The SBIR Program

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has the potential for commercialization. Through a competitive awards-based program, SBIR enables small

businesses to explore their technological potential and provides the incentive to profit from its commercialization. By including qualified small businesses in the nation's R&D arena, high-tech innovation is stimulated and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

funds awarded to an eligible sub-awardee.

Department of Commerce

The purpose of this notice is to solicit proposals from eligible entities to develop or implement activities that build resilience of coastal regions, communities, and economic sectors to the negative impacts from extreme weather events, climate hazards, and changing ocean conditions. Successful applicants will develop proposals that plan or implement actions that mitigate the impacts of these environmental drivers on overall resilience, including economic and environmental resilience. Funds will be available to support activities that: - Identify and address priority data, information, and capacity gaps - Develop tools, as needed, to inform sound, science-based decisions, which support regional efforts to plan for a resilient ocean and coastal economy - Acquire and integrate socioeconomic information with physical and biological information to improve the assessment of risk and vulnerability for planning and decision making - Understand how hazards and changing ocean conditions affect coastal economies, including existing and emerging sectors that depend on the ocean and coasts - Develop the information and approaches needed for improved risk communication, and the necessary tools, technical assistance and training tailored toward enhanced resilience to weather events, climate hazards, and changing ocean conditions - Evaluate the costs, benefits, and tradeoffs of systems-based development or redevelopment approaches that incorporate both natural defenses and hard structural solutions - Support the development of sustainable recovery, redevelopment, and adaptation plans and implement programs and projects that incentivize rebuilding and development approaches which reduce risk and increase resilience Proposals submitted in response to this announcement shall employ a regional approach that results in improved ability of multiple coastal jurisdictions to prepare for, absorb impacts of, recover from, and/or adapt to adverse events and changing

environmental, economic, and social conditions. Proposals should demonstrate coordinated effort of multiple jurisdictions (e.g., states, tribes, territories, counties, municipalities, regional organizations, etc.) and/or state or local managed areas within a specified geographic region and involve the appropriate range of partners and stakeholders to ensure project success. Collaborative projects that leverage NOAA supported programs, products, partnerships or services and support federal, tribal, state, regional, county or local plans and partnerships are preferred. Also preferred are proposals that leverage other Administration priorities and other federal resilience investments. Eligible funding applicants are: nonprofit organizations; private (for profit) entities; institutions of higher education; and state, territorial, tribal, local governments as defined at 2 C.F.R. § 200.64, which includes counties, municipalities, and cities; and regional organizations (as defined in this announcement). Applicants must conduct projects benefiting coastal communities within one or more of the following U.S. states and territories: Alabama, Alaska, American Samoa, California, Connecticut, Delaware, Florida, Georgia, Guam, **Hawaii**, Illinois, Indiana, Louisiana, Maine, Maryland, Massachusetts, Michigan, Minnesota, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Northern Mariana Islands, Ohio, Oregon, Pennsylvania, Puerto Rico, Rhode Island, South Carolina, Texas, Virginia, Virgin Islands (US), Washington, and Wisconsin. This competition is one of two competitions being administered by NOAA to build coastal resilience. The companion competition, Coastal Ecosystem Resilience Grants, is being administered by NOAA's National Marine Fisheries Service (NMFS) to improve the resiliency of ocean and coastal ecosystems.

Eligible Applicants:	Public and State controlled institutions of higher education Others (see text field entitled "Additional Information on Eligibility" for clarification) Private institutions of higher education
Additional Information on Eligibility:	1. Eligible Applicants: (a) An IHE is eligible to receive funds under the ANNH Program if it qualifies as an Alaska Native or Native Hawaiian-Serving Institution. At the time of application: An Alaska Native-Serving Institution must have an enrollment of undergraduate students that is at least 20

percent Alaska Native (34 CFR 607.2(e)); and a Native Hawaiian-Serving Institution must have an enrollment of undergraduate students that is at least 10 percent Native Hawaiian (34 CFR 607.2(f)). To qualify as an eligible institution under the ANNH Program, an institution must also be-- (i) Accredited or preaccredited by a nationally recognized accrediting agency or association that the Secretary has determined to be a reliable authority as to the quality of education or training offered; (ii) Legally authorized by the State in which it is located to be a junior or community college or to provide an educational program for which it awards a bachelor's degree; and (ii) Designated as an "eligible institution" by demonstrating that it has: (A) An enrollment of needy students as described in 34 CFR 607.3; and (B) has low average educational and general expenditures per full-time equivalent (FTE) undergraduate student, as described in 34 CFR 607.4. Note: The notice for applying for designation as an eligible institution was published in the Federal Register on November 3, 2014 (79 FR 65197) and applications were due on December 22, 2014. Only institutions that submitted applications by the deadline date and that the Department determined are eligible may apply for a grant. (b) A grantee under the Developing Hispanic-Serving Institutions (HSI) Program, which is authorized under title V, part A of the HEA, may not receive a grant under any HEA, title III, part A program, including the ANNH Program. (c) A current grantee under the Strengthening Institutions Program (SIP), Asian American and Native American Pacific Islander-Serving Institutions (AANAPISI) Program, Native American-Serving Nontribal Institutions (NASNTI) Program, and the ANNH Program authorized by section 317 of the HEA may not receive a grant authorized under any other title III, part A program. (d) A current grantee under the AANAPISI, NASNTI, Hispanic Serving Institutions-STEM and Articulation (HSI-STEM), Predominantly

Black Institutions (PBI), and the ANNH programs authorized by title III, part F, section 371 of the HEA, may receive a grant authorized under any title III, part A program. (e) An eligible IHE that submits applications for an Individual Development Grant and a Cooperative Arrangement Development Grant in this competition may be awarded both in the same fiscal year. However, we will not award a second Cooperative Arrangement Development Grant to an otherwise eligible IHE for an award year for which the IHE already has a Cooperative Arrangement Development Grant award under the ANNH Program. A grantee with an Individual Development Grant or a Cooperative Arrangement Development Grant may be a subgrantee in one or more Cooperative Arrangement Development Grants. The lead institution in a Cooperative Arrangement Development Grant must be an eligible institution. Partners or subgrantees are not required to be eligible

Description:

Note: Each funding opportunity description is a synopsis of information in the Federal Register application notice. For specific information about eligibility, please see the official application notice. The official version of this document is the document published in the Federal Register. Free Internet access to the official edition of the Federal Register and the Code of Federal Regulations is available on GPO Access at: <http://www.access.gpo.gov/nara/index.html>. Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. Purpose of Program: The ANNH Program is authorized under section 317 of the Higher Education Act of 1965, as amended (HEA), to provide grants to eligible institutions of higher education (IHEs) to enable them to improve and expand their capacity to serve Alaska Natives and Native Hawaiians. Institutions may use these grants to plan,

develop, or implement activities that strengthen the institution. Background: We encourage applicants to read carefully the Selection Criteria section of this notice. Consistent with the Department's increasing emphasis in recent years on promoting evidence-based practices through our grant competitions, the Secretary will evaluate applications on the extent to which the proposed project is supported by a logic model that meets the evidence standard of "strong theory" (as defined in this notice). Resources to assist applicants in creating a logic model can be found here:

USDA posts rural funding guide for local governments

The U.S. Department of Agriculture (USDA) recently posted a useful guide outlining federal funding programs available to support rural communities.

[Federal Resources for Sustainable Rural Communities](#) (PDF 44p 6MB) is a guide to programs from the Partnership for Sustainable Communities and the U.S. Department of Agriculture (USDA) that rural communities can use to promote economic competitiveness, protect healthy environments, and enhance quality of life. It is a collaborative effort among USDA, the Department of Housing and Urban Development, the Department of Transportation and the Environmental

Protection Agency.

The guide has key information on funding and technical assistance opportunities available from the four agencies, as well as examples of how rural communities across the country have benefitted from federal resources. [The resource guide can be accessed here.](#)

Tools and Key Resources

One of the goals of the Partnership for Sustainable Communities is to help communities develop and support neighborhoods that provide transportation choices and affordable housing while increasing economic competitiveness and directing resources toward places with existing infrastructure.

To help support these communities, the Partnership agencies compiled this list of useful tools and key resources. All of the resources here have been developed by or sponsored by Partnership agencies. Click on the categories in the sidebar on the right to access these materials.

Farm Loans

FSA makes direct and guaranteed farm ownership and operating loans to family-size farmers and ranchers who cannot obtain commercial credit from a bank, Farm Credit System institution, or other lender. FSA loans can be used to purchase land, livestock, equipment, feed, seed, and supplies. Loans can also be used to construct buildings or make farm improvements.

