## Additional Information

**Agency Name:**

Agricultural Marketing Service

**Description:**

The RFSP supports partnerships that connect public and private resources to plan and develop local or regional food systems. The RFSP focuses on building and strengthening local or regional food economy viability and resilience. Applicants will work with their partners to catalyze the development of local or regional food systems. Applicants will coordinate efforts within the partnership to set priorities, connect resources and services, and measure progress towards common goals. Partnerships are authorized to: Determine the size and scope of the local or regional food system in which the project's goals, outreach objectives, and eligible activities are to be carried out, Coordinate with AMS to receive technical assistance, and Conduct outreach and education for potential participation in the partnership agreement and eligible activities. Partnerships must bring a variety of financial and technical capabilities, demonstrate experience or readiness to work effectively and collaboratively with public and private entities across sectors, and present innovative, sustainable, and measurable approaches to achieving the project's goals. RFSP grant recipients may apply for other LAMP programs on behalf of producers or eligible entities that desire to participate in eligible activities under the partnership agreement.

Additional Information on Eligibility:	To receive funding (which will be forwarded to selected eligible projects), an entity must be: A former Rural Utilities Service borrower who borrowed, repaid or pre-paid an insured, direct or guaranteed loan. Nonprofit utilities that are eligible to receive assistance from the Rural Development Electric or Telecommunication Programs. Current Rural Development Electric or Telecommunication Programs borrowers.
Additional Information	
Agency Name:	Rural Business-Cooperative Service
Description:	Agency Name: Rural Business-Cooperative Service

**Description:**

The Rural Economic Development Loan and Grant programs provide funding for rural projects through local utility organizations. USDA provides zero-interest loans to local utilities which they in turn, pass through to local businesses (ultimate recipients) for projects that will create and retain employment in rural areas. The ultimate recipients repay the lending utility directly. The utility then is responsible for repayment to USDA.

USDA provides grants to local utility organizations which use the funding to establish Revolving Loan Funds (RLFs). Loans are made from the revolving loan funds to projects that will create or retain rural jobs. When the revolving loan fund is terminated, the grant is repaid to USDA.

The Agency anticipates the following maximum amounts per award: Loans - \$2,000,000; Grants - \$300,000.

**Additional Information on Eligibility:** A. Eligibility Requirements Applicants for AFRI must meet all the requirements discussed in this RFA. Failure to meet the eligibility criteria by the application deadline may result in exclusion from consideration or, preclude NIFA from making an award. For those new to Federal financial assistance, NIFA's About Grants provides highly recommended information about grants and other resources to help understand the Federal awards process. Eligibility is linked to the project type as specified below. 1. Research, Education or Extension

Projects Eligible applicants for single-function Research, Education or Extension Projects include: a) State Agricultural Experiment Station; b) colleges and universities (including junior colleges offering associate degrees or higher); c) university research foundations; d) other research institutions and organizations; e) Federal agencies; f) national laboratories; g) private organizations or corporations; h) individuals who are U.S. citizens, nationals, or permanent residents; and i) any group consisting of two or more entities identified in a) through h). Eligible institutions do not include foreign and international organizations.

2. Integrated Projects Eligible applicants for Integrated Projects include: a) colleges and universities; b) 1994 Land-Grant Institutions; and c) Hispanic-serving agricultural colleges and universities (see NIFA's Hispanic-Serving Agricultural Colleges and Universities page). For item a) under Integrated Projects, the terms "college" and "university" mean an educational institution in any state which a) admits as regular students only persons having a certificate of graduation from a school providing secondary education, or the recognized equivalent of such a certificate; b) is legally authorized within such state to provide a program of education beyond secondary education; c) provides an educational program for which a bachelor's degree or any other higher degree is awarded; d) is a public or other nonprofit institution; and e) is accredited by a nationally recognized accrediting agency or association. A research foundation maintained by a college or university is eligible to receive an award under this program.

3. Food and Agricultural Science Enhancement Grants Part II § C.2 contains the eligibility details for Food and Agricultural Science Enhancement (FASE) Grants. Note that under the FASE program, New Investigator Standard, New Investigator Seed, Strengthening Standard, Strengthening Conference, Strengthening Seed, Equipment and Sabbatical Grants are solicited by specific program area priorities in this RFA. Not all grant types are solicited by every program area priority in this RFA and only grant types specifically solicited by each specific program area priority, as identified in the Program Area Descriptions of Part I § C, will be considered for review. Applicants must respond to the program area priorities and deadlines found in Part I § C. Grant recipients may subcontract to organizations not eligible to apply provided such organizations are necessary for the conduct of the project. Failure to meet an eligibility criterion by the application deadline may result in the application being excluded from consideration or, even though an application may be reviewed, will preclude NIFA from making an award (see Part III § B).

<b>Eligibility</b>	
<b>Eligible Applicants:</b>	<p>City or township governments</p> <p>Nonprofits having a 501(c)(3) status with the IRS, other than institutions of higher education</p> <p>Nonprofits that do not have a 501(c)(3) status with the IRS, other than institutions of higher education</p> <p>Independent school districts</p> <p>Native American tribal governments (Federally recognized)</p> <p>County governments</p> <p>Others (see text field entitled "Additional Information on Eligibility" for clarification)</p>
<b>Additional Information on Eligibility:</b>	Eligible applicants under the FY25 Disaster program include a(n): District organization of an EDA-designated Economic Development District (EDD); Indian tribe or a consortium of Indian tribes; State, county, city, or other political subdivision of a state, including a special purpose unit of a state or local government engaged in economic or infrastructure development activities, or a consortium of political subdivisions, institution of higher education or a consortium of institutions of higher education; public or private nonprofit organization or association acting in cooperation with officials of a political subdivision of a state; an economic development organization; or a public-private partnership for public infrastructure. EDA is not authorized to provide grants or cooperative agreements to individuals or for-profit entities under this NOFO. Applications from individuals or for-profit entities will not be considered for funding.
<b>Additional Information</b>	
<b>Agency Name:</b>	Economic Development Administration
<b>Description:</b>	Through this Disaster NOFO, EDA will award investments in regions experiencing severe economic distress or other economic harm resulting from hurricanes, wildfires, tornadoes, floods, and other natural disasters occurring in calendar years 2023 and 2024. EDA's goal under this NOFO is to assist communities recovering from a disaster by realizing opportunities to recover and change the economic trajectory of the community for the better. In other words, EDA funding seeks to help communities recover and set them on a path to exceed their previous pre-disaster baseline. EDA seeks projects that are responsive to community needs post-disaster by engaging all aspects of the community, with special focus on private industry partners.

This Disaster NOFO provides funding through three pathways:

Readiness Path – Standalone non-construction projects designed to increase a community's readiness to apply for or implement disaster recovery funding from private and public sources including, but not limited to, future EDA NOFOs and the Implementation or Industry Transformation Paths under this NOFO. Projects will fund strategy development, capacity building, and/or predevelopment costs necessary for future recovery projects.

Implementation Path – Standalone construction or non-construction projects designed to address the economic challenges faced by a community recovering from a natural disaster and improve economic trajectories beyond pre-disaster economic conditions.

Industry Transformation Path – Led by a coalition of regional stakeholders, a portfolio of large-scale, multicomponent construction and non-construction projects designed to fundamentally transform the economic trajectory of a region through the development or acceleration of an industry.

**Description:**

This notice is not a mechanism to fund existing NOAA awards. The purpose of this notice is to request applications for special projects and programs associated with NOAA's strategic plan and mission goals, as well as to provide the general public with information and guidelines on how NOAA will select applications and administer discretionary Federal assistance under this Broad Agency Announcement (BAA). Each NOAA Line Office that supports financial assistance (National Marine Fisheries Service, National Ocean Service, National Weather Service, Office of Atmospheric Research, Office of Education, and National Environmental Satellite Data Information Service) has a separate BAA found in Grants.gov, so applicants should submit their application to the BAA for the Line Office that best fits their application. A description of NOAA Line Offices is found at <https://www.corporateservices.noaa.gov/public/lineoffices.html> and <https://www.noaa.gov/office-education>, and applicants may contact the Agency Contacts in Section VII. below for more information. If you submit the same application to more than Line Office, mention this in your application and notify the relevant contacts in Section VII. so that NOAA may coordinate internally.

**Description:** This Broad Agency Announcement is a mechanism to encourage research, education and outreach, innovative projects, or sponsorships that are not addressed through NOAA's competitive discretionary programs. This announcement is not soliciting goods or services for the direct benefit of NOAA. Funding for activities described in this notice is contingent upon the availability of appropriations in the fiscal years applicable to the application. Applicants are hereby given notice that funds have not yet been appropriated for any activities described in this notice. Publication of this announcement does not oblige NOAA to review an application beyond an initial administrative review, or to award any specific project, or to obligate any available funds.

NOAA Ocean Exploration is dedicated to exploring the unknown ocean, unlocking its potential through scientific discovery, technological advancements, and data delivery. By working closely with partners across public, private, and academic sectors, we are filling gaps in our basic understanding of the marine environment. This allows us, collectively, to protect ocean health, sustainably manage our marine resources, accelerate our national economy, better understand our changing environment, and enhance appreciation of the importance of the ocean in our everyday lives.

NOAA Ocean Exploration operates an education program to raise awareness of the importance of the ocean, ocean exploration, and STEM (science, technology, engineering and math) education and is committed to improving America's environmental literacy by bringing the excitement of ocean exploration and discovery to a wide variety of diverse audiences. Educators and public and private partnerships are essential to this mission. NOAA Ocean Exploration offers many opportunities for educators to learn about NOAA science and technology associated with exploring the ocean in their classrooms. Since the COVID-19 pandemic, school systems have largely reopened but the landscape of the classroom has changed. While many educators and classrooms have evolved to hybrid learning environments, so too have NOAA Ocean Exploration's education product and delivery methods. Virtual and online offerings have expanded the education program's audience, reaching previously untapped educators increasing accessibility and inclusion for increasingly-diverse classrooms.

Successful proposals directly support NOAA Ocean Exploration priorities including increasing diversity, equity, inclusion, and accessibility in the education program; and developing education resources to complement virtual and hybrid education delivery. In addition, successful proposals typically involve multiple partners; are characterized by an interdisciplinary and innovative exploration approach; frequently leverage other programs and organizations with compatible objectives; produce information that will be valuable to state and federal marine resource managers; give consideration to environmental impacts in the project planning and represent the applicant's ability to acquire all necessary permits; explain the plan for making data and results publicly available to advance scientific knowledge and inform environmental management decisions; and provide a plan for diversity, equity, inclusion and accessibility (DEIA) activities.

If a proposal selected for award includes the involvement of a Government laboratory, Federally Funded Research and Development Center, or U.S. Service Academy, award funds allocated for the involvement of Government laboratories, FFRDCs, and/or U.S. Service Academies will be directly provided from ARI to the respective Government laboratory, FFRDC or U.S. Service Academy via a Military Interdepartmental Purchase Request (MIPR). No award funds will be channeled directly from a prime awardee (e.g., Recipient) to a Government laboratory, FFRDC, or U.S. Service Academy.

#### **Additional Information**

**Agency Name:**

Dept of the Army -- Materiel Command

**Description:**

This Broad Agency Announcement (BAA) for the Foundational Science Research Unit (FSRU) of the U.S. Army Research Institute for the Behavioral and Social Sciences (ARI) solicits new proposals for its fiscal year 2026 program of basic research in behavioral science. It is issued under the provisions of paragraph 6.102(d) (2) and 35.016 of the Federal Acquisition Regulation (FAR), which provides for the acquisition of basic and applied research and that part of development not related to the development of a specific system or hardware procurement through the competitive selection of proposals and 10 U.S.C. 4001, 10 U.S.C. 4021, and 10 U.S.C. 4022.

To meet the operational objectives of the U.S. Army over the next two decades, the Army must improve its capability to acquire, develop, employ, and retain Soldiers and leaders who can individually and as part of a group:

- Prepare for and adapt quickly to dynamic missions, unpredictable operational environments, and a wide spectrum of contexts;
- Effectively function autonomously and as part of larger systems in complex, information-rich environments;
- Perform in extended, hybrid, and continuous operations;
- Interact and collaborate effectively in joint-service and multi-national operations.

ARI requests proposals to conduct basic research that will provide a scientific foundation to support these broad capabilities.

The Basic Research program focuses on four strategic areas for advancing personnel science.

