$3,000,000
Award Floor:	$1,000,000
Eligible Applicants:	Others (see text field entitled "Additional Information on Eligibility" for clarification)
Additional Information on Eligibility:	Eligible Applicants are Public Housing Authorities. PHAs that operate one or more public housing developments (as

designated for asset management purposes) that meet the criteria outlined in this NOFA. A list of developments that meet the criteria is provided in Appendix B however, the mere appearance of a development on this list does not necessarily mean that the development is appropriate for a Jobs Plus program. Criteria for Eligible Developments Size: Minimum development size of 200 non-elderly-only households. Non-elderly-only means households where at least one resident is under age 65. Unemployment: At least 50 percent of the households (excluding elderly-only households) contain no member showing earned income in PIC. Place: Because Jobs Plus is a place-based program, units to be served must be contiguous unless good cause can be shown that the program will be successful in non-contiguous developments. A detailed description as to how the program will be run from one central location and remain accessible to all residents of non-contiguous developments will be required in the rating factors. This requirement may disqualify developments on the Eligible Development list if the Asset Management Project (AMP) is for scattered sites. Developments that belong to PHAs that are considered troubled in PHAS or are on the PHARS list or that are in receivership are not eligible to participate. PHAs may propose to combine two or more developments to meet the criteria for eligible developments, subject to the following conditions: Parts of developments cannot be combined. Only entire

	developments may be combined. The combined developments must meet the criteria for size (see above) The combined developments must meet the criteria for unemployment (see above) Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.

Agency Name:	Fish and Wildlife Service
Description:	The Partners for Fish and Wildlife (PFW) Program is a voluntary, incentive-based program that provides direct technical assistance and financial assistance in the form of cooperative agreements to private landowners to restore and conserve fish and wildlife habitat for the benefit of federal trust resources. The PFW Program is delivered through more than 250 full-time staff, active in all 50 States and territories. Partners for Fish and Wildlife Program staff coordinate with project partners, stakeholders and other Service programs to identify geographic focus areas and develop habitat conservation priorities within these focus areas. Geographic focus areas are where the PFW Program directs resources to conserve habitat for federal trust species. Project work plans are developed strategically, in coordination with partners, and with substantial involvement from Service field staff. Projects must advance our mission, promote biological diversity, and be based upon sound scientific biological principles. Program strategic plans inform the types of projects funded under this opportunity. Applicants seeking funding under this program should review the program strategic plan and also contact the regional PFW Program office prior to submitting an application for funding.

Agency Name:	Fish and Wildlife Service
Description:	The Coastal Program is a voluntary, incentive-based program that provides direct technical assistance and financial assistance in the form of cooperative agreements to coastal communities and landowners to restore and protect fish and wildlife habitat on public and private lands. Coastal

	Program staff coordinate with project partners, stakeholders and other Service programs to identify geographic focus areas and develop habitat conservation priorities within these focus areas. Geographic focus areas are where the Coastal Program directs resources to conserve habitat for federal trust species. Project work plans are developed strategically, in coordination with partners, and with substantial involvement from Service field staff. Projects must advance our mission, promote biological diversity, and be based upon sound scientific biological principles. Program strategic plans inform the types of projects funded under this opportunity. Applicants seeking funding under this program should review the program strategic plan and also contact the regional Coastal Program office prior to submitting an application for funding.

Eligible Applicants:	Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"
Agency Name:	Fish and Wildlife Service
Description:	The USFWS uses a science-based, adaptive framework for setting and achieving cross-program conservation objectives that strategically address the problems fish and wildlife will face in the future. This framework, called Strategic Habitat Conservation, is based on the principles of adaptive management and uses population and habitat data, ecological models, and focused monitoring and assessment efforts to develop and implement strategies that result in measurable fish and wildlife population outcomes. In addition, by leveraging resources and strategically targeting science to inform conservation decisions and actions, Landscape Conservation Cooperatives (LCCs) have created a network of partners working in unison to ensure the sustainability of America's land, water, wildlife and cultural resources. Financial assistance may be awarded for science projects and LCC-prioritized biological planning, conservation design and adaptive management projects to include: research; inventory design and implementation; monitoring; goal and priority setting associated with efficient and effective conservation; development of implementation strategies; and projects supporting all other FWS organizational efforts, including planning, establishment maintenance, and general business operations. Proposals will be reviewed and evaluated on a rolling basis subject to available funding.