Housing Assistance

USDA provides homeownership opportunities to low- and moderate-income rural Americans through several loan, grant, and loan guarantee programs. The programs also make funding available to individuals to finance vital improvements necessary to make their homes decent, safe, and sanitary. USDA Multi-Family Housing Programs offer Rural Rental Housing Loans to provide affordable multi-family rental housing for very low-, low-, and moderate-income families; the elderly; and persons with disabilities. In addition, rental assistance is available to eligible families.

Rural Development Loan Assistance

USDA Rural Development forges partnerships with rural communities, funding projects that bring housing, community facilities, business guarantees, utilities and other services to rural America. USDA provides technical assistance and financial backing for rural businesses and cooperatives to create quality jobs in rural areas. Rural Development promotes the President's National Energy Policy and ultimately the nation's energy security by engaging the entrepreneurial spirit of rural America in the development of renewable energy and energy efficiency improvements. Rural Development works with low-income individuals, State, local and Indian tribal governments, as well as private and nonprofit organizations and user-owned cooperatives.

Utility Services

USDA supports deployment of reliable and affordable water, waste treatment, electric power and telecommunications services, including broadband, to help rural areas expand economic opportunities and improve the quality of life for rural residents. Rural Development provides funding opportunities in the form of payments, grants, loans, and loan guarantees, for the development and commercialization of vital utility services. These programs revitalize rural communities with a variety of improvements, and create sustainable opportunities for wealth, new jobs, and increased economic activity in rural America.

Crop and Livestock Insurance

USDA helps producers manage their business risks. The mission of USDA's Risk Management Agency (RMA) is to promote, support, and regulate sound risk management solutions to preserve and strengthen the economic stability of America's agricultural producers. As part of this mission, RMA operates and manages the Federal Crop Insurance Corporation (FCIC).

RMA has three divisions: Insurance Services, Product Management, and Risk Compliance. Seventeen private-sector insurance companies sell and service the policies. RMA develops and/or approves the premium rate, administers premium and expense subsidies, approves and supports products, and reinsures the companies. RMA also sponsors educational and outreach programs and seminars on the general topic of risk.

Federal State Marketing Improvement Program

This matching grant program, also known as FSMIP, provides matching funds to State Departments of Agriculture and other appropriate State agencies to assist in exploring new market opportunities for food and agricultural products, and to encourage research and innovation aimed at improving the efficiency and performance of the marketing system.

Specialty Crop Block Grant Program

The SCBGP funds can be requested to enhance the competitiveness of specialty crops. Specialty crops are defined as fruits and vegetables, tree nuts, dried fruits, and nursery crops (including floriculture).

The Farmers Market Promotion Program

The FMPP was created through a recent amendment of the Farmer-to-Consumer Direct Marketing Act of 1976. The grants, authorized by the FMPP, are targeted to help improve and expand domestic farmers markets, roadside stands, community-supported agriculture programs and other direct producer-to-consumer market opportunities.

Organic Cost Share Program

AMS administers two organic certification cost share programs. Each program provides cost share assistance, through participating States, to organic producers and/or organic handlers. Recipients must receive initial certification or continuation of certification from a USDA accredited certifying agent (ACA).

The Rural Housing Service (RHS) announces that it is soliciting applications under its Housing Preservation Grant (HPG) program. The HPG program is a grant program which provides qualified public agencies, private nonprofit organizations, which may include but not be limited to Faith-Based and Community Organizations, and other eligible entities grant funds to assist very low- and low-income homeowners in repairing and rehabilitating their homes in rural areas. In addition, the HPG program assists rental property owners and cooperative housing complexes in repairing and rehabilitating their units if they agree to make such units available to low- and very low-income persons. This action is taken to comply with Agency regulations found in 7 CFR part 1944, subpart N, which require the Agency to announce the opening and closing dates for receipt of preapplications for HPG funds from eligible applicants. The intended effect of this Notice is to provide eligible organizations notice of these dates.

Agency Name:

Natural Resources Conservation Service

Description:

EXECUTIVE SUMMARY: NRCS is the
Department of Agriculture's (USDA)
conservation agency working with farmers,
ranchers, and private forest landowners
nationwide to identify and address natural
resource objectives in balance with
operational goals in order to benefit soil,
water, wildlife, and related natural resources
locally, regionally, and nationally. NRCS
works in partnership with other entities to
accelerate getting conservation on the
ground. Through the Regional Conservation
Partnership Program (RCPP), NRCS seeks
to co-invest with partners in innovative,
workable and cost-effective approaches to
benefit farming, ranching, and forest
operations, local economies, and the
communities and resources in a watershed or
other geographic area. RCPP partners
develop project applications, as described in
this notice, to address specific natural
resource objectives in a proposed area or
region. Partnering organizations design,

promote, implement, and evaluate the project outcomes. NRCS will select final RCPP projects following a two-phase application process that includes:(1) a pre-proposal application; and (2) a full proposal application. NRCS will assess and evaluate RCPP project applications against four criteria-solutions, contributions, innovation, and participation. The full proposal process is only open to applicants whose pre-proposal applications are selected by the agency to go forward from the pre-proposal stage. All RCPP applications become the property of NRCS for use in the administration of the program and will not be returned to the applicant. RCPP federal assistance is delivered in accordance with the authorities of the Environmental Quality Incentives Program (EQIP), Conservation Stewardship Program (CSP), Agricultural Conservation Easement Program (ACEP), and Healthy Forests Reserve Program (HFRP), and in certain geographic areas, the Watershed Protection and Flood Prevention program. NRCS and partners implement RCPP projects by working with agricultural producers and owners of agricultural and forestland. The purpose of this notice is to announce the availability of CCC funding for RCPP and to solicit applications from potential partners. Subject to fiscal year (FY) 2016 appropriations, NRCS anticipates the availability of about \$225 million in funding for RCPP. If the Sequester were not in effect in FY 2016, as proposed in the President's FY 2016 Budget, available funding would be about \$235 million. The FY 2015 proposal process offered up to \$394 million in funding, reflecting two years of funding (FY2014 and FY2015), not a higher level of annual funding. Applications will be accepted from all 50 States, the Caribbean Area (Puerto Rico and U.S. Virgin Islands), and U.S. territories in the Pacific Island Areas (Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands).

Food and Nutrition Service

Description:

The United States Department of Agriculture (USDA) Food and Nutrition Service (FNS) announces, through this Request for Applications, the availability of \$3.3 million in competitive grant funds, to be awarded through the Farmers' Market SNAP Support Grants (FMSSG) in fiscal year (FY) 2015. As approved by Congress in the President's FY 2014 budget request for FNS (The Food and Nutrition Service: 2014, Explanatory Notes), these funds are intended to support "the participation of farmers' markets in SNAP by providing equipment and support grants to new markets and those currently participating in the program." The goals of the FMSSG program are to increase SNAP accessibility and participation at farmers' markets, and support the establishment, expansion, and promotion of SNAP/Electronic Benefits Transfer (EBT) services at farmers' markets. This is a new program, which may continue in subsequent years. Grant funds must be used to conduct tasks that are necessary for SNAP to operate at farmers' markets, and to increase the number and effectiveness of farmers' market participation in SNAP.

Description: NIFA initiates a new challenge area to address critical water resources issues such as drought, excess soil moisture, flooding, quality and others in an agricultural context. Funding will be used to develop management practices, technologies, and tools for farmers, ranchers, forest owners and managers, public decision makers, public and private managers, and citizens to improve water resource quantity and quality. NIFA's approach will link social, economic, and behavioral sciences with traditional biophysical sciences and engineering to address regional-scale issues with shared hydrological processes and meteorological and basin characteristics.

Agency Name:

Natural Resources Conservation Service

Description:

EXECUTIVE SUMMARY: NRCS is the Department of Agriculture's (USDA) conservation agency working with farmers, ranchers, and private forest landowners nationwide to identify and address natural resource objectives in balance with operational goals in order to benefit soil, water, wildlife, and related natural resources locally, regionally, and nationally. NRCS works in partnership with other entities to accelerate getting conservation on the ground. Through the Regional Conservation Partnership Program (RCPP), NRCS seeks to co-invest with partners in innovative, workable and cost-effective approaches to benefit farming, ranching, and forest operations, local economies, and the communities and resources in a watershed or other geographic area. RCPP partners develop project applications, as described in this notice, to address specific natural resource objectives in a proposed area or

region. Partnering organizations design, promote, implement, and evaluate the project outcomes. NRCS will select final RCPP projects following a two-phase application process that includes:(1) a pre-proposal application; and (2) a full proposal application. NRCS will assess and evaluate RCPP project applications against four criteria—solutions, contributions, innovation, and participation. The full proposal process is only open to applicants whose pre-proposal applications are selected by the agency to go forward from the pre-proposal stage. All RCPP applications become the property of NRCS for use in the administration of the program and will not be returned to the applicant. RCPP federal assistance is delivered in accordance with the authorities of the Environmental Quality Incentives Program (EQIP), Conservation Stewardship Program (CSP), Agricultural Conservation Easement Program (ACEP), and Healthy Forests Reserve Program (HFRP), and in certain geographic areas, the Watershed Protection and Flood Prevention program. NRCS and partners implement RCPP projects by working with agricultural producers and owners of agricultural and forestland. The purpose of this notice is to announce the availability of CCC funding for RCPP and to solicit applications from potential partners. Subject to fiscal year (FY) 2016 appropriations, NRCS anticipates the availability of about \$225 million in funding for RCPP. If the Sequester were not in effect in FY 2016, as proposed in the President’s FY 2016 Budget, available funding would be about \$235 million. The FY 2015 proposal process offered up to \$394 million in funding, reflecting two years of funding (FY2014 and FY2015), not a higher level of annual funding. Applications will be accepted from all 50 States, the Caribbean Area (Puerto Rico and U. S. Virgin Islands), and U.S. territories in the Pacific Island Areas (Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands).