1. Measurement of Individuals and Collectives: Advanced psychometric theory for deriving valid measurements from complex assessments and continuous streams of data
2. Teams and Small Groups: Understanding dynamic restructuring, coordination, and composition processes in teams and promoting optimal team adaptation
3. Organizations and Systems: Multilevel theory and methods for complex organizations
4. Formal and Informal Learning and Development: Holistic models of individual and collective learning and development across work settings and contexts throughout the career span

**Eligibility**

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** Eligible Applicants for Grants: Developers. Under section 4310(5) of the ESEA, "developer" means an individual or group of individuals (including a public or private nonprofit organization), which may include teachers, administrators and other school staff, parents, or other members of the local community in which a charter school project will be carried out. Eligible applicants are developers that have—(a) Applied to an authorized public chartering authority to operate a charter school; and(b) Provided adequate and timely notice to that authority. (Section 4310(6) of the ESEA). Additionally, the charter school must be located in a State with a State statute specifically authorizing the establishment of charter schools (as defined in section 4310(2) of the ESEA) and in which a State entity currently does not have a CSP State Entity grant (Assistance Listing Number (ALN) 84.282A) under section 4303 of the ESEA.[2] (Section 4305(a)(2) of the ESEA). As a general matter, the Secretary considers charter schools that have been in operation for more than five years to be past the initial implementation phase and, therefore, ineligible to receive CSP funds under ALN 84.282B to support the opening of a new charter school or under ALN 84.282E for the replication of a high-quality charter school; however, such schools may receive CSP funds under ALN 84.282E for the expansion of a high-quality charter school. Note: If you are a nonprofit organization, under 34 CFR 75.51, you may demonstrate your nonprofit status by providing: (1) proof that the Internal Revenue Service currently recognizes the applicant as an organization to which contributions are tax deductible under section 501(c)(3) of the Internal Revenue Code; (2) a statement from a State taxing body or the State attorney general certifying that the organization is a nonprofit organization operating within the State and that no part of its net earnings may lawfully benefit any private shareholder or individual; (3) a certified copy of the applicant's certificate of incorporation or similar document if it clearly establishes the nonprofit status of the applicant; or (4) any item described above if that item applies to a State or national parent organization, together with

a statement by the State or parent organization that the applicant is a local nonprofit affiliate.

## **Additional Information**

### **Description:**

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information.

For the addresses for obtaining and submitting an application, please refer to our Revised Common Instructions for Applicants to Department of Education Discretionary Grant Programs, published in the Federal Register on December 23, 2024.

Purpose of Program: Through CSP Developer Grants, the Department provides grants on a competitive basis to charter school developers to enable them to open new charter schools or to replicate or expand high-quality charter schools in States that do not currently have a CSP State Entity grant under section 4303 of the Elementary and Secondary Education Act of 1965, as amended (ESEA).

Charter schools that receive financial assistance through CSP Developer Grants provide elementary or secondary education, or both, and may also serve students in early childhood education programs or postsecondary students, consistent with the terms of their charter.

Assistance Listing Numbers: 84.282E (for the replication and expansion of high-quality charter schools).

County governments

**Additional Information on Eligibility:** Eligible applicants are those with experience in addressing one or more of the five primary purposes of the NOCP (see Program Description) and experience with the following: planning and executing local, state, regional, or national marketing campaigns or outreach programs, and identifying and engaging audiences to increase awareness, participation, and behavior change in outdoor recreation, aquatic conservation, or fishing and boating activities. Eligible activities include, but are not limited to, those involving fishing and boating marketing campaigns, marketing and social science research and surveys, influencer and other social media campaigns, information and awareness signage or print materials, web-based or app-based tools, instructional videos, hands-on learning, training workshops and toolkits, and events. Applications may request funding for equipment only to the extent that such equipment is necessary, reasonable and cost-effective for accomplishing project objectives. Equipment is defined under 2 CFR 200.1 as tangible personal property (including information technology systems) having a useful life of more than one year and a per-unit acquisition cost that equals or exceeds the lesser of the capitalization level established by the recipient or subrecipient for financial statement purposes, or \$10,000. Ineligible activities include, but may not be limited to, the following: Applications requesting funding for projects involving non-motorized watercraft, such as kayaks and paddle boards, are ineligible unless they are directly associated with fishing activities. Any application proposing the use of unmotorized watercraft must demonstrate a purpose and objectives with a clear connection to fishing activities to be considered for funding. Applications requesting funding for land acquisition or construction or renovation of infrastructure are ineligible for funding. Applications that have a primary purpose or objectives that involve generating revenue from, for example, the sale of fishing licenses or boat registrations, are ineligible for funding. However, numbers of licenses, permits or registrations issued may be used as a surrogate measure of participation. For example, increasing participation of anglers and boaters may be the purpose of a proposed project, and participation may be measured by tracking fishing licenses and motorboat registrations issued over a defined time period. In this case, the purpose of project is not increasing revenue generated by registration fees or license sales. Rather, the purpose of the project is to increase participation in fishing and boating.

#### **Additional Information**

**Agency Name:**

Fish and Wildlife Service

**Description:**

Healthy waters and abundant fisheries are the foundation of America's outdoor traditions and give everyone the freedom to fish, boat, and enjoy the benefits of outdoor recreation. Participation in recreational boating and fishing are important to our nation's economy, generating revenue for local communities and small businesses as well as larger retailers and manufacturers of boating and fishing equipment. State fish and wildlife agencies obtain revenue from the sale of fishing licenses and use these to leverage the Sport Fish Restoration and Boating Trust Fund to accomplish fisheries research and management, aquatic resource education, and boating and fishing access construction and maintenance. The U.S. Fish and Wildlife Service (Service) is seeking applications from eligible entities (eligible applicants) to implement the National Outreach and Communications Program (NOCP) through innovative programs that may be conducted at various geographic scales, ranging from local or

state to regional or national levels. Applications must address one or more of the five purposes of an outreach and communications program, which are defined in the Sportfishing and Boating Safety Act of 1998 (16 U.S.C.777c-777g) as programs that: improve communications with anglers, boaters, and the general public regarding angling and boating opportunities; reduce barriers to access and participation in angling and boating activities; advance the adoption of sound angling and boating practices in the Aspromonte conservation and the responsible use of the nation's aquatic resources; and further safety in angling and boating. Funded efforts are expected to support at least one of the following key outcomes: increased participation in fishing and boating; enhanced public awareness and education about how and where to engage in these activities; targeted outreach using research-driven messaging; strengthened capacity among stakeholders to deliver effective outreach; and improved awareness of access to fishing and boating opportunities. Applications should also consider the needs of potential stakeholders such as state and federal agencies, industry, non-governmental organizations, and the angling and boating community. Applications should align with resource management priorities of state, tribal and federal agencies and include collaboration with those agencies when appropriate. Applications should demonstrate a clear alignment with relevant research and Recruitment, Retention and Reactivation (R3) best practices while advancing innovative approaches to public engagement. Activities should be evidence-based and designed to produce measurable outcomes. Expected outputs will vary by project but may include the creation and dissemination of outreach materials; digital and in-person engagement; participation in stakeholder training or technical assistance events; and findings from research or campaign evaluations. Funded efforts should build on existing knowledge, test new models, and contribute to the long-term sustainability of fishing and boating participation and aquatic resource stewardship.

**Additional Information on Eligibility:** Eligible applicants are State governments, local governments, nonprofits, educational institutions, and Federally Recognized Indian Tribes, Alaskan Natives, and Native Hawaiian Organizations as defined by 54 USC 300300. Grants are not available for sites or collections that are owned or leased by the federal government, or in which the federal government holds a property interest. Important note Resources must be listed in or determined eligible by the applicable State Historic Preservation Office (SHPO) or Tribal Historic Preservation Office (THPO) for listing in the National Register of Historic Places, equivalent Tribal register, or designated a National Historic Landmark, either individually or as contributing to a district. Unlisted resources must be listed in the National Register or equivalent Tribal register by the conclusion of the grant. Eligible resources must have incurred damage by a natural disaster with a major disaster declaration in calendar years 2023 and/or 2024. Applicants can interact with this map to verify the resource(s) location within a declared disaster area. A list of major disaster declarations can also be found on the Federal Emergency Management Agency (FEMA) website. Applicants intending to work on multiple sites (i.e. multiple buildings in a historic district; multiple sites across the state, etc.) are encouraged to submit one application with supporting documentation for each site.

#### **Additional Information**

**Agency Name:**

National Park Service

**Description:**

The Emergency Supplemental Historic Preservation Fund (ESHPPF) program supports recovery, and related expenses, for historic and cultural resources in areas impacted by natural disasters that have received a major disaster declaration pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act (Stafford Act). Pursuant to FY2025 Public Law 118-158, \$48,000,000 will be awarded under the ESHPPF grant program for necessary expenses related to the consequences of natural disasters occurring in calendar years 2023 and/or 2024. Grants are awarded through a competitive process and do not require non-Federal match. There are separate funding announcements for capacity and survey grants to State and Tribal Historic Preservation Offices and physical preservation projects. Funding announcement P25AS00257 is for capacity needed by State and Tribal Historic Preservation Offices to complete compliance activities and for in-house, non-construction projects (i.e. survey, planning) in areas with major disaster declarations within their jurisdictions only; P25AS00489 is for States, Tribes, local governments, and nonprofits for defined projects (including reconstruction) with documented damage from major disaster declarations within their jurisdictions. Please ensure you apply under the correct opportunity number for your project.

#### Additional Information

**Agency Name:** Fish and Wildlife Service

**Description:** The U.S. Standard Grants Program is a competitive, matching grant program that supports public-private partnerships carrying out projects in the United States that further the goals of the North American Wetlands Conservation Act. The program promotes partnerships projects that must involve a) only long-term protection, restoration, enhancement and/or establishment of wetland and associated upland habitats to benefit diversity of wetland ecosystems and b) maintaining an abundance of waterfowl (ducks, geese, and swans) and other populations of wetlands-associated migratory birds consistent with the objectives of the North American Waterfowl Management Plan, U.S. Shorebird Conservation Plan, Waterbird Conservation Plan for the Americas, and Partners in Flight Bird Conservation Plan. The program requires a 1:1 non-federal match and research funding is ineligible. This program supports the Department of Interior and U.S. Fish and Wildlife Service mission of protecting and managing the nation's natural resources by collaborating with partners and stakeholders to conserve land and water and to expand outdoor recreation and access.

**Additional Information on Eligibility:** The PFW Program can reject projects that do not fit with regional plans or priorities. To get funding, PFW projects must be on private lands. "Private lands" means any properties not owned by the state or federal government. This includes tribal lands, Hawaiian homelands, cities, municipalities, non-governmental properties, and private properties. Groups with 501(c)(3) status should have proof of their status from the Internal Revenue Service. Tribal applicants may be required to provide an authorizing tribal resolution. The Program seeks projects year-round. Program staff work with applicants to find common conservation goals. We require that all interested applicants contact their local PFW staff before submitting an application.

#### **Additional Information**

**Agency Name:**

Fish and Wildlife Service

**Description:**

testing instruction files 1/24/2025 The U.S. Fish and Wildlife Service (Service) Partners for Fish and Wildlife (PFW) Program helps private landowners restore and protect habitats for fish and wildlife. It offers both technical assistance and financial support, mainly through cooperative agreements. The PFW Program has over 250 staff working in all 50 states and territories. They work together with project partners and stakeholders in key areas for conservation and set habitat goals. These focus areas guide the program on where to direct resources for conserving important habitats for federal trust species. The Program also has strategic plans that help determine which projects receive funding. Since it began in 1987, the PFW Program has successfully assisted many landowners. When choosing projects, the Program aims to support specific priorities set by the Administration and Secretary of the Interior. All projects will promote the goals of the Program, the Department of the Interior, and the U.S. Fish and Wildlife Service. These goals focus on increasing biological diversity and are based on sound scientific principles. Applicants seeking technical or financial assistance from the PFW Program are required to contact a local Program office BEFORE developing or submitting an application by visiting our website.

We do not support projects that generate compensatory mitigation credits under a Federal or state regulatory program or accept mitigation or in-lieu funds as non-Federal cost share for a project. The Coastal Program does not fund land acquisition, although it can support title searches and real estate appraisals.

#### **Additional Information**

**Agency Name:**

Fish and Wildlife Service

**Description:**

The U.S. Fish and Wildlife Service (Service) Coastal Program is a community-based program that helps coastal areas with technical and financial support to address complex conservation challenges of priority coastal ecosystems. This support is mainly provided through cooperative agreements with conservation partners and landowners, including state and Tribal agencies. The goal is to restore and protect fish and wildlife habitats on both public and private lands. Coastal Program staff work with partners, stakeholders, and other Service programs in important areas for conservation. They set goals and priorities for habitat conservation in these focus areas. The program has specific lists of priority species and focus areas for each U.S. Fish and Wildlife Service region. Applicants seeking technical or financial assistance from the Coastal Program are required to contact a local Program office BEFORE developing or submitting an application. You can find this information in the current strategic plan at this link or by contacting your local Coastal Program office at this link. Projects are developed collaboratively by partners and Service field staff. All Coastal Program projects must align with the missions of the U.S. Department of the Interior, the U.S. Fish and Wildlife Service, and the Coastal Program. They are also based on sound biological principles and the best available science.