Posted Date:	Jun 4, 2015
Creation Date:	Jun 3, 2015

Original Closing Date for Applications:	Oct 8, 2015
Current Closing Date for Applications:	Oct 8, 2015
Archive Date:	Nov 7, 2015
Estimated Total Program Funding:	$500,000
Award Ceiling:	$150,000
Award Floor:	$50,000
Eligible Applicants:	Private institutions of higher education Native American tribal governments (Federally recognized) County governments Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education City or township governments State governments Public and State controlled institutions of higher education
Agency Name:	National Archives and Records Administration
Description:	The National Historical Publications and Records Commission seeks projects that encourage citizen engagement with historical records, especially those available online, and/or projects that train people on how to enhance digital literacy skills for using historical records. The development of new online tools for literacy and engagement is highly encouraged. Projects might create and develop programs to engage people in basic archival processes. For example, projects may wish to enlist "citizen archivists" in projects to accelerate digitization and online public access to historical records. This may include, but is not limited to, improving crowdsourcing efforts for identifying, tagging, transcribing, annotating, or otherwise enhancing digitized historical records. Training in digital literacy for such "citizen archivists" should also be included. Projects might also develop digital archives training for the public. For example, projects may seek to increase individual understanding of technology operations and concepts so that people can engage in effective personal digital archiving. The NHPRC is looking for projects that create models and technologies that other institutions can adopt without cost. In general, collaborations between archivists, documentary editors, historians, educators, and/or community-based individuals are more likely to create a competitive proposal. For a comprehensive list of the Commission's

limitations on funding, please see What We Do and Do Not Fund. Applications that consist entirely of ineligible activities will not be considered. Award Information A grant normally is for one to three years. The Commission expects to make up to six grants of between $50,000 and $150,000. The total amount allocated to this category is up to $500,000. Grants begin no earlier than July 1, 2016 The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications and other products that result from its support. Eligibility Eligible applicants: Nonprofit organizations or institutions Colleges, universities, and other academic institutions State or local government agencies Federally-acknowledged or state-recognized Native American tribes or groups Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. The Commission provides no more than 50 per cent of total direct project costs in the Literacy and Engagement with Historical Records category. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost sharing contribution. Other Requirements Applicant organizations must be registered in System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at https://sam.gov. Please refer to the User Guides section and the Grants Registrations PDF. A complete application includes the Application for Federal Assistance (Standard Form 424), Assurances - Non-Construction Programs (Standard Form 424B), a Project Narrative, Summary, Supplementary Materials, and Budget. Applications lacking

	these items will not be considered. Ineligible applications will not be reviewed.

Digital Dissemination of Archival Collections Grant

Document Type:	Grants Notice
Funding Opportunity Number:	DIGITAL-201510
Funding Opportunity Title:	Digital Dissemination of Archival Collections
Opportunity Category:	Discretionary
Funding Instrument Type:	Grant
Category of Funding Activity:	Humanities (see "Cultural Affairs" in CFDA)
Category Explanation:	
Expected Number of Awards:	7
CFDA Number(s):	89.003 -- National Historical Publications and Records Grants
Cost Sharing or Matching Requirement:	Yes
Posted Date:	Jun 4, 2015
Creation Date:	Jun 3, 2015
Original Closing Date for Applications:	Oct 8, 2015
Current Closing Date for Applications:	Oct 8, 2015
Archive Date:	Nov 7, 2015
Estimated Total Program Funding:	$500,000
Award Ceiling:	$150,000
Award Floor:	$20,000
Eligible Applicants:	County governments State governments Private institutions of higher education Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education Public and State controlled institutions of higher education Native American tribal governments (Federally recognized) City or township governments
Agency Name:	National Archives and Records Administration
Description:	The National Historical Publications and Records Commission desires to make historical records of national significance to the United