Description:	The principal objective of the National Marine Fisheries Service's (NMFS) Coastal Ecosystem Resiliency Grants solicitation is to implement projects that use a proactive approach to improve or restore coastal habitat to: 1) strengthen the resilience of our marine and coastal ecosystems to decrease the vulnerability of communities to extreme

weather and 2) support sustainable fisheries and contribute to the recovery of protected resources. Applications submitted under this solicitation will be selected based on their ability to demonstrate how the proposed project will enhance the resiliency of marine and coastal ecosystems to the impacts of extreme weather and changing environmental conditions thereby increasing community resilience and providing habitat to threatened and endangered species listed under the Endangered Species Act (hereafter, Listed Species), fish stocks managed under the Magnuson-Stevens Fishery Conservation and Management Act (hereafter, Managed Species), or other marine and coastal species with a nexus to NMFS management (such as through the Atlantic Coastal Fisheries Cooperative Management Act, Atlantic Striped Bass Conservation Act, Marine Mammal Protection Act, Coral Reef Conservation Act, or NMFS Species of Concern). Successful applications will 1) identify an issue limiting the resiliency of marine and coastal ecosystems to extreme weather events or changing environmental conditions at the proposed project site; 2) identify the proposed project's outcome goal(s) and describe in detail the actions and on-the-ground restoration to be undertaken to enhance resiliency and reduce risk and; 3) describe the measurable impact on the ecosystem, target species, and surrounding coastal communities to benefit from the proposed habitat restoration project. Applications selected for funding through this solicitation will primarily be funded through cooperative agreements. Total anticipated funding for all awards is up to \$4 million. NOAA anticipates typical awards will range from \$500,000 to \$1 million. NOAA will not accept applications requesting less than \$200,000 or more than \$2 million in federal funds from NOAA under this solicitation. Federal funds awarded under this program must be matched with non federal funds (cash or in-kind cost share) at a 2:1 ratio of federal-to-

non-federal contributions. For example, an applicant requesting \$500,000 in federal funding must provide at least \$250,000 in non-federal matching contributions, for a total budget of \$750,000. NOAA will only award funds to proposed projects that receive approval of the State's Governor as evidenced by a letter or other form of documented correspondence. Funds will be administered by the NOAA Restoration Center. This funding opportunity is one of two Federal Funding Opportunities (FFO) being administered by NOAA to build coastal resilience. The companion competition, the Regional Coastal Resilience Grants Program is being administered by NOAA's National Ocean Service to undertake activities that build resilience of coastal regions, communities, and economic sectors to the negative impacts from extreme weather events, climate hazards, and changing ocean conditions. The Regional Coastal Resilience Grants FFO is expected to be posted in May 2015 and may be found on www.grants.gov at FFO number NOAA-NOS-OCM-2015-2004324. Description:	The U.S. Integrated Ocean Observing System (IOOS®) is a national and regional partnership working to provide observations, data, and new tools and forecasts to improve safety, enhance the economy, and protect our environment. NOAA is requesting proposals for coordinated regional efforts that further the IOOS in two topic areas, 1) sustaining and enhancing comprehensive regional observing systems and 2) verification and validation of observing technologies for studying and monitoring coastal and ocean environments. NOAA invites applicants to submit proposals for one or both of these topic areas, described in detail below, and requests applicants submit separate applications for each topic area. For single topic proposals, clearly identify the topic area and present all required information such that merit reviewers can associate proposal elements (project description, partners, budgets) with the specific topic

area. NOAA anticipates making multiple awards, subject to the availability of funds, in amounts ranging from \$1,000,000 to \$4,000,000 per year, for up to five years.

Opportunity Category:	Discretionary
Funding Instrument Type:	Cooperative Agreement Grant
Category of Funding Activity:	Other (see text field entitled "Explanation of Other Category of Funding Activity" for clarification) Regional Development
Category Explanation:	The Economic Development Administration's (EDA's) mission is to lead the Federal economic development agenda by promoting innovation and competitiveness, preparing American regions for economic growth and success in the worldwide economy. EDA fulfills this mission through strategic investments and partnerships that create the regional economic ecosystems required to foster globally competitive regions throughout the United States. EDA supports development in economically distressed areas of the United States by fostering job creation and attracting private investment. Specifically, under the Economic Development Assistance programs (EDAP) Federal Funding Opportunity (FFO) announcement, EDA will make construction, non-construction, and revolving loan fund investments

under the Public Works and Economic Adjustment Assistance Programs. Grants made under these programs will leverage regional assets to support the implementation of regional economic development strategies designed to create jobs, leverage private capital, encourage economic development, and strengthen America's ability to compete in the global marketplace. Through the EDAP FFO, EDA solicits applications from rural and urban communities to develop initiatives that advance new ideas and creative approaches to address rapidly evolving economic conditions.

The deadlines for the remaining funding cycles of FY 2014 and the first funding cycle of FY 2015 are listed below. The first funding cycle of FY 2014 is covered under EDA's FY 2013 Economic Development Assistance programs (EDAP) FFO dated November 26, 2012. EDA strongly encourages electronic submissions of applications through www.grants.gov (Grants.gov). To be considered during a particular funding cycle, completed applications must be validated and time-stamped by Grants.gov by 11:59 p.m. Eastern Time on the applicable funding cycle deadline. Alternatively, paper applications may be delivered to the applicable regional office listed in section VIII. of this FFO. Paper applications must be received no later than 5:00 p.m. local time in the applicable regional office on the funding cycle deadline and the applicant must use a delivery confirmation service from their selected carrier. If your application is received after the deadline, it will be considered late and will not be reviewed by EDA for that funding cycle. EDA will not accept facsimile or email transmissions of applications. The next four funding cycle deadlines are: December 13, 2012 for funding cycle 2 of FY 2014; March 14, 2014 for funding cycle 3 of FY 2014; June 13, 2014 for funding cycle 4 of FY 2014; and October 17, 2015 for funding cycle 1 of FY 2014. Agency Name

Economic Development Administration

Description

Pursuant to PWEDA, EDA announces general policies and application procedures for grant-based investments under the Planning and Local Technical Assistance programs. Under the Planning program EDA assists eligible recipients in creating regional economic development plans designed to stimulate and guide the economic development efforts of a community or region. As part of this program, EDA supports Partnership Planning investments to facilitate the development, implementation, revision, or replacement of Comprehensive Economic Development Strategies (CEDS), which articulate and prioritize the strategic economic goals of recipients' respective regions. In general, EDA provides Partnership Planning grants to the designated planning organization (e.g., District Organization) serving EDA-designated Economic Development Districts to enable these organizations to develop and implement relevant CEDS. In addition, EDA provides Partnership Planning grants to Indian Tribes to help develop and implement CEDS and associated economic development activities. The Planning program also helps support planning organizations, including District Organizations, Indian Tribes, and other eligible Recipients, with Short Term and State Planning investments designed to guide the eventual creation and retention of higher-skill, higher-wage jobs, particularly for the unemployed and underemployed in the

Nation's most economically distressed regions. The Local Technical Assistance program strengthens the capacity of local or State organizations, institutions of higher education, and other eligible recipients to undertake and promote effective economic development programs through projects such as feasibility analyses and impact studies.

Corporation for National and Community Service

General Program Overview

AmeriCorps provides resources, both human and financial, to organizations that engage Americans in intensive service to meet our country's critical needs.

Grantees use the funding to support AmeriCorps members for intensive service in their community.

AmeriCorps grants partially cover the expense of operating an AmeriCorps program and do not cover general organizational expenses. A cash and in-kind match is required.