National Park Service

**Description:**

The National Park Service (NPS) are seeking applications for Master Cooperative Agreements from CESU network participants in the following CESU network regions: North and West Alaska Californian Chesapeake Watershed Colorado Plateau Desert Southwest Great Basin Great Lakes Northern Forest Great Plains Great Rivers Gulf Coast **Hawai'i/Pacific Islands North Atlantic Coast** Pacific Northwest Piedmont-South Atlantic Coast Rocky Mountains South Florida Caribbean Southern Appalachian Cooperative agreements to CESU network participants residing in CESU network regions other than those listed above will be pursued separate from this notice of funding opportunity; however, those CESU network participants may still apply for a Master Cooperative Agreement under this announcement. Application instructions are found in Section D. Application and Submission Information. Applications will be reviewed and evaluated as they are received and may be submitted at any time up until the closing date of this announcement. The Cooperative Ecosystem Studies Units network is a national consortium of Federal agencies, tribes, academic institutions, state and local governments, nongovernmental conservation organizations, and other partners working together to support informed public trust resource stewardship. The CESU network includes 390 non-Federal partners and 15 Federal Agencies in seventeen (17) CESUs representing biogeographic regions encompassing all 50 states and U.S. territories. The CESU network is well positioned as a platform to support research, technical assistance, education and capacity building that is responsive to long-standing and contemporary science and resource management priorities. The seventeen (17) CESUs bring together scientists, resource managers, students, and other conservation professionals, drawing upon expertise from across the biological, physical, social, cultural, and engineering disciplines (from Anthropology to Zoology) to conduct collaborative and interdisciplinary applied projects that address natural and cultural heritage resource issues at multiple scales and in an ecosystem context. Each CESU is structured as a working collaborative with participation from numerous Federal and non-Federal institutional partners. CESUs are based at host universities and focused on a particular biogeographic region of the country. The NPS is required under "Research Mandate" 54 USC 100702 to ensure the management of NPS units are "enhanced by the availability and utilization of a broad program of the highest quality science and information." To help answer this mandate, the NPS works cooperatively with approved CESU cooperators. Annually the NPS obligates between \$30M and \$40M in CESU cooperative agreements agency wide. Individual projects are up to five (5) years in duration with an average of approximately \$60,000 per agreement. The NPS plans to create Master Cooperative Agreements with CESU partners to carry out the CFDA program 15.945, Cooperative Research and Training Programs

– Resources of the National Park System. The NPS is announcing the intent to solicit proposals from organizations within the CESU network. The objectives of the CESU program are: a. Provide usable knowledge to support informed decision making. b. Ensure the independence and objectivity of research. c. Create and maintain effective partnerships among the Federal agencies and universities to share resources and expertise. d. Take full advantage of university resources while benefiting faculty and students. e. Encourage professional development of current and future Federal scientists, resource managers, and environmental leaders. f. Manage Federal resources effectively.

**Additional Information on Eligibility:** Eligible applicants are limited to established and operational local, state, territorial, and tribal law enforcement agencies that have primary law enforcement authority. In addition, state and local governmental entities must comply with 8 U.S.C. § 1373, which provides that state and local government entities may not prohibit, or in any way restrict, any government entity or official from sending to, receiving from, maintaining, or exchanging information regarding citizenship or immigration status, lawful or unlawful, of any individual with components of the U.S. Department of Homeland Security or any other federal, state or local government entity. This includes any prohibitions or restrictions imposed or established by a state or local government entity or official. For additional information, please see the appendices in the FY25 CHP Application Resource Guide.

#### **Additional Information**

**Agency Name:** Community Oriented Policing Services

**Description:** The Office of Community Oriented Policing Services (COPS Office) is the component of the U.S. Department of Justice responsible for advancing the practice of community policing by the nation's state, local, territorial, and tribal law enforcement agencies through information and grant resources. To date, the COPS Office has been appropriated more than \$21 billion to advance community policing, including grants awarded to more than 13,000 state, local, territorial, and tribal law enforcement agencies to fund the hiring and redeployment of nearly 140,000 officers. COPS Office information resources, covering a wide range of community policing topics such as school and campus safety, violent crime, and officer safety and wellness, can be downloaded via the COPS Office's home page, <https://cops.usdoj.gov>. The FY25 COPS Hiring Program (CHP) provides

funding to law enforcement agencies to hire and/or rehire additional career law enforcement officers in an effort to increase their community policing capacity and crime prevention efforts. As community policing is common sense policing, throughout the CHP Notice of Funding Opportunity (NOFO) materials, the terms 'community policing' and 'common sense policing' are used interchangeably, unless otherwise specified. Anticipated outcomes of CHP awards include engagement in planned community partnerships, implementation of projects to analyze and assess problems, implementation of changes to personnel and agency management in support of community policing, and increased capacity of agency to engage in community policing activities. Community policing is a philosophy that promotes organizational strategies that support the systematic use of partnerships and problem-solving techniques to proactively address the immediate conditions that give rise to public safety issues such as violent crime, nonviolent crime, and fear of crime.

<b>Description:</b>	The Demonstration Program on Trauma-Informed, Victim Centered Training for Law Enforcement on Domestic Violence, Dating Violence, Sexual Assault, and Stalking (Abby Honold Program) (Assistance Listing Number #16.058) supports efforts to improve law enforcement's response to allegations of domestic violence, dating violence, sexual assault, and stalking from the time of a victim's initial report throughout the entire investigation, and to promote the efforts of law enforcement in improving the response to these crimes. Note that in Fiscal Year (FY) 2025, the Abby Honold Program will only support projects addressing responses to allegations of sexual assault. The Abby Honold Program awards grants to law enforcement agencies to train officers to conduct trauma-informed and victim-centered investigations, with the goal of incorporating trauma-informed techniques designed to prevent re-traumatization of the victim and to increase communication between victims and law enforcement as well as stakeholders in a coordinated community response. This program's purpose is also to evaluate the effectiveness of the training.

**Eligible Applicants:** Others (see text field entitled "Additional Information on Eligibility" for clarification)

**Additional Information on Eligibility:** See VPL 01-23 Section IV for the list of eligible applicants. Note: Organizations registered with the Internal Revenue Service as 501(c)(4) entities are ineligible to apply for this funding opportunity.

**Agency Name:** Veterans Employment and Training Service

**Description:** The U.S. Department of Labor's (DOL) Veterans' Employment and Training Service (VETS) supports local Stand Down events that assist veterans experiencing homelessness by providing a wide range of employment, social, and health services.

Stand Down is a military term referring to an opportunity to achieve a brief respite from combat. Troops assemble in a base camp to receive new clothing, hot food, support services, and a relative degree of safety before

returning to combat action. A DOL VETS-funded Stand Down event serves a similar purpose; however, it is intended for veterans experiencing or at-risk of homelessness. The critical services provided at these events are often the catalyst that enables those individuals to reenter the workforce.

VETS awards these noncompetitive grants on a first-come, first-served basis to support one-day or multi-day events at up to \$7,000 or \$10,000, respectively. They are collaborative events coordinated between VA, DOL, other federal, state, and local government agencies and community-based organizations providing services and supplies to veterans experiencing and at risk of homelessness. In the event of a federal disaster declaration, VETS will accept applications up to \$50,000 to conduct Stand Down events in the impacted areas.

State, Territory, and Possession, county, city, local, special district, and Native American tribal governments and agencies, non-profit and for-profit entities, state and local workforce boards, institutions of higher education, public and tribal housing authorities and faith-based organizations are eligible to apply.

<b>Cost Sharing or Matching Requirement:</b>	No		
<b>Eligible Applicants:</b>	Others (see text field entitled "Additional Information on Eligibility" for clarification)		
<b>Additional Information on Eligibility:</b>	<p>Eligibility varies depending upon the type of National Dislocated Worker Grant requested, as noted below. Please reference the text of TEGL 12-19 for additional requirements. Disaster Recovery DWGs: 1. States, as defined by the Workforce Innovation and Opportunity Act (WIOA) in Section 3(56);2. Outlying areas as defined by WIOA, Section 3(45); and,3. Indian tribal governments as defined by the Stafford Act, 42 U.S.C. 5122(6) Employment Recovery DWGs: 1. a state or outlying area (as defined by WIOA, Section 3), or a consortium of states;2. a local Workforce Development Board (WDB) or a consortium of WDBs;3. an entity eligible for funding through the Indian and Native American program in WIOA Section 166(c);4. entities determined to be appropriate by the governor of the state or outlying area involved; and,5. entities that demonstrate to the Secretary of Labor their capability to effectively respond to circumstances related to particular dislocations.</p>		
<b>Agency Name:</b>	Employment and Training Administration		
<b>Description:</b>	<p>National Dislocated Worker Grants (DWGs) are discretionary grants awarded by the Secretary of Labor under Section 170 of the Workforce Innovation and Opportunity Act (WIOA) to provide employment-related services for dislocated workers. The Department funds two types of DWGs: Disaster Recovery and Employment Recovery.</p>		

Disaster Recovery DWGs provide funding to create temporary employment opportunities to assist with clean-up and recovery efforts when an area impacted by an emergency or major disaster is declared eligible for public assistance by the Federal Emergency Management Agency (FEMA), or is declared, or otherwise recognized, as an emergency or disaster of national significance by a Federal agency with authority or jurisdiction over Federal response to the disaster or emergency.

Employment Recovery DWGs temporarily expand capacity to serve dislocated workers and to meet the increased demand for employment and training services following a qualifying event. Qualifying events include major economic dislocations, such as plant closures, mass layoffs, or higher-than-average demand for employment and training activities for dislocated members of the Armed Forces and their spouses. Under 20 CFR 687.110(a)(5), the Secretary of Labor may determine other major dislocations eligible for Employment Recovery DWGs.

Additional Information	
Agency Name:	Homeless Providers Grant and Per Diem Program
Description:	THIS IS NOT A NOTICE OF FUNDING. THIS IS A GENERAL FORECAST ONLY. <b><u>Grant and Per Diem (GPD) Program Introduction</u></b> The GPD Program is VA's largest transitional housing program for Veterans experiencing homelessness and is permanently authorized under Public Law 109-461. Since 1994, the GPD Program has awarded grants to community-based organizations to provide transitional housing with wraparound supportive services to assist vulnerable Veterans move into permanent housing. The grants are designed to meet Veterans at various stages as they move to stable housing. Community-based organizations receiving GPD grants offer focused transitional housing services through a variety of housing models targeted to different populations and needs of Veterans. The GPD program plays a vital role in the continuum of homeless services by providing supportive services to those Veterans who would otherwise be among the unsheltered homeless population. The result of GPD programs is that Veterans achieve residential stability, increase their skill levels and/or income, and obtain greater self-determination. <b><u>Types of GPD Grants</u></b> <b>Transitional housing grants:</b>

*Per Diem Only (PDO) grants* provide funding in the form of per diem payments to reimburse grantees for the cost of care provided to Veterans in transitional supportive housing.

*Special Need grants* target housing and services to specific populations of Veterans (e.g., women, Veterans with chronic mental illness, frail elderly Veterans, Veterans caring for minor dependents, terminally ill Veterans).

*Transition-In-Place (TIP) grants* offer Veteran residents housing in which supportive services transition out of the residence over time, rather than the resident. Upon completion of the TIP services, the resident retains the unit as their permanent housing with no requirement to move.

**Other types of grants:**

*Case Management grants* support Veterans who were previously experiencing homelessness or who are at risk for homelessness so that they may obtain or retain permanent housing.

*Capital grants* support the costs of acquiring, renovating, or constructing facilities and are only offered intermittently to improve existing facilities or to develop new transitional housing depending on VA's priorities and funding availability.

**Lists of current grantees** are available on the [GPD website](#).

**How to Apply for GPD Funding**

Not all grant types are available annually. When available, notices of funding can be found at the following

locations: [www.grants.gov](http://www.grants.gov) and <https://www.va.gov/homeless/gpd.asp>.

Application instructions are provided in each notice of funding.

Each notice of funding will clarify specific eligibility criteria, application requirements, funding limitations, and other requirements.

Applications are submitted through an online portal that is only available when there is an open notice of funding.

Potential applicants who wish to see what was required for previous applications may review past notices of funding, available on the [GPD provider website](#) and [www.grants.gov](http://www.grants.gov). Past notices of funding are not a guarantee of future requirements.

**Tentative Estimated GPD Award Schedule**

Specific dates are not able to be forecast.

The follow tentative approximations are provided for general planning purposes.

**FY 2026**

Case Management – GPD tentatively expects to offer a notice of funding around FY 2025 for case management awards starting approximately in FY 2026.

**FY 2027**

PDO – GPD tentatively expects to offer a notice of funding around FY 2026 for PDO awards starting approximately in FY 2027.

TIP – GPD tentatively expects to offer a notice of funding around FY 2026 for TIP awards starting approximately in FY 2027.

**FY 2028**

GPD tentatively does not expect to offer a notice of funding for this timeframe. GPD may update this forecast closer to the time.

### *Welcome to the Office of Native Hawaiian Relations*

ONHR's mission is to serve as a liaison with the Native Hawaiian Community—and the Department and its bureaus and offices—on issues affecting Hawai'i.

#### About Us

## **Grants & Funding Opportunities**

Native Hawaiian Organizations (NHOs) seeking grant funding may visit the links below:

### ***Office of Native Hawaiian Relations Grants:***

#### **Heritage Opportunities in Hawai'i (HŌ'ĪHI) Grant Program:**

The Native American Tourism and Improving Visitor Experience (NATIVE) Act, was introduced by U.S. Senators Brian Schatz (D-HI) and John Thune (R-S.D.). The Act seeks to enhance and integrate native tourism, empower native communities, and expand unique cultural tourism opportunities in the United States.

- The Office of Native Hawaiian Relations is providing \$1 million in funding for Native Hawaiian organizations through the [HŌ'ĪHI Grant Program](#).
- The funding is made possible by the Native American Tourism and Improving Visitor Experience (NATIVE, Act), which has enabled Indigenous communities to participate in national tourism goals and strategies.

## Kapapahuliau Climate Resilience Program:

To enhance the ability of the Native Hawaiian Community to navigate the effects of climate change in ways that maintain the integrity and identity of the Native Hawaiian people while also maintaining and enhancing their capacity for coping, adaptation, and transformation.

- The Office of Native Hawaiian Relations (ONHR), a dedicated office under the Office of the Secretary of the U.S. Department of the Interior, has announced a \$20 million climate resilience initiative funded by the 2022 Inflation Reduction Act.
  - Named for the imagery of navigating changing winds and currents on a Hawaiian voyaging wa‘a (canoe), the [Kapapahuliau Climate Resilience Program](#) aims to enhance the ability of the Native Hawaiian Community to navigate the effects of climate change in ways that maintain their integrity and identity as a people.