States broadly available by disseminating digital surrogates on the Internet. Projects may focus on the papers of major figures from American life or cover broad historical movements in politics, military, business, social reform, the arts, and other aspects of the national experience. The historical value of the records and their expected usefulness to broad audiences must justify the costs of the project. The Commission will not consider proposals that charge for access. Grants are awarded for digitizing documentary source materials. Applications that do not include digitization of analog archival records will be considered ineligible. If you are working with born-digital records, please review the Access to Historical Records or the State Government Electronic Records announcements. Applicants may digitize a single collection or set of collections for online dissemination. Such online publications should provide basic access to collections. Collaborations among repositories are encouraged. In addition, applicants may undertake more complex descriptive work, such as document transcription, tagging, or geo-referencing, if these additional access points are justified by the value of the material and its expected users. For a comprehensive list of the Commission's limitations on funding, please see What We Do and Do Not Fund. Award Information Applicants may apply for funding for one to two years. Award amounts can range from $20,000 to $150,000. The Commission expects to make as many as 7 grants in this category, for a total of up to $500,000. Grants begin no earlier than July 1, 2016. The Commission requires that grant recipients acknowledge NHPRC grant assistance in all publications, project websites, and other products that result from its support. Eligibility Information Eligible applicants: Nonprofit organizations or institutions Colleges, universities, and other academic institutions State or local government agencies Federally-acknowledged or state-recognized Native American tribes or groups Cost Sharing The total costs of a project are shared between the NHPRC and the applicant organization. The Commission ordinarily provides no more than

	50 per cent of total project costs for Digital Dissemination of Archival Collections projects. NHPRC grant recipients are not permitted to use grant funds for indirect costs (as indicated in 2 CFR 2600.101). Cost sharing is required. The applicant's financial contribution may include both direct and indirect expenses, in-kind contributions, non-Federal third-party contributions, and any income earned directly by the project. Indirect costs must be listed under the applicant's cost sharing contribution. Other Requirements Applicant organizations must be registered in System for Award Management (SAM) prior to submitting an application, maintain SAM registration throughout the application and award process, and include a valid DUNS number in their application. Details on SAM registration and requesting a DUNS number can be found at the System for Award Management website at https://sam.gov. Agency Name:	National Endowment for the Arts
Description:	The Arts Endowment's support of a project may start on August 1, 2016, or any time thereafter. A grant period of up to two years is allowed. OUR TOWN: Grant Program Description The Our Town grant program supports creative placemaking projects that help to transform communities into lively, beautiful, and resilient places with the arts at their core. Creative placemaking is when

artists, arts organizations, and community development practitioners deliberately integrate arts and culture into community revitalization work - placing arts at the table with land-use, transportation, economic development, education, housing, infrastructure, and public safety strategies. This funding supports local efforts to enhance quality of life and opportunity for existing residents, increase creative activity, and create a distinct sense of place. Through Our Town, subject to the availability of funding, the National Endowment for the Arts will provide a limited number of grants for creative placemaking projects. Our Town requires partnerships between arts organizations and government, other nonprofit organizations, and private entities to achieve livability goals for communities. Click on the type of project to see the requirements for partnerships: Arts Engagement, Cultural Planning, and Design Projects LINK or Projects that Build Knowledge About Creative Placemaking LINK.

Agency Name:	National Endowment for the Humanities
Description:	The Digital Humanities Start-Up Grants program awards relatively small grants to support the planning stages of digital projects that promise to benefit the humanities. The program supports both new projects in early stages of development and efforts to reinvigorate existing or dormant projects in innovative ways. Proposals should be for the planning or initial stages of digital initiatives in any area of the humanities. Digital Humanities Start-Up Grants may involve • creating or enhancing experimental, computationally-based methods or techniques for humanities research, teaching, preservation, or public programming; • pursuing scholarship that examines the history, criticism, and philosophy of digital culture and its impact on society, or explores the philosophical or practical implications and impact of digital humanities in specific fields or disciplines; or • revitalizing and/or recovering existing digital projects that promise to contribute substantively to scholarship, teaching, or public knowledge of the humanities.