National Service In Hawaii

Meeting Community Needs in Hawaii: More than **3,500** people of all ages and backgrounds are helping to meet local needs, strengthen communities, and increase civic engagement through national service in Hawaii. Serving at more than **490** locations throughout the state, these citizens tutor and mentor children, support veterans and military families, provide health services, restore the environment, respond to disasters, increase economic opportunity, and recruit and manage volunteers. This year, the Corporation for National and Community Service (CNCS) will commit more than **\$5,460,000** to support Hawaii communities through national service initiatives. Through a unique public-private partnership, this federal investment will leverage an additional **\$2,610,000** in other resources to strengthen community impact, build local support, and increase return on taxpayer dollars.

AmeriCorps

This year, AmeriCorps will provide more than **510** individuals the opportunity to provide intensive, results-driven service to meet education, environmental, health, economic, and other pressing needs in communities across Hawaii. Most AmeriCorps grant funding goes to the **Hawaii Commission on National & Community Service**, which in turn awards grants to nonprofit groups to respond to local needs. Most of the remainder of the grant funding is distributed by CNCS directly to multi-state and national organizations through a competitive grants process. Other individuals serve through AmeriCorps VISTA, whose members help bring individuals and communities out of poverty by serving full-time to fight illiteracy, improve health services, create businesses, and increase housing opportunities, and AmeriCorps NCCC (National Civilian Community Corps), a 10-month, full time residential program for men and women between the ages of 18 and 24. In exchange for their service, AmeriCorps members earn an education award that can be used to pay for college or to pay back qualified student loans. Since 1994, more than **4,900 Hawaii** residents have served more than **5.1 million** hours and have qualified for Segal AmeriCorps Education Awards totaling more than **\$11,250,000**.

Senior Corps

More than **3,000** seniors in Hawaii contribute their time and talents in one of three Senior Corps programs. Foster Grandparents serve one-on-one as tutors and mentors to more than **480** young people who have special needs. Senior Companions help more than **250** homebound seniors and other adults maintain independence in their own homes. RSVP volunteers conduct safety patrols, renovate homes, protect the environment, tutor and mentor youth, respond to natural disasters, and provide other services through more than **290** groups across Hawaii.

Procurement Technical Assistance Centers (PTACs) [PDF]

Procurement Technical Assistance Centers (PTACs), are charged with assisting businesses in learning how to do business with federal, state, and local governments. PTACs are a local resource available at no or nominal cost that can provide assistance to business firms in marketing their products and services. They offer training to businesses on how to research and bid on contracts, assist with registration requirements, provide bid-matching services, and assist with pre and post contracting issues.

Department of Education

FORECAST OF FUNDING OPPORTUNITIES UNDER THE DEPARTMENT OF EDUCATION DISCRETIONARY GRANT PROGRAMS FOR FISCAL YEAR (FY) 2014**(As of December 20, 2013)**

This document lists virtually all programs and competitions under which the Department (we) has invited or expects to invite applications for new awards and provides actual or estimated deadline dates for the transmittal of applications under these programs. The lists are in the form of charts -- organized according to the Department's principal program offices -- and include programs and competitions we have previously announced, as well as those we plan to announce at a later date. **If you are interested in applying for any upcoming grants with the Department of Education, please take the time to register with SAM at www.SAM.gov, as you must have an active account in order to submit a grant application with our agency. We recommend you register now even as you are looking for eligible grant programs so that your SAM registration is active by the time the application is published. This will allow you to focus on writing the application during the period the application is available and you are not spending a portion of that time obtaining SAM registration. Please click [here](#) to refer to the SAM tip sheet for additional information.**

Note: This document is advisory only and is not an official application notice of the Department of Education. We expect to provide updates to this document starting in the first week of November in a fiscal year and continuing through the following July.

Note on printing: For best results, print this document in landscape orientation.

ORGANIZATION OF THIS DOCUMENT

We have assigned to each principal office a separate chart as follows:

GRANT APPLICATION INFORMATION

Here's how you can tell whether we've already published an application notice for a particular program or competition in the *Federal Register* and whether the dates we list in this Forecast of Funding Opportunities are actual or estimates:

If we have published the application notice, we will list the *Federal Register* (FR) volume and page number (e.g., 65 FR 53402) after the date in column two. The other dates for that program or competition (columns four and five) are actual (as opposed to estimated) dates.

If we do not follow the date in column two with an FR citation, it means that we have yet to publish the application notice, and the dates (columns, two, four, and five) are estimates only. The actual dates will appear in the official application notice for that program or competition in the *Federal Register*.

Date of Application Notice. In column two of the charts, we list the actual or estimated date for publication of the application notice for a given program or competition.

The general information page for Education Grant funding is an excellent resource describing the three types of grants awarded by the Department of Education. See the screen shot of the Department of Education web page below:

Apply for a Grant

ED offers three kinds of grants:

- **Discretionary grants:** awarded using a competitive process.
- **Student loans or grants:** to help students attend college.
- **Formula grants:** uses formulas determined by Congress and has no application process.

Please review the official application notice for pre-application and application requirements, application submission information, performance measures, priorities and program contact information. The Acting Director of the Institute of Education Sciences (Institute) announces the Institute's FY 2016 competitions for grants to support education research and special education research. The Acting Director takes this action under the Education Sciences Reform Act of 2002. The Institute's purpose in awarding these grants is to provide national leadership in expanding fundamental knowledge and understanding of (1) developmental and school readiness outcomes for infants and toddlers with or at risk for disability, and (2) education outcomes for all students from early childhood education through postsecondary and adult education. Purpose of Program: The central purpose of the Institute's research grant programs is to provide interested individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all students. These interested individuals include parents, educators, students, researchers, and policymakers. In carrying out its grant programs, the Institute provides support for programs of research in areas of demonstrated national need. Competitions in This Notice: The Institute will conduct eight research competitions in FY 2016 through two of its centers: The Institute's National Center for Education Research (NCER) will hold six competitions: one competition for

education research, one competition for education research training, one competition for education research and development centers, one competition for statistical and research methodology in education, one competition for partnerships and collaborations focused on problems of practice or policy, and one competition for research networks. The Institute's National Center for Special Education Research (NCSER) will hold two competitions: one competition for special education research and one competition for special education research training. Catalog of Federal Domestic Assistance (CFDA) Numbers: 84.305A, 84.305B, 84.305C, 84.305D, 84.305H, 84.305N, 84.324A, and 84.324B. Applications for grants under the Education Research, Research Training Programs in the Education Sciences, Education Research and Development Centers, Statistical and Research Methodology in Education, the Partnerships and Collaborations Focused on Problems of Practice or Policy, Research Networks Focused on Critical Problems of Education Policy and Practice, Special Education Research, and Research Training Programs in Special Education competitions, CFDA numbers 84.305A, 84.305B, 84.305C, 84.305D, 84.305H, 84.305N, 84.324A, and 84.324B, must be submitted electronically using the Governmentwide Grants.gov Apply site at www.Grants.gov. Through this site, you will be able to download a copy of the application package, complete it offline, and then upload and submit your application. You may not email an electronic copy of a grant application to us. You may access the electronic grant applications for the Education Research, Special Education Research, Research Training Programs in the Education Sciences, Research Training Programs in Special Education, Education Research and Development Centers, Statistical and Research Methodology in Education, Partnerships and Collaborations Focused on Problems of Practice or Policy, and Research Networks Focused on Critical

Problems of Education Policy and Practice competitions at www.Grants.gov. You must search for the downloadable application package for each competition by the CFDA number. Do not include the CFDA number's alpha suffix in your search (e.g., search for 84.305, not 84.305A).

Estimated Total Program Funding: \$18,197,309

Award Ceiling: \$650,000

Eligible Applicants: Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility: 1. Eligible Applicants: (a) This program is authorized by title III, part A, of the HEA. To qualify as an eligible institution under any title III, part A program, an institution must be-- (i) Accredited or pre-accredited by a nationally recognized accrediting agency or association that the Secretary has determined to be a reliable authority as to the quality of education or training offered; (ii) Legally authorized by the State in which it is located to be a junior or community college or to provide an educational program for which it awards a bachelor's degree; (iii) Designated as an "eligible institution" by demonstrating that it has: (A) an enrollment of needy students as described in 34 CFR 607.3; and (B) low average educational and general expenditures per full-time equivalent (FTE) undergraduate student as described in 34 CFR 607.4. Note: For purposes of establishing eligibility for this competition, the notice inviting applications for eligibility designation for FY 2015 was published in the Federal Register on November 3, 2014 (79 FR 65197) and applications were due on December 22, 2014. Only institutions that submitted the required application and received designation through this process are eligible to submit applications for this competition. (b) A grantee under the Developing Hispanic-Serving Institutions (HSI) Program, which is authorized under title V of the HEA, may not receive a grant under any HEA, title III, part A program, including SIP. Furthermore, a current HSI Program grantee may not give up its HSI grant to receive a grant under SIP or any title III, part A program as described in 34 CFR 607.2(g)(1). An eligible HSI that is not a current grantee under the HSI Program may

apply for a FY 2015 grant under all title III, part A programs for which it is eligible, as well as receive consideration for a grant under the HSI Program. However, a successful applicant may receive only one grant as described in 34 CFR 607.2(g)(1). (c) An eligible IHE that submits an application for an Individual Development Grant and a Cooperative Arrangement Development Grant may be awarded both grants. (d) An eligible IHE that currently has a SIP Individual Development Grant may apply for and be awarded a Cooperative Development Grant. A grantee with an Individual Development Grant or Cooperative Arrangement Development Grant may be a partner or subgrantee in one or more Cooperative Arrangement Development Grants. The lead institution in a Cooperative Arrangement Development Grant must be an eligible institution. Partners or subgrantees are not required to be eligible institutions.