## Office of Hawai'ian Affairs Community Grants Program

[Grants](#) – The purpose of the Office of Hawai'ian Affairs Grants Program is to support Hawai'i based **nonprofit organizations** that have projects, programs, and initiatives to serve our Lāhui in alignment with OHA's Strategic Foundations, Directions & Outcomes.

### *Reminder, to be eligible for funding consideration, an applicant shall:*

- Be registered to do business in the State of Hawai'i
- Provide services to Native Hawai'ians and/or Native Hawai'ian community(ies) in the State of Hawai'i
- Have an IRS letter of Determination
- Compliant with Hawai'i Compliance Express

# Resources

Providing resources is among the key ways that the Office of Hawaiʻian Affairs fulfills its purpose.

The best possible Native Hawaiʻian historical and cultural information has been just a click away since the launch in April 2013 of the [Kipuka Database](#). It is a searchable online geographic information system that makes data that once would have taken long to compile, now available within seconds. The database helps complement our other key research tools, such as the [Native Hawaiʻian Data Book](#) and the [Papakilo Database](#), which is a digital library for Native Hawaiʻian historical and cultural information.

In addition, we launched [Kamakakoʻi](#), an issues-based digital media tool that has been years in the making. The cutting-edge website provides a platform to quickly engage key audiences and inspire action on policy matters important to the Native Hawaiʻian community.

---

## Resources

- [Grants](#) – The purpose of the Office of Hawaiʻian Affairs Community Grants Program is to support projects, programs and initiatives that address OHA's six Strategic Priorities and accompanying Strategic Results contained in OHA's 2010-2018 Strategic Plan.
- [Kamakakoʻi](#) – A *cutting edge* tool that leverages technology to engage, inform, activate and rally the Hawaiʻi community around voices on the cutting edge of community issues. It is produced and maintained by the Office of Hawaiʻian Affairs.
- [Kipuka Database](#) – A geographical information system (GIS) that utilizes the latest mapping technologies to provide a window into native Hawaiʻian land, culture and history.
- [Loans](#) – The Office of Hawaiʻians Affairs is committed to ensuring Native Hawaiʻians and their 'ohana have access to resources to assist them in pursuing their financial goals.
- [OHA Native Hawaiʻian Data Book](#) – A compilation of basic demographic data on Hawaiʻians and data to identify gaps and important issues to ensure OHA's actions and initiatives are based on the best information available.
- [Papakilo Data Base](#) – A comprehensive "Database of Databases" consisting of varied collections of data pertaining to historically and culturally significant places, events, and documents in Hawaiʻi's history.
- [Reports and Research](#) – A collection of reports and surveys intended to help guide strategic direction and policy decisions.
- [Scholarships](#) – Each year OHA provides funding for scholarships through its Higher Education Scholarship Programs.

## U.S. Department of Agriculture

Earlier this year, the U.S. Department of Agriculture cut two federal programs that provided about \$1 billion in funding to schools and food banks to buy food directly from local farms, ranchers and producers. The move cancels about \$660 million in funding this year for the Local Food for Schools program, which is active in 40 U.S. states, as well as about \$420 million for a second program called the Local Food Purchase Assistance Cooperative Agreement, which helps food banks and other local groups provide food to their communities.

According to published reports, "USDA can confirm it has provided notice to States, Territories and Tribes that the FY 2025 funding previously announced for the pandemic-era Local Food for Schools and Child Care Cooperative Agreement and pandemic-era Local Food Purchase Assistance Cooperative Agreement program is no longer available and those agreements will be terminated following 60-day notification," a spokesperson with the agency said in an email to CBS News.

The Rural Information Center curates additional information with Rural funding resources. The RIC webpage does not seem to be affected. It is below.

**About RIC**

Rural areas comprise 97% of the United States' land area but are home to only 14% of the population. With funding spread over a wide distance, residents and communities often experience greater difficulties accessing resources, provisions, or services. RIC aims to support our rural communities and the residents working to help them thrive.

## EXAMPLE PROJECT

In FY2021, EDA awarded **\$1,838,634 in Economic Adjustment Assistance – FY2019 Disaster Supplemental funds to support the Natural Energy Lab of Hawaii** with building on the success of the pilot HATCH aquaculture accelerator program and developing a medium to long-term program to incubate additional aquaculture startups as well as host company building workshops in Hawaii County, Hawaii. The project will assist with recovery efforts from the Puna East Rift Zone lava eruption, which destroyed four acres of NELHA property.

- [Market Development Cooperator Program](#)
- [Special American Business Internship Training Program \(SABIT\)](#). A technical assistance initiative of the International Trade Administration of the U.S. Department of Commerce, SABIT offers organizations competitive grants and an opportunity to host industry-specific delegations. SABIT serves as an initial entry point for U.S. businesses seeking funding to establish long-term relationships with potential customers, distributors, or partners in the former Soviet Union. The program trains Eurasian managers and scientists in commonly accepted business practices as a means of facilitating cross border relationships. In turn, these personal relationships serve as a basis for business development and reduce market access barriers for U.S. businesses.

## National Oceanic & Atmospheric Administration (NOAA)

It has also been reported that Trump administration officials are recommending the elimination of the scientific research division at the National Oceanic and Atmospheric Administration. While this is subject to Congressional approval or modification, the following are what is under consideration. The budget allocation for NOAA is of just over \$170 million, down from about \$485 million in 2024.

Programs that retained funding, including research into tornado warnings and ocean acidification, would be relocated to the National Weather Service and National Ocean Service offices.

According to the New York Times on April 11, 2025, "NOAA, which takes up more than half of the Commerce Department budget, would receive just over \$4.4 billion, a reduction of \$1.6 billion from 2025.

That includes reducing the budget for the National Marine Fisheries Service by one-third. The office would be split from NOAA and moved to the Interior Department's U.S. Fish and Wildlife Service. Grants that fund species recovery and habitat conservation would be eliminated.

Funding for National Ocean Service, a branch of NOAA, would be cut in half. Programs like the National Centers for Coastal Ocean Science, an office within the ocean service that studies corals, pollution, and the effect of climate change and sea-level rise on coastal communities, would not be funded."

The NOAA programs operating in Hawaii are currently appearing on the NOAA website follows. There is tremendous upheaval at NOAA so the following list of programs designated as "Open" in Hawaii for the Sea Grant Program must be seen as highly unlikely. The Agency is in tremendous flux.

## Corporation for National and Community Service

### General Program Overview

AmeriCorps provides resources, both human and financial, to organizations that engage Americans in intensive service to meet our country's critical needs.

Grantees use the funding to support AmeriCorps members for intensive service in their community. AmeriCorps grants partially cover the expense of operating an AmeriCorps program and do not cover general organizational expenses. A cash and in-kind match are required.

[Posted Jan. 23, 2025] On January 20, 2025, the President issued the Executive Order “Ending Radical and Wasteful Government DEI Programs and Preferencing and Initial Rescissions of Harmful Executive Orders and Actions ([January Executive Order](#)) Ending Radical And Wasteful Government DEI Programs And Preferencing – The White House), which repeals Executive Order 14035, “Diversity, Equity, Inclusion and Accessibility in the Federal Workforce.” On January 21, 2025, the U.S.

Office of Personnel Management (OPM) issued to all federal executive agencies a Memorandum providing initial guidance regarding the January 20 Executive Order ([OPM Guidance](#)).

Accordingly, AmeriCorps is currently conducting a full review to determine and implement steps needed to fully comply with the January 20 Executive Order and the January 21 OPM Guidance. We will notify you as soon as possible with any changes or updates to the AmeriCorps NOFO grantmaking process in light of the Executive Order and the OPM Guidance.

## Meeting Needs in Hawaii

Last year more than **2,700** Americans of all ages and backgrounds united to meet local needs, strengthen communities, and expand opportunity through national service in Hawaii. AmeriCorps invested more than **\$8.5 million** in federal funding to support cost-effective community solutions, working hand in hand with local partners to empower individuals to help communities tackle their toughest challenges.

AmeriCorps members and AmeriCorps Seniors volunteers are preparing today's students for tomorrow's jobs, helping communities and families impacted by the COVID-19 pandemic, connecting veterans to services, fighting the opioid epidemic, helping seniors live independently, rebuilding communities after disasters, and leading conservation and climate change efforts.

AmeriCorps members and AmeriCorps Seniors volunteers served at more than **200** locations across Hawaii, including schools, food banks, homeless shelters, health clinics, youth centers, veterans facilities, and other nonprofit and faith-based organizations. Through a unique public-private partnership, AmeriCorps and its partners generated more than **\$2.1 million** in outside resources from businesses, foundations, public agencies, and other sources in Hawaii last year. This local support strengthened community impact and increased the return on taxpayer dollars.

community impact and increased the return on taxpayer dollars.

## Our Programs and Initiatives

**AmeriCorps State and National** awards grants to organizations to engage individuals in sustained service to address local, regional, and national challenges. Thousands of opportunities exist in locations across the country to serve with nonprofits, schools, public agencies, tribes, and community and faith-based groups. Most AmeriCorps grant funding goes to Hawai'i Commission on National and Community Service, the Governor-appointed State Service Commission, which in turn awards grants to organizations to respond to local needs.

**Public Health AmeriCorps** supports the recruitment, training, and development of the next generation of public health leaders who will be ready to respond to the nation's health needs. In partnership with the Centers for Disease Control, Public Health AmeriCorps advances more equitable health outcomes, creates pathways to quality careers, and recruits members who reflect the communities they serve.

**AmeriCorps VISTA** places individuals with nonprofit organizations, public agencies, and tribal governments to expand reach and deepen impact in making sustainable change that alleviates the impact of poverty. Through fundraising, volunteer recruitment, program development, and more, AmeriCorps members gain experience and leadership skills that put them on track for a life of service in the public, private, or nonprofit sector.

**AmeriCorps NCCC** is a full-time, team-based, residential program for 18–26-year-olds. Whether building homes for families in need or accelerating our nation's capacity to respond to a crisis, AmeriCorps NCCC members engage in a variety of community identified projects during their service term, while developing leadership, teamwork, and professional skills. AmeriCorps NCCC FEMA Corps serves communities, in coordination with FEMA, through disaster preparedness, response, and recovery.

**AmeriCorps Seniors Foster Grandparents** provides grants to organizations to engage low-income Americans aged 55 and older in providing one-on-one mentoring and academic support to children with special or exceptional needs. In 2021, Foster Grandparents in Hawai'i served more than 20 young people with special needs.

**AmeriCorps Seniors Senior Companions** provides grants to organizations to engage low-income Americans aged 55 and older in providing supportive, individualized services to help homebound seniors and other adults maintain their dignity and independence.

**AmeriCorps Seniors RSVP** provides grants to organizations to engage Americans aged 55 and older in tutoring and mentoring youth, responding to natural disasters, supporting veterans and their families, and meeting other critical needs.

**Volunteer Generation Fund** supports voluntary organizations and state service commissions in boosting the impact of volunteers in addressing critical community needs.

**MLK Day of Service** is observed each year on the third Monday in January. It is the only federal holiday designated as a national day of service to encourage all Americans to volunteer to deepen ties to communities, expand racial equity, and solidify service to others as a national commitment.

**9/11 National Day of Service and Remembrance** calls Americans across the country to volunteer in their local communities in tribute to the individuals lost and injured in the attacks, first responders, and the many who have risen in service to defend freedom since Sept. 11, 2001.

## Department of Education

Of Hawaii's current \$2.18 billion dollar education budget, \$239 million or 11 percent of that funding is from the federal government. Most of those funds are allocated to Title 1 schools, special needs programs and school nutrition.

The U.S. DOE provides Hawai'i nearly \$52 million a year in Title 1 funding, helping more than 96,000 of our most vulnerable students with vital funding to hire teachers and support staff. Losing federal dollars would further exacerbate the educator shortages plaguing Hawai'i public schools, causing students' class sizes to balloon.

The federal education department also supports almost 20,000 Hawai'i students with special needs with nearly \$38 million in funding every year.

A group of 21 Attorneys General, including Hawai'i's AG, [sued the Trump administration](#) to block the dismantling of the federal education department, alleging the firing of 50% of its employees "incapacitates" the department's ability to compete its legally-required functions.

U.S. Sen. Mazie Hirono (D, HI) released a statement that said, "The Department of Education supports low-income students and students with disabilities, prevents discrimination in the classroom, and ensures access to afterschool and summer programs, while supporting important services like school lunch for kids in need."

"Donald Trump's cruel effort to gut the department from the inside out will wreak havoc on schools and communities across the country, leaving students, educators, and families paying the price," Hirono added.

As of May 12 the following is the status of the lawsuit as reported by Education Week:

On May 6, 2025 a federal judge halted the Trump administration's decision to [effectively cancel more than \\$1 billion in K-12 education funding](#) for more than a dozen states—but left the door open for the U.S. Department of Education to again terminate the funding after giving states advance notice.

Judge Edgardo Ramos said in the May 6 order that sued along with the District of Columbia had shown sufficient reason to halt a [March 28 letter from Education Secretary Linda McMahon](#) abruptly announcing that the administration had moved up the due date for spending remaining pandemic relief funds.

[Ramos' order](#) prohibits the Education Department from enforcing or implementing the letter's cancellation of those spending extensions for the 16 states and the District of Columbia through the course of litigation or until a subsequent court order. The department also cannot modify those extensions for the states that sued to spend their pandemic dollars without providing at least 14 days' notice announcing a new deadline. His order doesn't apply to states that didn't participate in the lawsuit.