Agency Name:	National Endowment for the Humanities
Description:	As a part of its current initiative, Standing Together: The Humanities and the Experience

of War, the National Endowment for the Humanities offers a new grant opportunity: the Dialogues on the Experience of War program. The program supports the study and discussion of important humanities sources about war, in the belief that these sources can help U.S. military veterans and others to think more deeply about the issues raised by war and military service. The humanities sources can be drawn from history, philosophy, literature, and film—and they may and should be supplemented by testimonials from those who have served. The discussions are intended to promote serious exploration of important questions about the nature of duty, heroism, suffering, loyalty, and patriotism. The program awards grants of up to $100,000 that will support 1. the recruitment and training of discussion leaders; and 2. following the training program, the convening of at least two discussion programs. The discussion groups can take place on college and university campuses, in veterans' centers, at public libraries and museums, and at other community venues. Most of the participants in the discussion groups should be military veterans; others, such as men and women in active service, military families, and interested members of the public, may participate as well. Examples of possible humanities sources to be used in the discussions (in addition to those found in the bulleted list of hypothetical examples below) are available on the program resource page. Discussion programs must focus on 1. The close study of sources drawn from at least two distinct genres (such as fiction and historical writings, or memoirs and artworks, or philosophy and film); and 2. At least two historically distinct conflicts treated in depth: one from the earliest wars through World War I, and a second from the wars after World War I.

Estimated Total Program Funding:	
Award Ceiling:	$38,000
Award Floor:	$1
Eligible Applicants:	Public and State controlled institutions of higher education Private institutions of higher education
Agency Name:	National Endowment for the Humanities
Description:	The NEH Enduring Questions grant program supports faculty members in the preparation of a new course on a fundamental concern of human life as addressed by the humanities. This question-driven course would encourage undergraduates and teachers to join together in a deep and sustained program of reading in order to encounter influential ideas, works, and thinkers over the centuries. What is an enduring question? The following list is neither prescriptive nor exhaustive but serves to illustrate. • Are there universals in human nature? • What is the source of moral authority? • What is evil? • Can war be just? • Is peace possible? • What is worth dying for? • What is the value of education? • Can greed be good? • What is good government? • What is progress? • Am I my brother's keeper? Enduring questions

	persist across historical eras, regions, and world cultures. They inform intellectual, ethical, artistic, and religious traditions and engage thoughtful people from all walks of life. They transcend time and place but are also relevant to our lives today. Enduring questions have more than one plausible or compelling answer, allow for dialogue across generations, and inspire genuine intellectual pluralism. The course is to be developed by one or more (up to four) faculty members at a single institution, but not team taught. Enduring Questions courses must be taught from a common syllabus and must be offered during the grant period at least twice by each faculty member involved in developing the course. The grant supports the work of faculty members in designing, preparing, and assessing the new course. It may also be used for ancillary activities that enhance faculty-student intellectual community, such as visits to museums and artistic or cultural events. An Enduring Questions course may be taught by faculty from any department or discipline in the humanities or by faculty outside the humanities (for example, astronomy, biology, economics, law, mathematics, medicine, or psychology), so long as humanities sources are central to the course.

Agency Name:	National Endowment for the Humanities
Description:	Grants for Fellowship Programs at Independent Research Institutions (FPIRI) support fellowships at institutions devoted to advanced study and research in the humanities. Recognizing that at times scholars need to work away from their homes and institutions, the FPIRI program sponsors fellowships that provide scholars with research time, a stimulating intellectual environment, and access to resources that might otherwise not be available to them. Fellowship programs may be administered by independent centers for advanced study, libraries, and museums in the United States; American overseas research centers; and American organizations that have expertise in promoting research in foreign countries. Individual scholars apply directly to the institutions for fellowships. In evaluating applications consideration is given to the library holdings, archives, special collections, and other resources—either on site or nearby—that

	institutions make available to fellows. FPIRI grants provide funding for humanities fellowships of four to twelve months. The fellowships are held at the U.S. grantee institutions or—in the case of overseas research centers and organizations—abroad.

Description:	NEH Humanities Initiatives at Community Colleges are intended to strengthen the teaching

	and study of the humanities in subjects such as history, philosophy, and literature. These grants may be used to enhance existing humanities programs, resources, or courses, or to develop new ones. NEH Humanities Initiatives may • create opportunities for faculty members to study together, in order to improve their capacity to teach the humanities; • support new humanities programs (which may include but are not limited to new humanities minors, first-year seminars, and capstone courses), and enhance existing ones; • support humanities contributions to professional training (in such fields as business, law, economics, technology, and nursing and medicine); • develop bridge programs for at-risk and nontraditional students; • help institutions take advantage of humanities resources, especially in the digital humanities; and • support collaborative projects in the humanities between the applicant institution and another institution, such as a college or university, a school or school system, a museum or library, or a historical or cultural society. Each project must be organized around a core topic or set of themes.