The Acting Director of the Institute of Education Sciences (Institute) announces the Institute's FY 2016 competitions for grants to support education research and special education research. The Acting Director takes this action under the Education Sciences Reform Act of 2002. The Institute's purpose in awarding these grants is to provide national leadership in expanding fundamental knowledge and understanding of (1) developmental and school readiness outcomes for infants and toddlers with or at risk for disability, and (2) education outcomes for all students from early childhood education through postsecondary and adult education. Purpose of Program: The central purpose of the Institute's research grant programs is to provide interested individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all students. These interested individuals include parents, educators, students, researchers, and policymakers. In carrying out its grant programs, the Institute provides support for programs of research in areas of demonstrated national need. Competitions in This Notice: The Institute will conduct eight research competitions in FY 2016 through two of its centers: The Institute's National Center for Education Research (NCER) will hold six competitions: one competition for education research, one competition for education research training, one competition

for education research and development centers, one competition for statistical and research methodology in education, one competition for partnerships and collaborations focused on problems of practice or policy, and one competition for research networks. The Institute's purpose in awarding these grants is to provide national leadership in expanding fundamental knowledge and understanding of (1) developmental and school readiness outcomes for infants and toddlers with or at risk for disability, and (2) education outcomes for all students from early childhood education through postsecondary and adult education. Purpose of Program: The central purpose of the Institute's research grant programs is to provide interested individuals and the general public with reliable and valid information about education practices that support learning and improve academic achievement and access to education opportunities for all students. These interested individuals include parents, educators, students, researchers, and policymakers. In carrying out its grant programs, the Institute provides support for programs of research in areas of demonstrated national need. Competitions in

This Notice: The Institute will conduct eight research competitions in FY 2016 through two of its centers: The Institute's National Center for Education Research (NCER) will hold six competitions: one competition for education research, one competition for education research training, one competition for education research and development centers, one competition for statistical and research methodology in education, one competition for partnerships and collaborations focused on problems of practice or policy, and one competition for research networks. The Institute's National Center for Special Education Research (NCSER) will hold two competitions: one competition for special education research and one competition for special education research training. GRANTS & CONTRACTS

Much of the work of the Department of Energy's [Office of Science](#) (SC) is supported through grants and contractual vehicles. This work is processed through the Office of Science [Grants and Contracts Division](#) (GCD) which serves as the principal acquisition, financial assistance (grants and cooperative agreements) and contract/grant management advisor to the Director of Science. The GCD provides independent analyses, advice and recommendations on procurement and assistance actions initiated by SC; identifies problem areas, opportunities and management issues and makes recommendations; serves as SC focal point in developing positions and responses to proposed Federal and DOE procurement and assistance regulations and business management policies and procedures; provides advice and guidance and serves as the SC focal point with DOE field offices, laboratories, universities, contractors, grantees and other Government agencies on SC policies and strategies with respect to acquisition, financial assistance and contract/grant management issues.

The Department's [Office of Nuclear Energy](#) re-established, in FY 1998, a competitive peer-reviewed program to provide grants allowing nuclear engineering faculty and students to conduct innovative research in nuclear engineering and related areas. The awards run from one to three years and are granted in eight separate technical areas related to nuclear engineering: reactor physics, reactor engineering, reactor materials, radiological engineering, radioactive waste management, applied radiation science, nuclear safety and risk analysis, and innovative technologies for next generation reactors, space power and propulsion, or radiation sources. This type of research is vital to the academic community to help promote excellence in nuclear engineering and provide resolution to issues confronting nuclear engineering in general.

The [Office of Nuclear Energy](#) provides tuition, stipends, and practicums to outstanding graduate students studying nuclear engineering and health physics and undergraduate scholarships and practicums to students pursuing a nuclear engineering course of study to ensure that our country will have an adequate supply of trained nuclear scientists and engineers. As an element of this activity, the University Partnership Program pairs minority institutions with institutions offering a nuclear engineering degree to enable more minorities to enter the field of nuclear engineering.

Description:

Administration for Children and Families - OFA
The Department of Health and Human Services (HHS), Administration for Children and Families (ACF), Office of Family Assistance (OFA) is announcing its intent to competitively award cooperative agreements for demonstration projects that support activities authorized under the Healthy Marriage and Responsible Fatherhood provisions of the Claims Resolution Act of 2010 (Pub. L. 111-291). Cooperative agreements awarded will support prisoner reentry programs that provide innovative community-centered, skill-based pre- and post-release and supportive services to formerly incarcerated fathers. Programs should be designed to address key outcomes related to healthy relationships and marriage, parenting, economic stability and recidivism. These include, but are not limited to, improved family functioning through healthy couple relationship skill building, improved co-parenting, improved child well-being, strengthening positive father-child engagement, increased economic self-sufficiency and stability through employment opportunities and improving economic mobility. ACF is particularly interested in programs that have the demonstrated ability to

incorporate a broad array of community-centered strategies to achieve the overarching Responsible Fatherhood legislative goal.

Description:

This FOA was formerly titled "Responsible Fatherhood: Improving Relationships and Economic Outcomes for Fathers and Families." The Department of Health and Human Services (HHS), Administration for Children and Families (ACF), Office of Family Assistance (OFA) is announcing its intent to competitively award demonstration projects that support activities promoting responsible fatherhood as enacted by the Claims Resolution Act of 2010 (Pub. L. 111-291). The Responsible Fatherhood initiative is designed to help fathers establish or strengthen positive parental interaction by providing activities that develop and improve relationship, communication and parenting skills, and contribute to the financial well-being of their children by providing job training and other employment services. Responsible Fatherhood activities also help fathers improve relationships with their spouses, significant others, and/or the mothers of their children. ACF is particularly interested in organizations that

have the capacity and proven record of accomplishment in helping low-income fathers, and comprehensive fatherhood programs that integrate robust economic stability services, healthy marriage and relationship activities, and activities designed to foster responsible parenting.

Description:

This FOA was formerly titled "Healthy
Marriage, Relationship Education and
Economic Mobility Grants." It was also first
titled "Promoting Strategies for Healthy
Marriages, Relationships and Economic
Self-Sufficiency Outcomes Grants." The
Department of Health and Human Services
(HHS), Administration for Children and
Families (ACF), Office of Family Assistance
(OFA) is announcing the solicitation of

applications to competitively award grants for demonstration projects that support "healthy marriage promotion activities" as enacted by The Claims Resolution Act of 2010 (Pub. L. 111-291). Grants awarded under this Funding Opportunity Announcement will support programs that have the capacity and proven record of accomplishment in providing a broad range of marriage and relationship skills training. To address the multiple barriers faced by individuals, couples, partners, and families, programs will provide healthy marriage and relationship skills designed to change behaviors of individuals and move families towards economic self-sufficiency.

DHS Financial Assistance

Financial Assistance Overview

Most DHS Components have authority to execute and manage financial assistance to support the DHS mission. Financial assistance is the transfer to a non-Federal recipient of anything of value for a public purpose, and in DHS includes grants, cooperative agreements, training, loans, direct payments, and National flood insurance.

Background

Although most DHS Components possess some grant-making programs, the majority of programs and funding exists within the Federal Emergency Management Agency (FEMA). DHS supports a wide variety of financial assistance including post-disaster relief and resilience, preparedness, boating safety, cybersecurity, research, university centers of excellence, and assistance to fire fighters. The chart below reflects the distribution of financial assistance activity and funding by DHS mission.