U.S. Department of Education

## Forecast of Funding Opportunities under the Department of Education Discretionary Grant Programs for Fiscal Year (FY) 2024

This document lists virtually all programs and competitions under which the Department (we) has invited or expects to invite applications for new awards and provides actual or estimated deadline dates for the transmittal of applications under these programs. The lists are in the form of charts -- organized according to the Department's principal program offices -- and include programs and competitions we have previously announced, as well as those we plan to announce at a later date. **If you are interested in applying for any upcoming grants with the Department of Education, please take the time to register with SAM at [www.SAM.gov](http://www.SAM.gov), as you must have an active account in order to submit a grant application with our agency. We recommend you register now even as you are looking for eligible grant programs so that your SAM registration is active by the time the application is published. This will allow you to focus on writing the application during the period the application is available, and you are not spending a portion of that time obtaining SAM registration. Please click [here](#) to refer to the SAM tip sheet for additional information.**

**Note:** This document is advisory only and is not an official application notice of the Department of Education. We expect to provide updates to this document starting in the first week of June in a fiscal year and continuing through the following August. Please keep in mind that the dates recorded in this document are **SUBJECT TO CHANGE** and that the average size/number of awards are **ESTIMATES**.

**Note on printing:** For best results, print this document in landscape orientation.

### *Organization of this Document*

We have assigned to each principal office a separate chart as follows:

[Chart 1 - Institute of Education Sciences.](#)

[Chart 2 - Office of Elementary and Secondary Education.](#)

[Chart 3 - Office of Postsecondary Education](#) (Link to [HEP](#) Chart)

## *Grant Application Information*

Here's how you can tell whether we've already published an application notice for a particular program or competition in the *Federal Register* and whether the dates we list in this Forecast of Funding Opportunities are actual or estimates:

If we have published the application notice, we will list the *Federal Register* (FR) volume and page number (e.g., 65 FR 53402) after the date in column two. The other dates for that program or competition (columns four and five) are actual (as opposed to estimated) dates.

If we do not follow the date in column two with an FR citation, it means that we have yet to publish the application notice, and the dates (columns, two, four, and five) are estimates only. The actual dates will appear in the official application notice for that program or competition in the *Federal Register*.

**Date of Application Notice.** In column two of the charts, we list the actual or estimated date for publication of the application notice for a given program or competition.

**Link to Notice.** In column three of the charts, after its publication in the *Federal Register*, we will provide a link to the application notice for a given program or competition.

**Electronic Grant Applications.** Applications may be submitted electronically, for certain programs listed in the Forecast, through the Grants Management System (G5: [www.g5.gov](http://www.g5.gov)) or through Grants.gov. The requirements and instructions for submitting applications electronically under the program identified will appear in the *Federal Register* in the application notice for these programs or competitions. It is important to note that, if a competition is using Grants.gov, it will not be using G5 and vice versa. As part of doing business with the Federal Government, applicants must have an active registration with SAM ([www.SAM.gov](http://www.SAM.gov)). Therefore, we strongly recommend that you create a SAM account now (or update your account if you already have an existing one) before the application package becomes available so that once the package is posted, your registration will be complete.

## *Contact Information*

**Program Contact Person.** In column seven of the charts, we list the name, e-mail address, fax, and telephone numbers of the person or persons to contact for obtaining an application or further information about the programs listed. We also include this information in the actual application notice for that program.

**For Users of TDD or FIRS.** If you use a telecommunications device for the deaf (TDD), you may call the TDD number, if any, listed in the individual application notice. If a TDD number is not listed for a given program, individuals who use a TDD may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

## *Fiscal Information*

**Available Funds.** The programs and funding amounts listed in this document are based on the Secretary's best estimates at this time. The Secretary is providing this document in order to give potential applicants adequate time to prepare applications. Potential applicants should note, however, that the Department may cancel some of the competitions listed in this document and may announce some new competitions not listed in this document.

**Estimated Average Size of Awards and Number of Awards.** Except for programs and competitions administered by the Office of Special Education and Rehabilitative Services (OSERS), column six lists estimated average size and number of awards. The amounts and numbers referenced in this column are advisory and represent the Secretary's best estimates at this time. The average size of an award is the estimate for a single-year project or for the first budget period of a multi-year project. In the application package for an individual program or competition, applicants will receive information about the amount the Secretary intends to make available for each year of a multi-year project.

In the case of programs and competitions administered by the principal components of OSERS, the charts differ with regard to the average size of awards. For programs and competitions of this office, column six of the charts

lists the average or estimated maximum size of the awards per year. Applicants will receive further information about funding amounts in the application packages for the individual programs.

Note: The Department is not bound by any of the estimates in this document. We advise you to read the actual individual application notices for these programs or competitions published in the *Federal Register*.

### Introduction

The Office of Management and Budget (OMB) made significant updates to 2 Code of Federal Regulations (CFR) 200 which establishes administrative requirements, cost principles, and audit requirements for all Federal financial assistance. The updates, known as the Uniform Grants Guidance 2024 Revision, apply to projects that start on or after October 1, 2024. Current recipients should work with their Grant Specialists and Project Officers to understand when and if their current projects are affected. recipients should work with their Grant Specialists and Project Officers to understand when and if their current projects are affected.

You should be aware of the changes and how they could affect your project.

---

### Benefits

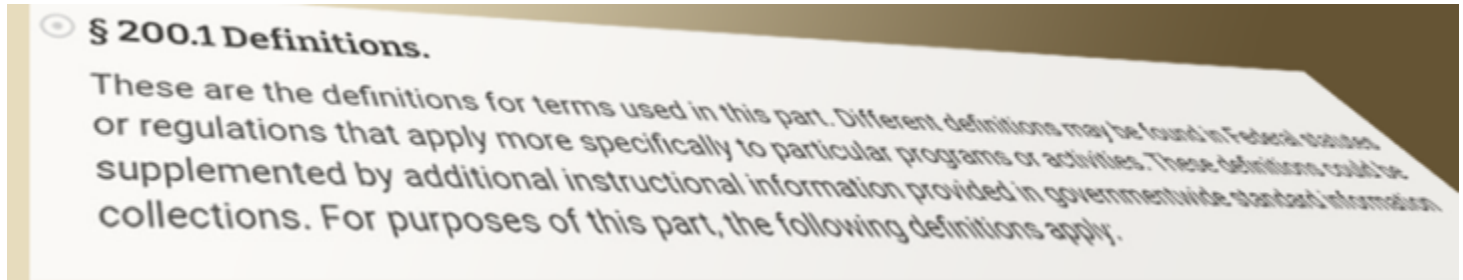

The updated guidance benefits applicants and recipients in many ways.

- Guidance is written in plain language to clarify concepts and terms that have been subject to multiple interpretations.
- Grant announcements—also known as Notices of Funding Opportunity (NOFOs)—are streamlined and shortened.
- Application requirements for new Federal financial assistance are simplified.
- Administrative burdens on applicants and recipients are reduced.

- Flexibility for community engagement-related activities is increased.
- 

## Key Changes

The following highlights call attention to some of the most significant changes in each subpart of 2 CFR 200.

### Acronyms and Definitions (Subpart A (Sections 200.0 -200.1)) and General Provisions (Subpart B (Sections 200.100-200.113))

- The term “recipient or subrecipient” replaces “non-federal entity” globally — except when non-federal entity refers to statutory provisions.
- An applicant, recipient, or subrecipient is now required to promptly disclose when it has “credible evidence” of violations of Federal criminal law involving fraud, conflict of interest, bribery, or gratuity violations.

### Pre-Award (Subpart C (Sections 200.200-200.217))

- Notice of Funding Opportunity (NOFO) announcements use a streamlined template.
- Use of plain language eliminates jargon and ensures consistent use of terms.
- Programs may translate NOFOs to languages other than English.
- Organizations can more easily identify their eligibility for funding opportunities.
- Recipients and subrecipients must now inform employees in writing of whistleblower rights and protections.

#### **Post-Award (Subpart D (Sections 200.300-200.346))**

- Recipients and subrecipients must take reasonable cybersecurity and other measures to safeguard sensitive information.
- Similar to States, Tribes must follow the same policies and procedures used for procurements made with non-Federal funds when they conduct procurement transactions under a Federal financial assistance agreement.
- The maximum amount for fixed amount subawards is \$500,000 (changed from \$250,000); fixed amount subawards still require approval from EPA's Office of Grants and Debarment.
- The maximum fair market value for equipment that may be retained, sold, or otherwise disposed of with no further responsibility to EPA or a pass-through entity is \$10,000 (increased from \$5,000).
- Recipients are required to sell at the end of the grant period unused supplies that exceed an aggregate value of \$10,000.
- Three types of procurement are clarified: informal procurement methods (for micro-purchases and simplified acquisitions); formal procurement methods (through sealed bids or proposals); and noncompetitive procurement methods.
- Recipients have additional responsibilities when closing a grant.
- EPA must report a recipient's non-compliance in SAM.gov, including failure to submit all final reports.

#### **Cost Principles (Subpart E (Sections 200.400-200.476))**

- The prior approval requirement is removed for several cost categories, including participant support costs.
- The *de minimis* indirect cost rate percentage is 15% (increased from 10%).

- The threshold for defining equipment and other capital expenditures is \$10,000 (increased from \$5,000).
- Allowable organization costs now include costs related to data (for example, gathering, managing, publishing, using, etc.) and evaluation (for example, reviewing evidence, conducting evaluations, sharing results, etc.).
- Closeout costs and post-closeout adjustments and continuing responsibilities are revised.

### Audit Requirements (Subpart F (Sections 200.500-200.521))

- The threshold value for Single Audits is \$1,000,000 (increased from \$750,000).

## Department of Health and Human Services

HHS is the largest grant-making agency in the US. Most HHS grants are provided directly to states, territories, tribes, and educational and community organizations, then given to people and organizations who are eligible to receive funding.

On this site you will find information for prospective and current grantees about HHS grant programs, the grant application processes, and grant management.

### **[Get Ready for Grants Management](#)**

Learn how to register with the government, find and apply for grants, and manage grants.

### **[Grants Policies & Regulations](#)**

Review the latest information about audits, efficient spending policy, laws and regulations that apply to federal grants.

### Grants Forecast and Overview

The Department of Health and Human Services' Grants Forecast is a database of planned grant opportunities proposed by its [agencies](#). Each Forecast record contains actual or estimated dates and funding levels for grants that the agency intends to award during the fiscal year. Forecast opportunities are subject to change based on enactment of congressional appropriations.

## Department of Homeland Security

On Jan. 20, President Donald Trump working with Secretary Kristi Noem [signed an executive order requiring Noem](#) to “review and, if appropriate, audit all contracts, grants, or other agreements providing Federal funding to nongovernmental organizations supporting or providing services, either directly or indirectly, to removable or illegal aliens.”

The order instructed Noem to suspend payments pending the results of the agencywide review and terminate “all such agreements determined to be in violation of law or to be sources of waste, fraud, or abuse.”

On January 28, 2025 Secretary Noem issued a memorandum freezing “all Department grant disbursements and assessments of grant applications that: (a) go to nonprofit organizations or for which nonprofit organizations are eligible, and (b) touch in any way on immigration.”

As of June 2025 the DHS website is undergoing an agency-wide update and all major grant programs for local governments and non-profits are in flux.

### ***DHS Components and Directorates Issuing Financial Assistance***

Eight DHS Components and Directorates manage DHS financial assistance programs:

- [Countering Weapons of Mass Destruction Office](#) (CWMD)
- [Cybersecurity and Infrastructure Security Agency](#) (CISA)
- [Federal Emergency Management Agency](#) (FEMA)
- [Science and Technology Directorate](#) (S&T)
- [U.S. Citizenship and Immigration Services](#) (USCIS)
- [U.S. Coast Guard](#) (USCG)
- [U.S. Immigration and Customs Enforcement](#) (ICE)
- [U.S. Secret Service](#) (USSS)

FEMA manages 70% of the DHS financial assistance programs and awards 98% of the DHS financial assistance funding through disaster and non-disaster grants, cooperative agreements, loans, direct payments, and flood insurance.

### ***Financial Assistance Policy and Oversight (FAPO)***

The DHS Office of Chief Financial Officer’s (OCFO) Financial Assistance Policy and Oversight (FAPO) Division leads the Department's Financial Assistance Line of Business (FALoB) by providing oversight of DHS financial assistance programs. FAPO serves as the central financial assistance resource for all DHS Component Program Offices (POs) and Financial Awarding Offices (FAOs). FAPO develops and implements policy, conducts oversight reviews, and tracks and reports financial assistance activities throughout the financial assistance lifecycle phases: pre-award, award, post award, and closeout; as well as internal controls.

**Apply for Financial Assistance on Grants.gov**

[Grants.gov](#) is the source to find and apply for federal financial assistance. DHS uses Grants.gov to post notices of funding opportunity (NOFOs). There is a [registration process](#) for Grants.gov that may take up to three weeks to complete. Grants.gov is the federal wide system utilized by government agencies. Registering with Grants.gov allows applicants to apply for financial assistance opportunities for all federal agencies.

**Financial Assistance Resources**

- [Assistance Listings](#) (ALs) are detailed public descriptions of federal programs that provide grants, loans, scholarships, insurance, and other types of assistance awards. You may browse assistance listings across all government agencies to learn about potential funding sources.
- [DHS Standard Terms and Conditions](#) are the legal requirements imposed on a financial assistance award, whether based on regulation, policy or other document referenced in the award, or specified in the notice of award (NOA) document itself. The NOA may include both standard and special conditions that are considered necessary to attain the award's objectives, facilitate post-award administration, or otherwise protect the Federal Government's interests.