Agency Name:	National Endowment for the Humanities
Description:	Media Projects grants support film, television, and radio projects for general audiences that encourage active engagement with humanities ideas in creative and appealing ways. All projects must be grounded in humanities scholarship in disciplines such as history, art history, film studies, literature, drama, religious studies, philosophy, or anthropology. Projects must also demonstrate an approach that is thoughtful, balanced, and analytical (rather than celebratory). The approach to the subject matter must go beyond the mere presentation of factual information to explore its larger significance and stimulate critical thinking. NEH is a national funding agency, so the projects we support must demonstrate the potential to attract a broad general audience. We welcome humanities projects tailored to particular groups, such as families, youth (including K-12 students), teachers, seniors, at-risk communities, and veterans, but they should also strive to cultivate a more inclusive audience. Film and television projects may be single

programs or a series addressing significant figures, events, or ideas. Programs must be intended for national distribution, via traditional carriage or online distribution. The Division of Public Programs welcomes projects that range in length from short-form to broadcast-length video. Radio projects, including podcasts, may involve single programs, limited series, or segments within an ongoing program. They may also develop new humanities content to augment existing radio programming or add greater historical background or humanities analysis to the subjects of existing programs. They may be intended for regional or national distribution. NEH encourages projects that engage public audiences through multiple formats in the exploration of humanities ideas. Proposed projects might include complementary components to a film, television, or radio project. These components should deepen the audience's understanding of the subject in a supplementary manner: for example, book/film discussion programs, supplementary educational websites, or museum exhibitions. Development grants enable media producers to collaborate with scholars to develop humanities content and to prepare programs for production. Grants should result in a script or treatment and should also yield a detailed plan for outreach and public engagement. Production grants support the production and distribution of films, television programs, and radio programs that promise to engage a broad public audience.

Agency Name:	National Endowment for the Humanities
Description:	This grant program supports projects for general audiences that encourage active engagement with humanities ideas in creative and appealing ways. Many different formats are supported, including permanent and traveling exhibitions, book or film discussion programs, historic site or district interpretations, living history presentations, and other face-to-face programs in public venues. All projects must be grounded in humanities scholarship in disciplines such as history, art history, film studies, literature, religious studies, philosophy, or anthropology. Museums, Libraries, and Cultural Organizations grants provide support for museums, libraries, historic places, and other organizations that produce public programs in the humanities. NEH encourages projects that explore humanities ideas through multiple formats. Proposed projects might include complementary components that deepen an audience's understanding of a subject: for example, a museum exhibition might be accompanied by a website, mobile app, or discussion programs. Planning grants are used to refine the content, format, and interpretive approach of a humanities project; develop the project's preliminary design; test project components; and conduct audience evaluation. Implementation grants are for projects in the final stages of preparation to "go live" before the public. Grants support final scholarly research and consultation, design development, production, and installation of a project for presentation to the public.

National Science Foundation

General Funding Overview

The National Science Foundation funds research and education in most fields of science and engineering. It does this through grants, and cooperative agreements to more than 2,000 colleges, universities, K-12 school systems, businesses, informal science organizations and other research organizations throughout the United States. The Foundation accounts for about one-fourth of federal support to academic institutions for basic research.
NSF receives approximately 40,000 proposals each year for research, education and training projects, of which approximately 11,000 are funded. In addition, the Foundation receives several thousand applications for graduate and postdoctoral fellowships.
The agency operates no laboratories itself but does support National Research Centers, user facilities, certain oceanographic vessels and Antarctic research stations. The Foundation also supports cooperative research between universities and industry, US participation in international scientific and engineering efforts, and educational activities at every academic level.