[DHS Financial Assistance by Component](#)

Financial Assistance Policy and Oversight (FAPO)

FAPO is within the DHS Office of the Chief Financial Officer, Undersecretary of Management. The office is the functional lead for the Financial Assistance Line of Business. FAPO is responsible for providing oversight, to include the issuance of policy, for all DHS financial assistance programs. The team works with DHS Components to ensure a "One DHS" approach for financial assistance. The Office consists of four units; Information Management and Reporting, Financial Assistance Policy, Financial Assistance Oversight and Strategic

Eligible Applicants:	County governments City or township governments Native American tribal governments (Federally recognized) State governments Others (see text field entitled "Additional

Additional Information on Eligibility:

Information on Eligibility" for clarification) States, cities, counties/parishes, Native American Tribes or other units of local government are eligible to apply for funding under this NOFA. Multiple units of a local government (or multiple local governments) may apply as a consortium; however, an eligible principal (lead) applicant must be identified that will be responsible for ensuring compliance with all requirements specified in this NOFA. Where an application involves multiple entities, each entity must meet the civil rights threshold requirement of Resolution of Civil Rights Matters. Please refer to Section III.C.2 of the General Section for additional guidance on this requirement. State government and Native American tribal applicants (whether they are the principal applicant or partner applicants in a consortium) must have an Environmental Protection Agency (EPA) authorized lead-based paint training and certification program (see <http://www.epa.gov/lead/pubs/traincert.htm>). Applicants seeking funding under the LHRD Grant Program, which is targeted to urban jurisdictions, in addition to the requirements in Section III.A. above, MUST have at least 3,500 pre-1940 occupied rental housing units (either alone or through a consortium), as listed at the Census website (<http://factfinder.census.gov/faces/nav/jsf/pages/index.xhtml>). Individuals, foreign entities, and sole proprietorship organizations are not eligible to compete for, or receive, awards made under this announcement.

Agency Name:

Department of Housing and Urban Development

Description:

The overarching purpose of the Lead Hazard Reduction Demonstration Grant Program is to assist states, cities, counties/parishes, Native American Tribes or other units of local government in undertaking comprehensive programs to identify and control lead-based paint hazards in eligible privately owned rental or owner-occupied housing. This program is administered under HUD's Office of Lead Hazard Control and

Healthy Homes (OLHCHH) which is aligned with HUD's 2012-2015 Environmental Justice Strategy. The Environmental Justice Strategy addresses environmental and human health issues that disproportionately affect high-risk communities, such as minorities, low-income populations, children, and persons with disabilities. For more information about HUD's Environmental Justice Strategy, refer to the website at:

<http://portal.hud.gov/hudportal/documents/huddoc?id=envjustice.pdf>. The Healthy Homes Supplemental funding is being offered to assist those units eligible for use of lead funds to utilize the Healthy Homes Rating System for assessing, prioritizing and remediating other health and safety issues within those eligible units. Applicants receiving an award will accomplish the following objectives: Maximize both the number of children less than six years of age protected from lead poisoning and the number of housing units where lead hazards are controlled; Target lead hazard control efforts in housing in which children are at greatest risk of lead poisoning, especially children in low-income and minority families, in order to reduce elevated blood lead levels in children less than six years of age; Promote cost-effective lead hazard control methods and approaches that can be replicated, maintained, and sustained; Build local capacity to safely and effectively address lead hazards during lead hazard control and renovation, remodeling, and maintenance activities by integrating lead-safe work practices; Promote integration of this grant program with other local programs that address housing related health and safety hazards; Affirmatively further fair housing. Note that beyond being an objective of this NOFA, affirmatively furthering fair housing is a civil rights related program requirement. Please refer to FY2015 Section III.C.3.b of the 2015 General Section and Sections V.A.3.a(1) and V.A.3.e(3) of this NOFA for additional guidance on this requirement; Develop a

comprehensive community-based approach to address lead hazards in housing by mobilizing public and private sector resources including grassroots community-based non-profit and faith-based organizations; Promote collaboration, data sharing, and targeting between health and housing departments; Establish a system or process that will facilitate lead-safe units to be affirmatively marketed, and priority given, to families with young children; To the greatest extent feasible, ensure job training, employment, contracting, and other economic opportunities generated by this grant will be directed to low- and very-low income persons, particularly those who are recipients of government assistance for housing, and to business concerns that provide economic opportunities to low- and very low-income persons in the area in which the project is located. For more information, see 24 CFR Part 135 and Section III.C.3 of the FY 2015 General Section; and Further environmental justice, the fair treatment and meaningful involvement of all people regardless of race, color, national origin, disability, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies. Furthermore, recipients under this NOFA are subject to Section 504 of the Rehabilitation Act of 1973 (Section 504;) and its implementing regulations at 24 CFR Part 8, and they are subject to Titles II and III of the Americans with Disabilities Act, as applicable. Each of these prohibits discrimination on the basis of disability.

The screenshot shows the homepage of the Institute of Museum and Library Services (IMLS). At the top left is the IMLS logo. To its right is a site search bar with a 'go' button. Below the logo are navigation links: Home, Press Room, FOIA, Contact Us, and a 'Share this page' section with social media icons and a '27' notification. A horizontal menu contains: Grant Applicants, Grant Reviewers, Grant Recipients, State Programs, Research, Resources, News, and About Us.

The main content area is divided into several sections:

- Left Column:**
 - A Nation of Learners:** A large orange banner with the text 'A Nation of Learners'. Below it, a paragraph states: 'The mission of IMLS is to inspire libraries and museums to advance innovation, lifelong learning, and cultural and civic engagement. We provide leadership through research, policy development, and grant making. IMLS supports key issues of national concern:'. Below this is a dropdown menu labeled '- Select an Issue Area -' and a 'go' button.
 - Director's Message:** A small portrait of a woman is followed by the text: 'Director's Message: What is the Library of the Future? "How Americans Value Public Libraries in their Communities," a study by the Pew Internet in American Life Project, can spark new thinking about libraries' importance.' Below is a 'Read more.' link.
- Middle Column:**
 - Project Profile:** A large orange banner with the text 'Project Profile'. Below it, the text reads: 'Multimedia Story Project Gives Voice to Teens and Extends a Hand to Refugee Community'. A paragraph follows: 'Supported by the IMLS Grants to States program, Salt Lake County Library Services partnered with nonprofit Spy Hop to teach a free six-week course called Speak Up!, to teach local refugee youth how to use digital media to tell their stories. Museum Assessment Program

Application:

The next MAP application deadline will be **July 1, 2015**. [Please contact MAP staff](#) to be added to the application notification e-mail list.

Deadline: **July 01, 2015**

Program Overview:

The Museum Assessment Program (MAP) is supported through a cooperative agreement between the Institute of Museum and Library Services and the American Alliance of Museums. It is designed to help museums assess their strengths and weaknesses, and plan for the future.

A MAP assessment requires members of the museum staff and governing authority to complete a self-study. After completion of the self-study, a site visit is conducted by one or more museum professionals, who tour the museum and meet with staff, governing officials, and volunteers. The reviewers work with the museum and MAP staff to produce a report evaluating the museum's operations, making recommendations, and suggesting resources.

There are three types of MAP assessments:

- Organizational Assessment: Reviews all areas of operations.
- Collections Stewardship Assessment: Focuses on collections policies, planning access, documentation, and collections care within the context of the museum's total operations.
- Community Engagement Assessment: Assesses the museum's understanding of and relationship with its communities as well as its communities' perceptions of and experiences with the museum.

Eligibility:

Eligible organizations should select one of the assessment types and prepare an application. Application materials and additional information are located at www.aam-us.org/map.

Description:

Fish and Wildlife Service
The Partners for Fish and Wildlife (PFW)
Program is a voluntary, incentive-based
program that provides direct technical
assistance and financial assistance in the
form of cooperative agreements to private
landowners to restore and conserve fish and
wildlife habitat for the benefit of federal
trust resources. The PFW Program is
delivered through more than 250 full-time
staff, active in all 50 States and territories.
Partners for Fish and Wildlife Program staff
coordinate with project partners,
stakeholders and other Service programs to
identify geographic focus areas and develop
habitat conservation priorities within these
focus areas. Geographic focus areas are
where the PFW Program directs resources to
conserve habitat for federal trust species.
Project work plans are developed
strategically, in coordination with partners,
and with substantial involvement from
Service field staff. Projects must advance
our mission, promote biological diversity,
and be based upon sound scientific
biological principles. Program strategic
plans inform the types of projects funded
under this opportunity. Applicants seeking
funding under this program should review
the program strategic plan and also contact
the regional PFW Program office prior to
submitting an application for funding.