The applicable DHS Standard Terms and Conditions for grants, cooperative agreements, fixed amount awards, and other types of federal financial assistance are based on the fiscal year in which the financial assistance award was funded.

- [Title 2, Code of Federal Regulations, Part 200](#), "Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards." 2 CFR Part 200, or Uniform Guidance, is the Office of Management and Budget (OMB) guidance to federal agencies on government-wide policies and procedures for the award and administration of federal financial assistance. Recent revisions to the Uniform Guidance will take effect on all new federal awards made on or after October 1, 2024.

**Transparency of Grants Actions to Reduce Spending**

In compliance with President Donald J. Trump’s Memorandum on [Radical Transparency About Wasteful Spending](#), the Department of Homeland Security has taken actions related to financial assistance either to terminate awards or to cancel programs that do not meet the current Administrative Priorities.

To view grant actions taken to reduce spending, visit [Transparency of Grants Actions to Reduce Spending](#).

**Assistance to Firefighters Grants**

Notice on AFG website: FEMA.gov is being updated to comply with President Trump's Executive Orders. Thank you for your patience and understanding.

The primary goal of the Assistance to Firefighters Grant (AFG) is to meet the firefighting and emergency response needs of fire departments and non-affiliated emergency medical service organizations.

Since 2001, AFG has helped firefighters and other first responders obtain critically needed equipment, protective gear, emergency vehicles, training and other resources necessary for protecting the public and emergency personnel from fire and related hazards.

## Institute of Museum and Library Services

The White House issued the following Executive Order on March 14, 2025 –

**ELIMINATING WASTE AND REDUCING GOVERNMENT OVERREACH:** Today, President Donald J. Trump signed an Executive Order continuing the reduction of the Federal Bureaucracy.

- This Executive Order eliminates non-statutory functions and reduces statutory functions of unnecessary governmental entities to what is required by law.
  - o Affected entities include the Federal Mediation and Conciliation Service, United States Agency for Global Media, Woodrow Wilson International Center for Scholars, **Institute of Museum and Library Services**, United States Interagency Council on Homelessness, Community Development Financial Institutions Fund, and Minority Business Development Agency.

<https://www.whitehouse.gov/presidential-actions/2025/03/continuing-the-reduction-of-the-federal-bureaucracy/>

On March 31, 2025 The Institute of Museum and Library Services placed its entire staff on administrative leave. Approximately 70 employees are no longer available to assist libraries and museums across the country. President Trump named Keith E. Sonderling — the deputy secretary of labor — as the new acting director of IMLS.

According to a statement from AFGE Local 3403, which represents IMLS workers, the agency's staff was notified by email about being placed on paid administrative leave for up to 90 days, after a "brief meeting between DOGE staff and IMLS leadership." Employees had to turn in government property, and email accounts were disabled.

IMLS awarded [\\$266 million](#) in grants and research last year.

It remains unclear whether funding for existing grantees will continue, and whether new grants will be available in the future.

State Agencies / About SAAs

## State Administering Agencies

State Administering Agencies (SAAs) conduct coordinated and transparent strategic planning and implement structural reforms that improve the administration of justice, while saving taxpayer money. There are 56 agencies in all 50 states and territories, and Washington DC. Visit the [SAA Directory](#) for agency contact information and websites, and contact information agency heads, JAG contacts and SAC Directors.

Most SAAs are a component of the Governor's (or Mayor's) office; a free-standing criminal justice planning entity or a division of the state department of public safety. In addition to location, the mission, vision and strategic focus of an SAA is often defined by state statutes. Due to differences in location, formula grants administered, research capacity and leadership selection processes, SAAs are a diverse group of government agencies with differing capacities, perspectives, missions and priorities.

### The Role of the SAA

With a structure and process that varies by state, these agencies use strategic planning to analyze crime trends, evaluate the priorities of all segments of the criminal justice system, set out a plan for reducing crime and victimization and guide the use of the grant funds.

Furthermore, SAAs, in partnership with the Bureau of Justice Assistance (BJA), design, replicate and implement evidence-based programs and practices that target the needs identified in their strategic plans, incorporate rigorous research, measure performance, and provide an honest assessment of success or failure. In many states, the SAAs have established training centers that help their local partners develop and deploy evidence-based practices. (See our [From Policy to Practice video series](#) for information about state resources for supporting implementation of EBPs).

Many innovative criminal justice practices started with funding from the Edward Memorial Justice Assistance Grant (Byrne JAG) Program, the primary provider of federal criminal justice funding to state and local jurisdictions. JAG-funded programs have been replicated nationwide. These include drug courts, methamphetamine lab reduction, anti-gang strategies, reentry programs and information sharing protocols. Browse our [Library of Byrne JAG Promising Practices](#) for JAG-funded program examples from all 50 states and Washington DC.

### Program Management

As the executive branch agency designated to accept, administer and distribute criminal justice funds, state administration agencies such as law enforcement and judicial systems

**State of Hawaii**  
**Crime Prevention and Justice Assistance Division**

CPJAD serves as the central agency to provide the Attorney General, the chief law enforcement officer of Hawaii, with the information and resources needed to address crime and crime prevention. CPJAD accomplishes this by:

- Researching crime issues and reporting comprehensive crime statistics for the state;
- Utilizing federal and state funds and non-financial resources to address crime problems and criminal justice system issues;
- Planning, developing, and implementing education and crime prevention programs to promote community involvement in crime prevention efforts;
- Developing and maintaining a computerized juvenile offender information system.
- Assisting in locating, recovering, and reuniting missing children and runaways with their families.
- Supporting the Hawaii Sexual Assault Response and Training program and the statewide standards related to the sexual assault evidence collection kit.

This enables the Attorney General to facilitate and coordinate efforts to improve the criminal justice system and to encourage community partnerships in addressing crime.

*Our mission is to assist the criminal justice system agencies to improve service delivery and to promote the involvement of communities in the prevention of crime.*

## National Endowment for the Arts

The National Endowment for the Arts awards grants to nonprofit organizations, creative writers and translators, state arts agencies, and regional arts organizations in support of arts projects across the country.

On May 6, 2025 it was reported that The Trump Administration has started canceling National Endowment for the Arts (NEA) grants. According to public reports, hundreds of arts groups of various sizes across the U.S. received emails notifying them of the withdrawal and termination of their grants. The updates, which came by email address, occurred shortly after President Trump proposed eliminating the agency entirely from the federal budget.

"The NEA is updating its grantmaking policy priorities to focus funding on projects that reflect the nation's rich artistic heritage and creativity as prioritized by the President," the email, several copies of which have been shared with NPR, stated in part. "Consequently, we are terminating awards that fall outside these new priorities." The email includes a line saying the recipient can appeal the decision within seven days.

The email states President Trump's priorities as being: "Projects that elevate the Nation's HBCUs and Hispanic Serving Institutions, celebrate the 250th anniversary of American independence, foster AI competency, empower houses of worship to serve communities, assist with disaster recovery, foster skilled trade jobs, make America healthy again, support the military and veterans, support Tribal communities, make the District of Columbia safe and beautiful, and support the economic development of Asian American communities."

The National Endowment for the Arts is among a group of "small agency eliminations" proposed by the Trump administration's [2026 Discretionary Budget Request](#), alongside the National Endowment for the Humanities and the Institute of Museum and Library Services. "The Budget includes the elimination of, or the elimination of Federal funding for, the following small agencies — consistent with the President's efforts to decrease the size of the Federal Government to enhance accountability, reduce waste, and reduce unnecessary governmental entities. Past Trump administration budgets have also supported these eliminations. Remaining funds account for costs of orderly shutdowns," the budget request states.

Earlier this year several arts agencies from across the country sued NEA over new requirements following the Presidential Executive Order barring the use of federal funds for the "promotion of gender ideology". The lawsuit was filed in late February.

## National Endowment for the Humanities

The National Endowment for the Humanities is in a state of flux similar to the National Endowment for the Arts and the Institute for Museum and Library Services.

State Humanities Councils have received letters from the Endowment stating grants were being terminated because the NEH is "repurposing its funding allocations in a new direction in furtherance of President Trump's agenda." The legal basis for the cancellations remains unclear. Observers have noted that the creation and funding of state humanities councils was specifically mandated in the legislation passed by Congress.

NEH issued the following directive via press release on April 24, 2025:

### **“An Update on NEH Funding Priorities and the Agency’s Recent Implementation of Trump Administration Executive Orders”**

In recent weeks the National Endowment for the Humanities (NEH) has taken several internal operational steps to improve efficiency, eliminate offices that are not essential to fulfilling its statutory requirements, and to return to being a responsible steward of taxpayer funds.

NEH has also taken programmatic steps to ensure that all future awards will, among other things, be merit-based, awarded to projects that do not promote extreme ideologies based upon race or gender, and that help to instill an understanding of the founding principles and ideals that make America an exceptional country.

For these reasons, NEH is releasing the following statement of its priorities along with answers that are relevant to questions that the public may have.

### **Statement on NEH Priorities**

Founded in 1965, the National Endowment for the Humanities (NEH) is a grant-making agency of the U.S. government dedicated to supporting exemplary humanities research and programming in service of the American people. It does so by investing in the most meritorious proposals for the advancement and dissemination of humanities learning.

As set forth in [NEH's enabling legislation](#), the humanities include the study of modern and classical languages, linguistics, literature, history, jurisprudence, philosophy, archaeology, comparative religion, ethics, the history of the arts, and those aspects of the social sciences which have humanistic content and use humanistic methods, as well as other areas.

To bring the wisdom of the humanities to all Americans, NEH supports research projects that advance humanistic learning, preservation projects that ensure access to significant humanities resources, education projects that strengthen teaching in the humanities, and public programming that conveys the best of the humanities to all Americans.

Moving forward, NEH is especially interested in projects on the nation's semiquincentennial and U.S. history more generally. In addition, the agency will be more finely attuned to its statutory responsibility that "funding should contribute to public support and confidence in the use of taxpayer funds."

As per longstanding agency policy, NEH-supported projects must not promote a particular political, religious, or ideological point of view and must not engage in political or social advocacy. NEH-supported projects should not preference some groups at the expense of others and should ultimately support public purposes.

The principles of intellectual significance, merit, competition, and equal opportunity lie at the heart of NEH's mission.

## **Frequently Asked Questions**

### **1. Why is NEH refocusing its priorities?**

At the start of an administration, NEH has always established new initiatives within the policy context set forth by Congress, the Executive Branch, and the head of the agency. Currently, NEH is especially encouraging projects related to the nation's semiquincentennial and American exceptionalism. In addition, NEH has recommitted itself to ensuring that its funding, as required by statute, contributes to public confidence in how it expends taxpayer funds.

### **2. Why is NEH cancelling awards?**

All federal grantmaking agencies, including NEH, must ensure that taxpayer dollars are spent effectively and are consistent with each agency's mission. This requires that NEH regularly evaluate its funding priorities within the policy framework established by Congress, the Administration, and the head of NEH. Awards and programming must align with these priorities.

### **3. What types of awards are being cancelled?**

In collaboration with the Administration, NEH has cancelled awards that are at variance with agency priorities, including but not limited to those on diversity, equity, and inclusion (or DEI) and environmental justice, as well as awards that may not inspire public confidence in the use of taxpayer funds.

### **4. Why has NEH added guidance to its NOFOs on the "promotion of gender ideology," "environmental justice initiatives or activities," "discriminatory equity ideology," and DEI/DEIA?**

As a federal agency, NEH is required to comply with all relevant Executive Orders issued by the Administration. NEH updated the Funding Restrictions section of its NOFOs to comply with several recent Executive Orders, including "[Ending Radical and Wasteful Government DEI Programs and Preferencing](#)," "[Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government](#)," and "[Ending Radical Indoctrination in K-12 Schooling](#)." You can learn more about these Executive Orders by visiting the White House's [Presidential Actions webpage](#).

NEH will promptly comply with all relevant Executive Orders and court actions.

**5. How will NEH decide whether a proposed project contravenes any of the Administration’s recent Executive Orders, such as “Ending Radical and Wasteful Government DEI Programs and Preferencing” and “Defending Women from Gender Ideology Extremism and Restoring Biological Truth to the Federal Government”?**

As per standard practice, NEH peer reviewers evaluate an application based on the program’s published Review Criteria. At a later point in the process, NEH staff and leadership, along with the agency’s General Counsel, will consider, as needed, whether an award of federal funds to a specific application might violate the new guidelines. In accordance with NEH’s authorizing legislation, the NEH Chairman will make all final funding decisions about which applications will receive public support.

**6. Does the addition of the new guidance on gender ideology and environmental justice mean that NEH will not fund projects on, for example, the suffragist movement or a history of conservation policies in the United States?**

No, not necessarily. The restrictions only apply to the categories mentioned in the relevant Executive Orders. We encourage you to read the relevant Executive Orders and consider whether your project’s topic—jointly with its goals, methodology, activities, and intended audience—seems allowable.

**7. Can I still work with or apply from Minority Serving Institutions (MSIs)?**

Yes, applications from and collaborations with MSIs are encouraged.