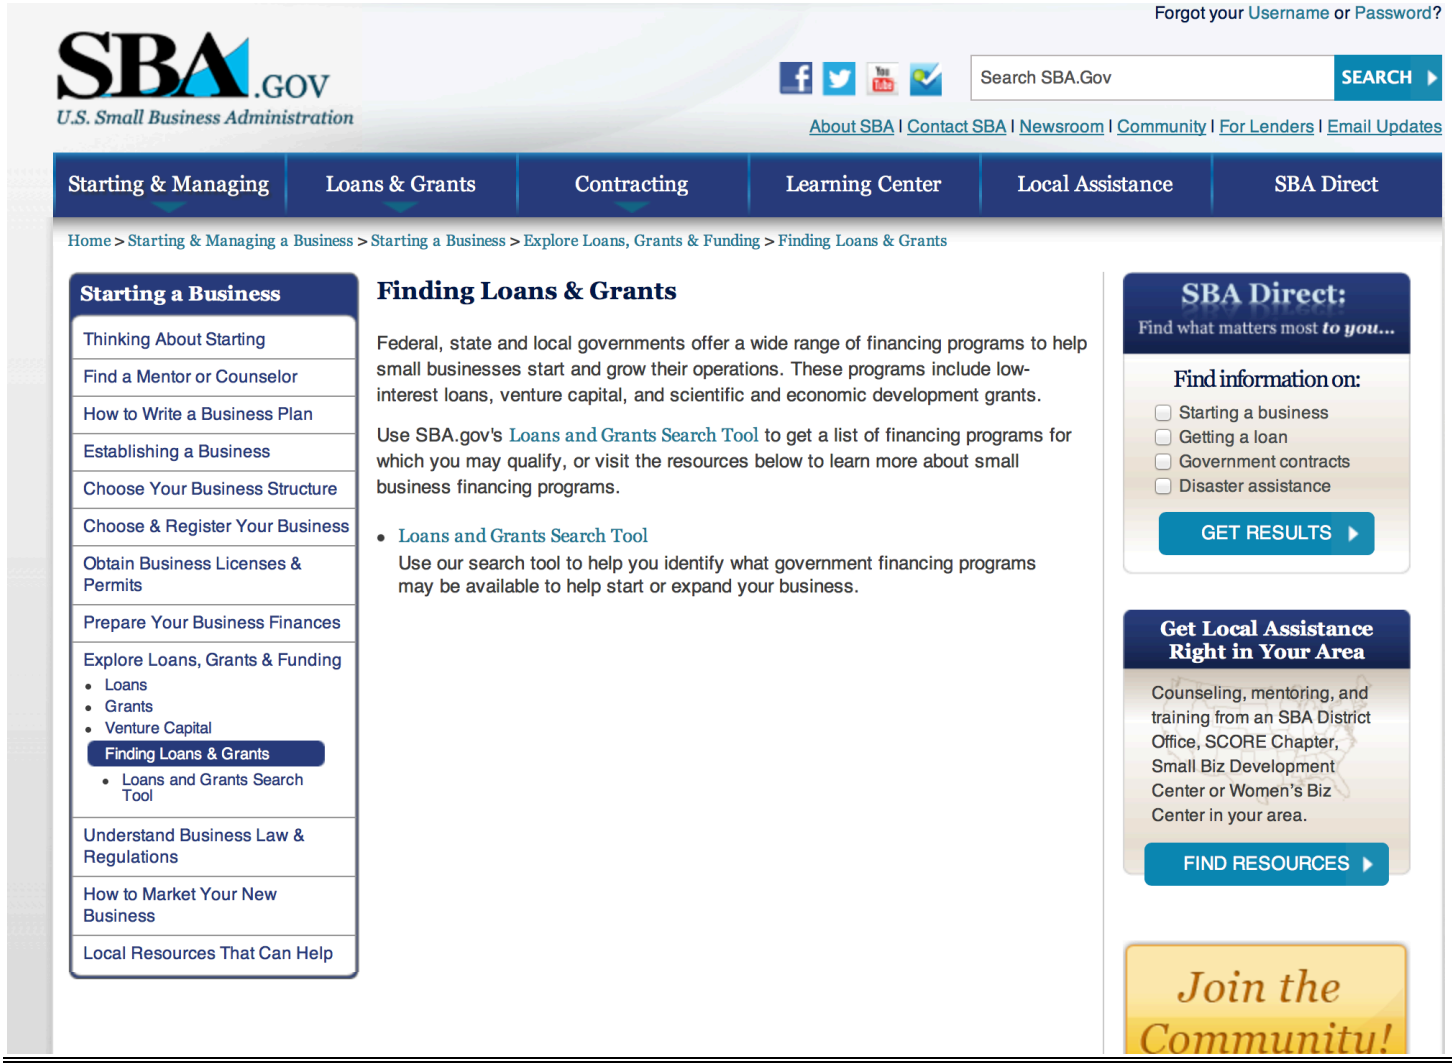
General Overview Finding Loans & Grants

Federal, state and local governments offer a wide range of financing programs to help small businesses start and grow their operations. These programs include low-interest loans, venture capital, and scientific and economic development grants.