Eligible Applicants: Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"
Additional Information on Eligibility: Applicants must have a demonstrated knowledge and understanding of the biology of the involved endangered or threatened species in the United States and their ecosystem, including preferably having worked with the species in the field and holding a currently valid Endangered Species Act permit, issued by the FWS, authorizing them to work with these species (or that have previously held a permit to do so). If funding is awarded, applicants that do not currently hold a valid permit for the proposed activity may need to apply for and obtain a permit (<http://www.fws.gov/endangered/permits/index.html>) before beginning the proposed activity. FWS Regional

(or Field Office) contacts will discuss potential proposals with interested parties if needed, and review eligible applications. The FWS Regional Office will refer interested parties to the appropriate FWS Field Office for further consideration as appropriate. For potential proposals submitted directly to the Field Office, the Field Office will conduct the proposal review and selection process. A list of FWS Regional Office contacts is available in the Full Announcement under section VII. Agency Contacts.

Agency Name:

Fish and Wildlife Service

Description:

The FWS Ecological Services Program provides Federal financial assistance on a competitive basis to States, other Federal agencies, landowners, educators, non-profit organizations, researchers, and other partners to secure information about endangered, threatened or candidate species, to aid in the recovery of these species, to avert listing of species pursuant to the Endangered Species Act, and to help conserve the ecosystems upon which these species depend. The FWS and National Marine Fisheries Service (NMFS), which is part of the Department of Commerce's NOAA Fisheries office, share Endangered Species Act responsibilities for several species such as sea turtles. We have responsibility for sea turtles when they are on land, and NMFS has responsibility for sea turtles when they are in the water. Projects for NMFS-managed species are not included in this funding opportunity. This Recovery Implementation funding opportunity is intended for projects that will contribute to the recovery of FWS-managed endangered and threatened species in the United States, and is limited to projects carrying out actions described in a species approved recovery plan, in the implementation schedule of a species approved recovery plan, actions recommended in a completed 5-year status review of the species or in a spotlight species action plan, or projects documenting species response to climate change. For example: securing scientific information about endangered or threatened species, implementing restoration actions that will lead to delisting of a species, help prevent extinction of a species, or aid in the recovery of a species. Projects that address species response to climate change will receive additional consideration.

Agency Name:

Fish and Wildlife Service

Description:

The Coastal Program is a voluntary, incentive-based program that provides direct technical assistance and financial assistance in the form of cooperative agreements to coastal communities and landowners to restore and protect fish and wildlife habitat on public and private lands. Coastal Program staff coordinate with project partners, stakeholders and other Service programs to identify geographic focus areas and develop habitat conservation priorities within these focus areas. Geographic focus areas are where the Coastal Program directs resources to conserve habitat for federal trust species. Project work plans are developed strategically, in coordination with partners, and with substantial involvement from Service field staff. Projects must advance our mission, promote biological diversity, and be based upon sound scientific biological principles. Program strategic plans inform the types of projects funded under this opportunity. Applicants seeking funding under this program should review the program strategic plan and also contact the regional Coastal Program office prior to submitting an application for funding.

Eligible Applicants: Unrestricted (i.e., open to any type of entity above), subject to any clarification in text field entitled "Additional Information on Eligibility"
Agency Name: Fish and Wildlife Service
Description: The USFWS uses a science-based, adaptive framework for setting and achieving cross-program conservation objectives that strategically address the problems fish and wildlife will face in the future. This framework, called Strategic Habitat Conservation, is based on the principles of adaptive management and uses population and habitat data, ecological models, and focused monitoring and assessment efforts to develop and implement strategies that result in measurable fish and wildlife population outcomes. In addition, by leveraging resources and strategically targeting science to inform conservation decisions and actions, Landscape Conservation Cooperatives (LCCs) have created a network of partners working in unison to ensure the sustainability of America's land, water, wildlife and cultural resources. Financial assistance may be awarded for science projects and LCC-prioritized biological planning, conservation design and adaptive management projects to include: research; inventory design and implementation; monitoring; goal and priority setting associated with efficient and effective conservation; development of implementation strategies; and projects supporting all other FWS organizational efforts, including planning, establishment maintenance, and general business operations. Proposals will be reviewed and evaluated on a rolling basis subject to available funding.

GRANTS

The Department offers funding opportunities to conduct research, to support law enforcement activities in state and local jurisdictions, to provide training and technical assistance, and to implement programs that improve the criminal justice system.

OJP Office of Justice Programs offers federal financial assistance to scholars, practitioners, experts, and state and local governments and agencies. Many of the program bureaus and offices award formula grants to state agencies which sub-grant funds to units of state and local government. Discretionary grant funds are announced in the Federal Register or through program solicitations that can also be found through bureau and OJP Websites. [Funding Opportunities at OJP](#) provides links to application kits, current funding opportunities listed by source, and the Grants Management System (GMS). Of particular use to new applicants, the [OJP Grants 101](#) portal presents a step-by-step guide through the grant application process.

OVW U.S. Department of Justice Office on Violence Against Women
The Office on Violence Against Women administers 19 grant programs to help provide victims of domestic violence, sexual assault, dating violence, and stalking with the protection and services they need to pursue safe and healthy lives and enable communities to hold offenders accountable for their violence.

COPS The Community Oriented Policing Services Office (COPS) offers grants to help law enforcement agencies to hire more community policing officers, to acquire new technologies and equipment, to hire civilians for administrative tasks, and to promote innovative approaches to solving crime. The [COPS Office Response Center](#) provides information on programs, grants, and application assistance for the Office of Community Oriented Policing Services. The COPS Office Response Center also assists COPS grantees with financial questions and grant-related inquiries about COPS.

Award Floor:	\$0
Eligible Applicants:	Others (see text field entitled "Additional Information on Eligibility" for clarification) Native American tribal governments (Federally recognized) County governments City or township governments State governments
Additional Information on Eligibility:	Eligible applicants are limited to public

agencies of state governments, units of local government, and tribal entities that perform criminal justice functions (or government agencies acting as fiscal agents for eligible applicants). Furthermore, to be eligible for funding applicants must propose solutions that target jurisdictions that are currently experiencing precipitous or extraordinary increases in crime, in accordance with 42 U.S.C. § 3756(b)(1). BJA welcomes applications that involve two or more entities; however, one eligible entity must be the applicant and the others must be proposed as subrecipients. The applicant must be the entity with primary responsibility for administering the funding and managing the entire project. Only one application per lead applicant will be considered, although subrecipients may be part of multiple proposals.

Agency Name:

Bureau of Justice Assistance

Description:

While many jurisdictions are making significant progress implementing justice information-sharing solutions to address critical gaps in coordinating crime prevention across organizations and jurisdictions, there remain significant challenges that inhibit the ability of the criminal justice system to respond to threats to public safety, especially when it comes to stemming violent crime and homicide. For this solicitation, justice information-sharing technology refers to any technology (hardware and/or software, hosted residually or remotely) that plays a role in the collection, storage, sharing, and analysis of criminal justice data. Funding under this program is provided to assist state, local, and tribal jurisdictions in enhancing their information-sharing capacity through the use of innovative technological solutions such that they may more effectively address disproportional and precipitous increases in crime. The goals of the funding program include: 1. Promoting information sharing and collaboration within and among criminal justice agencies that have a role in preventing and investigating crime. 2. Developing and enhancing policies and

practices that leverage technology to promote public safety and reduce crime. 3. Supporting implementation of information-sharing solutions at the local, regional, state, tribal, and national levels that have a measureable positive impact on the crime trends identified by the applying jurisdiction. 4. Improving the quantity and quality of evidence-based justice information-sharing programs.

Grants for Organizations

We fund projects only. Projects may consist of one or more specific events or activities. Projects do not have to be new. Excellent existing projects can be just as competitive as new activities. Projects do not need to be big either; we welcome small projects that can make a difference in their community or field.

Art Works

To support the creation of art that meets the highest standards of excellence, public engagement with diverse and excellent art, lifelong learning in the arts, and the strengthening of communities through the arts.

Matching grants generally range from \$10,000 to \$100,000.

Deadline: February 19, 2015

Notification: November 2015

Earliest Start Date: January 1, 2016

Deadline: July 23, 2015

Notification: April 2016
Earliest Start Date: June 1, 2016

Challenge America

To support projects that extend the reach of the arts to underserved populations. Matching grants are for \$10,000.

Deadline: April 16, 2015
Notification: December 2015
Earliest Start Date: January 1, 2016

Our Town

Organizations may apply for creative placemaking projects that contribute to the livability of communities and place the arts at their core. Our Town offers support for projects in two areas:

- Arts Engagement, Cultural Planning, and Design Projects that represent the distinct character and quality of their communities. Matching grants range from \$25,000 to \$200,000.
- Projects that Build Knowledge About Creative Placemaking. Matching grants range from \$25,000 to \$100,000.

Deadline: December 15, 2014 Notification: July 2015 Earliest Start Date: October 1, 2015

funding opportunities, including Art Works and Our Town, in addition to this program solicitation. In each case, the request must be for a distinctly different project.