**8. Is NEH still accepting applications with a focus on countries, regions, cultures, or literatures other than that of the United States and Europe?**

In honor of the 250th anniversary of the Declaration of Independence, NEH is especially interested in projects with a focus on American history and the nation’s founding. Yet, NEH continues to accept (and fund) applications in all areas of the humanities as defined by NEH’s statute. Please consult the NOFOs for each program regarding specific eligibility criteria and the program’s aims.

**National Science Foundation**

NSF chief management officer Micah Cheatham informed the staff that the agency will be undergoing a drastic restructuring. The changes would include dissolving the agency's divisional structure, firing some staff, and reducing the number of scientific experts the NSF relies on to help manage its programs. But a district [court ruling](#) handed down just hours after Cheatham sent the memo put many of the planned changes on hold until at least May 23.

On top of internal job cuts and reorganizations, the agency continues to eliminate grants. Since April 11, it has canceled over 1,400 awards representing \$1 billion in committed funds. The agency has also [frozen all funding actions](#) and [implemented a 15% cap](#) on the rate at which it reimburses institutions for indirect research costs.

In Mid-April the NSF issued a Statement of NSF Priorities. In addition, NSF employees

## ***Statement of NSF priorities***

April 18, 2025

The U.S. National Science Foundation (NSF) was established in 1950 to promote the progress of science, advance the national health, prosperity and welfare, and secure the national defense. It does this by investing in the most promising ideas and people across all fields of science and engineering (S&E). NSF priorities are grounded in the mission of the agency and modulated by statutory directives and administration priorities.

NSF uses two statutory criteria to ensure that every award has the potential to advance new knowledge (Intellectual Merit) with maximum impact on the Nation and its people (Broader Impacts). NSF investments unleash groundbreaking discoveries, translational solutions and expand participation in STEM. These efforts strengthen our domestic workforce to fuel economic prosperity, national security, and global S&E competitiveness.

The principles of merit, competition, equal opportunity, and excellence are the bedrock of the NSF mission. NSF continues to review all projects using Intellectual Merit and Broader Impacts criteria.

NSF's broadening participation activities, including activities undertaken in fulfillment of the Broader Impacts criterion, and research on broadening participation, must aim to create opportunities for all Americans everywhere.

These efforts should not preference some groups at the expense of others, or directly/indirectly exclude individuals or groups. Research projects with more narrow impact limited to subgroups of people based on protected class or characteristics do not effectuate NSF priorities.

NSF will continue to support research with the goal of understanding or addressing participation in STEM, in accordance with all applicable statutes and mandates, with the core goal of creating opportunities for all Americans.

NSF will continue to support basic and use-inspired research in S&E fields that focus on protected characteristics when doing so is intrinsic to the research question and is aligned with Agency priorities.

### **1. Why is NSF terminating awards?**

All federal agencies that support research and development (R&D), including NSF, must ensure that taxpayer dollars are spent in the most efficient way possible consistent with each agency's mission. This requires that NSF regularly evaluate its research priorities within the policy framework established by Congress, the Administration and the Director of NSF. Awards and funding opportunities that do not align with these priorities cannot be funded.

### **2. Why is NSF changing its priorities?**

NSF is continuing to prioritize cutting-edge discovery science and engineering (S&E) research, advancing technology and innovation, and creating opportunities for all Americans in every

region of the Nation. NSF has always established priorities within the policy context set forth by Congress, the Administration and the Director of NSF, and it continues to do so.

### **3. What types of awards are being terminated?**

Awards that are not aligned with NSF's priorities have been terminated, including but not limited to those on diversity, equity, and inclusion (DEI) and misinformation/disinformation.

### **4. Can I still propose broadening participation activities (e.g., outreach) in fulfillment of the Broader Impacts criterion?**

Investigators should prioritize the first six broader impacts goals as [defined by the America COMPETES Reauthorization Act of 2010](#). Investigators wishing to address goal seven — expanding participation in STEM for women and underrepresented groups — must ensure that all outreach, recruitment, or participatory activities in NSF projects are open and available to all Americans. Investigators may conduct these types of engagement activities to individuals, institutions, groups, or communities based on protected characteristics only as part of broad engagement activities. Investigators may also expand participation in STEM based on non-protected characteristics, including but not limited to institutional type, geography, socioeconomic status, and career stage. However, engagement activities aimed at these characteristics cannot indirectly preference or exclude individuals or groups based on protected characteristics.

### **5. Will NSF consider proposals directed to a legally mandated NSF program/funding opportunity?**

NSF will continue to operate programs that contain elements of broadening participation for individuals based on protected characteristics that are explicitly established in law and prioritized in NSF appropriations language. The research and broader impacts activities proposed in response to these programs should align with the relevant statutory language and aim to generate knowledge broadly impactful to Americans from all backgrounds and regions in the country.

Projects submitted to legally mandated broadening participation programs must not directly or indirectly preference or exclude any Americans on the basis of protected characteristics. Projects that have limited impact or rely on DEI frameworks or advocacy do not effectuate NSF priorities.

### **6. What about the court order that says you cannot withhold funding due to the Executive Orders (EOs)? Isn't NSF in violation of that?**

No. NSF has continued to fund new awards and support existing awards that are in alignment with NSF priorities.

### **7. What are the protected and non-protected characteristics?**

Protected characteristics are those contained in relevant laws, such as but not limited to, the Equal Protection Clause of the Constitution and Title VII of the Civil Rights Act of 1964.

### **8. There are still gaps in the achievements of certain groups of people. Can we still research those?**

NSF will continue to fund projects that rate highly using our Intellectual Merit and Broader Impacts review criteria in high priority S&E areas. Projects that aim to create more opportunities for more people in every region of the country to participate in science and technology remain an important part of NSF's mission.

NSF will continue to operate legally mandated programs that aim to expand participation in STEM for individuals of protected characteristics so long as the projects submitted to these programs do not preference or limit participation based on these protected characteristics.

#### **9. Can I research individuals or groups based on protected characteristics in other areas of S&E?**

Yes. Researchers may recruit or study individuals based on protected characteristics when doing so is (1) intrinsic to the research question (e.g., research on human physiology), (2) not focused on broadening participation in STEM on the basis of protected characteristics, and (3) aimed to fill an important gap in S&E knowledge. For example, research on technology to assist individuals with disabilities may be supported even when the research subject recruitment is limited to those with disabilities.

#### **10. Is there a list of words I should be avoiding?**

There is not a list of words. Investigators should focus on Intellectual Merit and Broader Impacts for proposals in a way that is consistent with NSF priorities.

#### **11. Can I still work with Minority Serving Institutions (MSIs)?**

Yes. Collaboration and partnerships between and among various types of institutions of higher education (IHEs) as well as cross-sector partnerships involving government, academia, and the private sector remain a top priority.

#### **12. Are centers impacted? What about facilities that have DEI plans, will those be impacted?**

The NSF guidance on broadening participation applies to all current and future NSF awards.

#### **13. Are you still funding research on misinformation/disinformation?**

Per the [Presidential Action](#) announced January 20, 2025, NSF will not prioritize research proposals that engage in or facilitate any conduct that would unconstitutionally abridge the free speech of any American citizen. NSF will not support research with the goal of combating "misinformation," "disinformation," and "malinformation" that could be used to infringe on the constitutionally protected speech rights of American citizens across the United States in a manner that advances a preferred narrative about significant matters of public debate.

#### **14. Can costs be reimbursed prior to the award termination date?**

Yes. Costs may be reimbursed to an NSF award up to and including the award termination date, provided they are allowable, allocable, and reasonable under the sections on Allowable Costs and Termination in your award terms and conditions (e.g., sections 11 and 33 in GC-1). Per the

Termination section of your award's terms and conditions (GC-1 section 33(e)) you must submit the total of costs that were incurred prior to the termination but not drawn down in ACM\$ to [dgafinalcosts@nsf.gov](mailto:dgafinalcosts@nsf.gov) no later than 30 calendar days after the award termination date.

### **15. UPDATED: What are the requirements for project reports if my award has been terminated?**

Normal procedures specified in the [Proposal and Award Policies and Procedures Guide](#) (PAPPG) Chapter VII.D apply. Any annual reports must be submitted on time. The final annual project report must be submitted in [Research.gov](#) no later than 120 days after the end date of the award. Principal investigators (PIs) will continue to receive notifications on the due dates for all required reports.

### **16. My award was terminated on the basis that it "no longer effectuates the program goals or agency priorities." Can I appeal or seek alternative dispute resolution?**

Terminations of awards on the basis that they no longer effectuate program goals or agency priorities are the final agency decision and are not appealable to NSF. In these instances, NSF does not allege a deficiency occurred (e.g., noncompliance with award terms and conditions or research misconduct of the awardee). Because there are no allegations of deficiencies by the awardee to dispute, there are no grounds for agency appeal. Similarly, alternative dispute resolution is not available where terminations were based on effectuation of program goals or agency priorities.

### **17. Is NSF changing its policy regarding the indirect cost rate associated with NSF awards?**

Yes. Effective May 5, 2025, NSF is applying a standard indirect cost rate not to exceed 15% to all grants and cooperative agreements awarded to Institutions of Higher Education — as defined in 20 USC 1001 — for which indirect costs are allowable. This policy does not apply retroactively to existing awards. For more details, see the new [NSF indirect cost policy](#).

## Small Business Administration

### Loans

Find out which SBA-guaranteed loan program is best for your business, then use Lender Match to be matched to lenders.

[Find lenders](#)

#### *How SBA helps small businesses get loans*

The U.S. Small Business Administration (SBA) helps small businesses get funding by setting guidelines for loans and reducing lender risk. These SBA-backed loans make it easier for small businesses to get the funding they need.

#### **To get an SBA-backed loan:**

- Read on to see the kinds of loans available
- Enter basic information about what you're looking for on [Lender Match](#)
- Create an account to start talking to interested lenders
- Lenders will approve and help you manage your loan

SBA only makes direct loans in the case of businesses and homeowners [recovering from a declared disaster](#). Already have an SBA loan? Find out [how to make a payment](#).

*SBA partners with lenders to help increase small business access to loans*

## Loans for borrowers

- 7(a) loans

SBA's primary program for providing long-term financing for a variety of purposes. 7(a) loans are delivered by SBA 7(a) lenders.

### Fund or grow your small business

- 504 loans

Long-term, fixed-rate financing available through mission-oriented, community-based SBA Certified Development Companies.

### Finance your business's growth

- Microloans

Loans of \$50,000 or less to help businesses and certain non-profit childcare centers. Microloans are provided by intermediary lenders.

### Get funding for small improvements

#### *Benefits of SBA-guaranteed loans*

- **Competitive terms:** SBA-guaranteed loans generally have rates and fees that are comparable to non-guaranteed loans.
- **Counseling and education:** Some loans come with continued support to help you start and run your business.
- **Unique benefits:** Lower down payments, flexible overhead requirements, and no collateral needed for some loans.

#### *Get \$500 to \$5.5 million to fund your business*

Loans guaranteed by SBA range from small to large and can be used for most business purposes, including long-term fixed assets and operating capital. Some loan programs set restrictions on how you can use the funds, so check with an SBA-approved lender when requesting a loan. Your lender can match you with the right loan for your business needs.

- *Working capital*

Like seasonal financing, export loans, revolving credit, and refinanced business debt.

- *Fixed assets*

Like furniture, real estate, machinery, equipment, construction, and remodeling.

### *Eligibility requirements*

Lenders and loan programs have unique eligibility requirements. In general, eligibility is based on what a business does to receive its income, the character of its ownership, and where the business operates. Normally, businesses must meet SBA [size standards](#), be able to repay, and have a sound business purpose. Even those with bad credit may qualify for startup funding. The lender will provide you with a full list of eligibility requirements for your loan.

- *Be a for-profit business*

The business is officially registered and operates legally.

- *Do business in the U.S.*

The business is physically located and operates in the United States or its territories.

- *Be creditworthy*

The business's credit must be sound enough to assure loan repayment.

- *Exhaust financing options*

The requested loan is unavailable on reasonable terms from non-government sources.

## **Stay safe**

Protect yourself from predatory lenders by looking for warning signs. Some lenders impose unfair and abusive terms on borrowers through deception and coercion. Watch out for interest rates that are significantly higher than competitors' rates, or fees that are more than 5% of the loan value. Make sure the lender discloses the annual percentage rate and full payment schedule. A lender should never ask you to lie on paperwork or leave signature boxes blank. Don't get pressured into taking a loan. Survey competing offers and consider speaking with a financial planner, accountant, or attorney before signing for your next loan.

## *Loans for exporters*

Most U.S. banks view loans for exporters as risky. This can make it harder for you to get loans for things like day-to-day operations, advance orders with suppliers, and debt refinancing. That's why SBA created programs to make it easier for U.S. small businesses to get export loans.

To learn how SBA can help you get an export loan, contact your local [SBA Export Finance Manager](#) or SBA's [Office of International Trade](#).