Use SBA.gov's Loans and Grants Search Tool to get a list of financing programs for which you may qualify, or visit the resources below to learn more about small business financing programs. To get to the main SBA.gov funding page click here



www.sba.gov/community/blogs/sba-small-business-learning-center-training-tools-and-answers-via-your-deskt

Starting or growing a business? Owning a small business can be a fulfilling endeavor, but as you probably already know or are just finding out – it requires that you wear many hats. This of course leaves you with little time to take a deep dive into the many aspects of starting and growing a business. Instead, many business owners turn to search engines for answers when questions come up.

But what if you had access to a small business classroom that provided informed, accurate and always-available access to the advice and guidance you need?

Welcome to the **SBA Small Business Learning Center**.

Online Training and Tools for Small Business Owners

Launched in late 2012, the SBA Small Business Learning Center is an online portal that hosts a variety of self-paced online training courses, quick videos, web chats and more to help small business owners explore and learn about the many aspects of business ownership.

Content is filtered by topic, so no matter the stage of your business, or the kind of insight you need, you can quickly get answers.

For example, if you're wondering how SBA loan programs work or just need a primer in accounting or small business taxes, check out these self-paced online financing courses and short videos. Or explore tips from the pros in these archived SBA Web Chats.

Other topics covered include starting a business as a young entrepreneur, an introduction to franchising, taking your business global with exporting, marketing 101, selling to the U.S. government, and much more.

Get More Help Offline

And if you can't find the training or advice that you need, use the "Get Local Assistance" interactive map to find one of many small business counseling, assistance and mentoring organizations in your community.

Browse around, and let us know what you think about the SBA Small Business Learning Center!

The Small Business Innovative Research Program - SBIR Program

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has the potential for commercialization. Through a competitive awards-based program, SBIR enables small businesses to explore their technological potential and provides the incentive to profit from its commercialization. By including qualified small businesses in the nation's R&D arena, high-tech innovation is stimulated and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

SBIR Mission and Program Goals

The mission of the SBIR program is to support scientific excellence and technological innovation through the investment of Federal research funds in critical American priorities to build a strong national economy.

The program’s goals are four-fold:

- Stimulate technological innovation
- Meet Federal research and development needs.

- Foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons.
- Increase private-sector commercialization of innovations derived from Federal research and development funding.

SBIR-Participating Agencies

Each year, Federal agencies with extramural research and development (R&D) budgets that exceed $100 million are required to allocate 2.5 percent of their R&D budget to these programs. Currently, eleven Federal agencies participate in the program:

- Department of Agriculture
- Department of Commerce - National Institute of Standards and Technology
- Department of Commerce - National Oceanic and Atmospheric Administration
- Department of Defense
- Department of Education
- Department of Energy
- Department of Health and Human Services
- Department of Homeland Security
- Department of Transportation
- Environmental Protection Agency
- National Aeronautics and Space Administration
- National Science Foundation

Each agency administers its own individual program within guidelines established by Congress. These agencies designate R&D topics in their solicitations and accept proposals from small businesses. Awards are made on a competitive basis after proposal evaluation.

Three-Phase Program

The SBIR Program is structured in three phases:

Phase I. The objective of Phase I is to establish the technical merit, feasibility, and commercial potential of the proposed R/R&D efforts and to determine the quality of performance of the small business awardee organization prior to providing further Federal support in Phase II. SBIR Phase I awards normally do not exceed $150,000 total costs for 6 months.

Phase II. The objective of Phase II is to continue the R/R&D efforts initiated in Phase I. Funding is based on the results achieved in Phase I and the scientific and technical merit and commercial potential of the project proposed in Phase II. Only Phase I awardees are eligible for a Phase II award. SBIR Phase II awards normally do not exceed $1,000,000 total costs for 2 years.

Phase III. The objective of Phase III, where appropriate, is for the small business to pursue commercialization objectives resulting from the Phase I/II R/R&D activities. The SBIR program does not fund Phase III. Some Federal agencies, Phase III may involve follow-on non-SBIR funded R&D or production contracts for products, processes or services intended for use by the U.S. Government