## Department of Transportation

The Department of Transportation grant programs are currently in flux. While some notices have been issued, the factors around awards have been modified. A leaked policy memo from leadership at USDOT will add a new layer of extra-legal review of all awarded competitive grant projects without fully signed federal funding obligations, calling for bicycle infrastructure, green infrastructure, and EV chargers to be cut from projects. The memo specifically applies to competitive grants that have not yet completed grant agreements or obligated the funding, including those that have only been

partially obligated. Projects with existing and executed grant agreements are not subject to additional review, but any new federal dollars made out to those projects would be. DOT has been tasked with rescinding, canceling and revoking all orders, rules, funding agreements and policies enacted during the Biden Administration that reference topics such as climate change, greenhouse gas (GHG) emissions, racial equity, gender identity, DEI goals, environmental justice or the Justice40 Initiative. The effect of these directives:

- **Focus on Family and Community Impact:** Instead of focusing on broader environmental and social equity concerns, DOT policies will now prioritize impacts on families and local communities. This means that infrastructure projects will be evaluated based on factors such as noise reduction, water and soil quality, and economic stability rather than climate or equity goals. Communities with marriage and birth rates higher than the national average will receive higher preference for awards.
- **Restrictions on Federal Funding for Local Political Objectives:** DOT grants, loans and contracts must now serve a clear federal interest and cannot be used to advance projects that serve purely local political goals. This could lead to the defunding of initiatives that prioritize local political or social priorities over national economic and infrastructure objectives.
- **Co-Funding and Buy America Requirements:** Moving forward, projects must demonstrate strong local financial commitment and adhere to Buy America provisions. DOT will also prioritize project awards that include utilizing user-pay modules. Federal funding will no longer be available for projects that rely on indefinite government support for future maintenance or expansion.
- **Compliance with Federal Immigration Enforcement:** Communities are required to cooperate with federal immigration enforcement in order to qualify for DOT funding. A [similar effort](#) was put forth by the Trump Administration in 2017 but was ultimately rejected by the courts.

At the same time, DOT has updated the Department's information providing a federal funding toolkit.

## Federal Funding and Financing: Grants

This section of the *Grant Applicant Toolkit* defines what a federal grant is.

The following linked sections also explain how a grant differs from several other common types of Federal Government funding and financing:

- [How Grants Differ from Other Federal Funding and Financing](#)
  - Cooperative Agreements
  - Loans
  - Contracts (including public-private partnerships)
- [Avoiding Government Grant Scams](#)

## What Is a Grant?

### Grants

A grant is one of many different forms of financial assistance. A grant is a way the government funds projects to provide public services and stimulate the economy.

If completed in compliance with award terms, grants do not have to be repaid to the government.

A grant is one of many different forms of financial assistance.

A grant is a way the government funds projects to provide public services and stimulate the economy.

In the case of USDOT grants or construction grants, federal grants provide funding that is awarded through reimbursable payments.

Grants support critical recovery initiatives, innovative research, and many other programs listed in the [Federal assistance listings](#). The intent of most grants is to fund projects that will benefit specific parts of the population or the community as a whole.

### Advantages of Grant Funding

- Grant funding is generally non-repayable once awarded, and project sponsors thus avoid incurring debt or interest expenses if completed successfully.
- In some cases, grants may be a lower-risk way of obtaining assistance compared to loan financing, without potentially impacting credit ratings and assets.

## What Makes a Grant “Competitive”?

### Discretionary Grants

Discretionary grants are grants that USDOT awards to eligible applicants through a competitive selection process.

Eligible applicants vary by program but may include state, Tribal, and local governments, transit providers, universities, research institutions, law enforcement agencies, nonprofit organizations, and others.

**Competitive grants** are grants that USDOT awards to eligible applicants usually through a competitive selection process. Eligible applicants vary based on the specific grant program but may include state, Tribal and local governments, transit providers, universities, research institutions, law enforcement agencies, nonprofit organizations, and others.

USDOT administers its competitive grant programs through its operating administrations (OAs or “modes”). Each mode solicits applications and selects projects based on program and applicant eligibility, evaluation criteria, and Departmental or program priorities, therefore making it “competitive”.

Learn more about [USDOT Competitive Grant Programs, by Mode](#).

Competitive grants also differ from **block grants** and **categorical grants**, which are usually distributed as a “pot” to recipients for specific services (the latter type with many restrictions). Formula grants, block grants, and categorical grants are all considered **non-competitive** funding sources. Since competitive grants are not awarded to every applicant, they are considered competitive compared to these other types of federal grants.

This toolkit focuses on competitive grant programs only but also provides resources for applicants to explore other funding sources, both within and outside of USDOT.

## ***Non-Competitive Funding Opportunities: Formula Grants***

The most common non-competitive opportunities offered by federal agencies are **formula grants**, which distribute funds to every recipient in a group (such as all 50 states) to accomplish the same purpose. These may also be known as federal-aid funds or formula funds.

Formula grants are not competitive because the funding amount for each recipient is calculated based on specific parameters set by Congress, such as state population.

USDOT distributes these formula funds to states, federally recognized Tribal recipients, and transit agencies as primary recipients. When the funds are further allocated to local entities, the primary grant recipient acts as a **pass-through entity** for the local entity, who becomes a **subrecipient** for the grant.

### **Formula Grant Examples**

Examples of formula grants include the [Formula Grants for Rural Areas](#) (Section 5311), [Enhanced Mobility of Seniors and Individuals with Disabilities](#) (Section 5310), and [Grants for Buses and Bus Facilities Formula Program](#) (Section 5339[a]) issued by the USDOT Federal Transit Administration (FTA).

For More Information on Formula Grants, Contact Your State DOT

Contact your state DOT for more information about available highway-related formula grant funding programs and opportunities for formula grant subrecipients.

[Access a list of all state Departments of Transportation](#), provided by FHWA.

### ***How Federal Grants Are Announced***

Federal grant opportunities are announced during different phases of the grant cycle via a publicly available document that goes by one of the following names:

- Notice of Funding Opportunity (NOFO)
- Notice of Funding Availability (NOFA)
- Funding Opportunity Announcement (FOA)

Opportunities are frequently announced via [USDOT Press Releases](#), can often be found on the [Federal Register under the USDOT Notices](#), are posted on agency websites, and are made available for access on [Grants.gov](#).

### ***Where Does Grant Money Come From?***

Congress, the Legislative Branch of government (elected by citizens), proposes appropriations of taxpayer funds for government functions, including for federal agencies in the Executive Branch of government (like USDOT). The President (chosen through the electors of the electoral college voted by the citizens) must then sign these appropriations bills into law (effectively agreeing with Congress) before these funds are made available to agencies. Agencies then distribute funding through grant programs.

[See a full list of federal agencies that provide grant funding](#) (also called “grant-making agencies”).

In 2021, members from both major Congressional parties came together to pass the Infrastructure Investment and Jobs Act (IIJA), more commonly called the [Bipartisan Infrastructure Law \(BIL\)](#), signed by President Biden, which provided \$1.2 trillion for transportation and infrastructure. Of that total, \$550 billion is going toward new federal investments in America's infrastructure. This new funding has allowed USDOT and other federal agencies to award new competitive grants for funding transportation infrastructure improvements, many of which are outlined here in the *Grant Applicant Toolkit*.

## U.S. Agency for International Development

USAID has been moved to the Department of State and has been dismantled. The status of the agency is currently being litigated.

### **Notification of Administrative Leave**

As of 11:59 p.m. EST on Sunday, February 23, 2025, all USAID direct hire personnel, with the exception of designated personnel responsible for mission-critical functions, core leadership and/or specially designated programs, will be placed on administrative leave globally.

Concurrently, USAID is beginning to implement a Reduction-in-Force that will affect approximately 1,600 USAID personnel with duty stations in the United States.

Individuals that are impacted will receive specific notifications on February 23, 2025, with further instructions and information about their benefits and rights.

Designated essential personnel who are expected to continue working will be informed by Agency leadership February 23, 2025, by 5 p.m. EST.

For overseas personnel, USAID intends a voluntary Agency-funded return travel program and other benefits. USAID is committed to keeping its overseas personnel safe. Until they return home, personnel will retain access to Agency systems and to diplomatic and other resources.

In the coming week, we will provide details on how to retrieve personal items from the former USAID workspaces and return government issued devices.

Additional guidance is forthcoming, and all future updates/notices will continue to be communicated through official USAID channels and posted on [USAID.gov](https://www.usaid.gov) for those without access to USAID systems.

## **Department of Veterans Affairs**

## **VA Grants**

The mission of the Department of Veterans Affairs (VA) is to fulfill President Lincoln's promise to care for those who have served in our nation's military and for their families, caregivers, and survivors. VA has multiple Federal financial assistance (grants) programs that aid in VA's mission from community-based suicide prevention efforts to state Veteran home construction to adaptive sports and therapeutic arts programs to national cemetery and legacy programs.

Grants and cooperative agreements are two of many different types of federal financial assistance, which is the broad term used to describe the various ways the federal government distributes resources to eligible recipients.

Through a grant agreement or cooperative agreement, an agency makes payment to a recipient to carry out a public purpose authorized by law.

Grants and cooperative agreements follow a linear lifecycle (announce, apply, award, and implement).

This list is a snapshot of VA's grant portfolio at the time of this site's last update.

**Please Note:** VA's grant portfolio is subject to change based on appropriations, statutes, regulations, and policies.

## ***Applying for VA Grant Funding***

### **VA Customer Engagement Portal**

- An entity applying for VA grant funding should access VA's [Customer Engagement Portal](#) to complete an online VA 10091 form to be registered in VA's vendor file.
- If already registered, entities can use the portal to make any necessary updates.

### **SAM.gov**

- To register, go to [SAM.gov](#) Entity Registration and click "Get Started." This process can take 2 weeks or more.
- See the [SAM.gov checklist \(PDF, 240 KB, 18 pages\)](#) for what you will need to register.
- The Entity Registration page also includes a video that walks you through the registration process. If you need help, you can call 866-606-8220 or live chat with the [Federal Service Desk](#).

### **Grants.gov**

To register, go to [Grants.gov](#). Be sure to allow a few days for processing.

VA posts Notices of Funding Opportunity on [Grants.gov](#) that outline application requirements, which typically include multiple [Required Standard Forms](#).

VA will notify the applicant once an application has been selected for funding.

Every year, hundreds of billions of federal dollars are distributed in the form of federal grants to universities, local governments, organizations, and individuals. The vast majority of these funds are spent as intended, but misuse, deceit, and abuse are nonetheless present. As a result, hundreds of thousands of dollars go to waste. ## VA Homeless Programs

### Grant and Per Diem Program

## Program Description

VA's Grant and Per Diem (GPD) Program is offered annually (as funding permits) by the Department of Veterans Affairs to fund community agencies providing services to Veterans experiencing homelessness. The purpose of the transitional housing component of the program is to promote the development and provision of supportive housing and services with the goal of helping homeless Veterans achieve residential stability, increase their skill levels and/or income, and obtain greater self-determination. Additionally, the GPD Program offers Case Management grants to support housing retention for Veterans who were previously homeless and are transitioning to permanent housing.

Operational costs, including salaries, may be funded by the per diem component. For supportive housing, the maximum amount payable under the per diem is \$71.53 per day per Veteran housed. Veterans in supportive housing may be asked to pay rent if it does not exceed 30% of the Veteran's monthly-adjusted income. In addition, "reasonable" fees may be charged for services not paid with per diem funds. The maximum hourly per diem rate for a service center not connected with supportive housing is 1/8 of the daily cost of care, not to exceed \$8.94 per hour. Payment for a Veteran in a service center will not exceed 8 hours in any day.

Applications are only accepted in response to a Notice of Funding Opportunity (NOFO) published in [Grants.gov](#). Funds will be awarded to programs determined to be the most qualified.

Chelsea Watson is the director of the GPD Program. Ms. Watson and the GPD team may be contacted via email at [GPDgrants@va.gov](mailto:GPDgrants@va.gov).

[A Guide to Funding Resources](#)

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has the potential for commercialization. Through a competitive awards-based program, SBIR enables small businesses to explore their technological potential and provides the incentive to profit from its commercialization. By including qualified small businesses in the nation's R&D arena, high-tech innovation is stimulated, and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

### **SBIR Mission and Program Goals**

The mission of the SBIR program is to support scientific excellence and technological innovation through the investment of Federal research funds in critical American priorities to build a strong national economy.

The program's goals are four-fold:

- Stimulate technological innovation
- Meet Federal research and development needs.
- Foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons.
- Increase private-sector commercialization of innovations derived from Federal research and development funding.

### **SBIR-Participating Agencies**

Each year, Federal agencies with extramural research and development (R&D) budgets that exceed \$100 million are required to allocate 2.5 percent of their R&D budget to these programs. Currently,

- eDepartment of Commerce - [National Institute of Standards and Technology](#)
- [Department of Energy](#)
- [Department of Health and Human Services](#)
- [Department of Transportation](#)
- [National Aeronautics and Space Administration](#)
- [National Science Foundation](#)

Each agency administers its own individual program within guidelines established by Congress. These agencies designate R&D topics in their solicitations and accept proposals from small businesses. Awards are made on a competitive basis after proposal evaluation.

### **Three-Phase Program**

The SBIR Program is structured in three phases:

*Phase I.* The objective of Phase I is to establish the technical merit, feasibility, and commercial potential of the proposed R/R&D efforts and to determine the quality of performance of the small business awardee organization prior to providing further Federal support in Phase II. SBIR Phase I awards normally do not exceed \$150,000 total costs for 6 months.

*Phase II.* The objective of Phase II is to continue the R/R&D efforts initiated in Phase I. Funding is based on the results achieved in Phase I and the scientific and technical merit and commercial

potential of the project proposed in Phase II. Only Phase I awardees are eligible for a Phase II award. SBIR Phase II awards normally do not exceed \$1,000,000 total costs for 2 years.

*Phase III.* The objective of Phase III, where appropriate, is for the small business to pursue commercialization objectives resulting from the Phase I/II R/R&D activities. The SBIR program does not fund Phase III. Some Federal agencies, Phase III may involve follow-on non-SBIR funded R&D or production contracts for products, processes or services intended for use by the U.S. Government