National Endowment for the Arts

This Cooperative Agreement will begin no earlier than February 1, 2016, and end on January 30, 2018. Scope of Work The purpose of this Program Solicitation is to select an organization (Cooperator) to implement the Our Town Technical Assistance Pilot Program activities as described below. In brief, the Cooperator will: Plan, coordinate, and implement a technical assistance program serving select Our Town grantees that will both assist these organizations in effectively executing their creative placemaking activities and educate the Arts Endowment in its understanding of the creative placemaking field. Projects must include these components: 1. Short-term, targeted technical assistance consultancies with selected organizations. 2. A barriers analysis across the selected organizations to identify impediments to successful creative placemaking. 3. Development and dissemination of project resource materials for participating organizations as well as other practitioners and general audiences. Present recommendations on the desirability and viability of a future technical assistance program for all Our Town grantees, including a cost analysis that ramps up from 50 to 200 grantees throughout the country.

National Endowment for the Arts

The Arts Endowment's support of a project may start on August 1, 2016, or any time thereafter. A grant period of up to two years is allowed. OUR TOWN: Grant Program

Description The Our Town grant program supports creative placemaking projects that help to transform communities into lively, beautiful, and resilient places with the arts at their core. Creative placemaking is when artists, arts organizations, and community development practitioners deliberately integrate arts and culture into community revitalization work - placing arts at the table with land-use, transportation, economic development, education, housing, infrastructure, and public safety strategies. This funding supports local efforts to enhance quality of life and opportunity for existing residents, increase creative activity, and create a distinct sense of place. Through Our Town, subject to the availability of funding, the National Endowment for the Arts will provide a limited number of grants for creative placemaking projects. Our Town requires partnerships between arts organizations and government, other nonprofit organizations, and private entities to achieve livability goals for communities. Description:

National Endowment for the Arts
An organization may submit only one application through one of the following FY 2016 categories: Art Works or Challenge America. The Arts Endowment's support of the project may start on or after June 1, 2016. Generally, a period of performance of up to two years is allowed. Grant Program Description The guiding principle of "Art Works" is at the center of everything we do at the NEA. "Art Works" refers to three things: the works of art themselves, the ways art works on audiences, and the fact that art is work for the artists and arts professionals who make up the field. Art works by enhancing the value of individuals and communities, by connecting us to each other

and to something greater than ourselves, and by empowering creativity and innovation in our society and economy. The arts exist for beauty itself, but they also are an inexhaustible source of meaning and inspiration. The NEA recognizes these catalytic effects of excellent art, and the key role that arts and design organizations play in revitalizing them. To deepen and extend the arts' value, including their ability to foster new connections and to exemplify creativity and innovation, we welcome projects that:

- Are likely to prove transformative with the potential for meaningful change, whether in the development or enhancement of new or existing art forms, new approaches to the creation or presentation of art, or new ways of engaging the public with art;
- Are distinctive, offering fresh insights and new value for their fields and/or the public through unconventional solutions; and
- Have the potential to be shared and/or emulated, or are likely to lead to other advances in the field.

Beyond encouraging projects that demonstrate these characteristics, we want to achieve the following four objectives through the Art Works category:

- Creation: The creation of art that meets the highest standards of excellence,
- Engagement: Public engagement with diverse and excellent art,
- Learning: Lifelong learning in the arts, and
- Livability: The strengthening of communities through the arts.

Agency Name: National Endowment for the Humanities

Description: The Humanities Collections and Reference Resources (HCRR) program supports projects that provide an essential underpinning for scholarship, education, and public programming in the humanities. Thousands of libraries, archives, museums, and historical organizations across the country maintain important collections of books and manuscripts, photographs, sound recordings and moving images, archaeological and ethnographic artifacts, art and material culture, and digital objects. Funding from this program strengthens efforts to extend the life of such materials and make their intellectual content widely accessible, often through the use of digital technology. Awards are also made to create various reference resources that facilitate use of cultural materials, from works that provide basic information quickly to tools that synthesize and codify knowledge of a subject for in-depth investigation. HCRR offers two kinds of awards: 1) for implementation and 2) for planning, assessment, and pilot efforts (HCRR Foundations grants).

National Science Foundation

General Funding Overview

The National Science Foundation funds research and education in most [fields of science and engineering](#). It does this through grants, and cooperative agreements to more than 2,000 colleges, universities, K-12 school systems, businesses, informal science organizations and other research organizations throughout the United States. The Foundation accounts for about one-fourth of federal support to academic institutions for basic research.

NSF receives approximately 40,000 proposals each year for research, education and training projects, of which approximately 11,000 are funded. In addition, the Foundation receives several thousand applications for graduate and postdoctoral fellowships.

The agency operates no laboratories itself but does support National Research Centers, user facilities, certain oceanographic vessels and Antarctic research stations. The Foundation also supports cooperative research between universities and industry, US participation in international scientific and engineering efforts, and educational activities at every academic level.

Estimated Total Program Funding: \$56,000,000
Eligible Applicants: Others (see text field entitled "Additional Information on Eligibility" for clarification)

Additional Information on Eligibility: Who May Submit Proposals:
Proposals may only be submitted by the following: Eligible predominantly undergraduate institutions (PUIs) are accredited colleges and universities (including two-year community colleges) that award Associate's degrees, Bachelor's degrees, and/or Master's degrees in NSF-supported fields, but have awarded 20 or fewer Ph.D./D.Sci. degrees in all NSF-supported fields during the combined previous two academic years. Who May Serve as PI: See Additional Eligibility Information in Section IV.B of this solicitation.

Agency Name: National Science Foundation
Description: The Research in Undergraduate Institutions (RUI) and Research Opportunity Awards (ROA) funding opportunities support research by faculty members at predominantly undergraduate institutions (PUIs). RUI proposals support PUI faculty in research that engages them in their professional field(s), builds

capacity for research at their home institution, and supports the integration of research and undergraduate education. ROAs similarly support PUI faculty research, but these awards typically allow faculty to work as visiting scientists at research-intensive organizations where they collaborate with other NSF-supported investigators. Eligible PUIs are accredited colleges and universities (including two-year community colleges) that award Associate's degrees, Bachelor's degrees, and/or Master's degrees in NSF-supported fields, but have awarded 20 or fewer Ph.D./D.Sci. degrees in all NSF-supported fields during the combined previous two academic years. All NSF directorates may support RUI and ROA funding activities. Funding for these awards is contained within research and education program allocations and not held as a separate allocation. RUI and ROA proposals are evaluated and funded by NSF programs in the disciplinary areas of the proposed research and are funded at their discretion. Prospective PIs should contact disciplinary program officers to identify specific NSF programs and to determine the feasibility and timing of RUI/ROA requests. General RUI/ROA points of contact are available through the website

http://www.nsf.gov/crssprgm/rui_roa/contacts.jsp.

1. Research in

Undergraduate Institutions (RUI). An RUI proposal may be: A request to support an individual research project or a collaborative research project involving PUI faculty and students at their own or other

institutions. A request involving shared research instrumentation. 2. Research Opportunity Awards

(ROA). The types of ROA opportunities include: A supplement to an existing NSF award to support ROA activities for PUI faculty.

Requests to rebudget funds in an existing NSF award to support ROA activities for PUI faculty.

Submission of a new collaborative proposal between a PUI and another institution(s), with a ROA component as a subaward or as part of a linked collaborative proposal.

Starting or growing a business? Owning a small business can be a fulfilling endeavor, but as you probably already know or are just finding out – it requires that you wear many hats. This of course leaves you with little time to take a deep dive into the many aspects of starting and growing a business. Instead, many business owners turn to search engines for answers when questions come up.

But what if you had access to a small business classroom that provided informed, accurate and always-available access to the advice and guidance you need?

Welcome to the **SBA Small Business Learning Center**.

Online Training and Tools for Small Business Owners

Launched in late 2012, the SBA Small Business Learning Center is an online portal that hosts a variety of self-paced online training courses, quick videos, web chats and more to help small business owners explore and learn about the many aspects of business ownership.

Content is filtered by topic, so no matter the stage of your business, or the kind of insight you need, you can quickly get answers.

For example, if you're wondering how SBA loan programs work or just need a primer in accounting or small business taxes, check out these self-paced online financing courses and short videos. Or explore tips from the pros in these archived SBA Web Chats.

Other topics covered include starting a business as a young entrepreneur, an introduction to franchising, taking your business global with exporting, marketing 101, selling to the U.S. government, and much more.

Get More Help Offline

And if you can't find the training or advice that you need, use the "Get Local Assistance" interactive map to find one of many small business counseling, assistance and mentoring organizations in your community.

Browse around, and let us know what you think about the SBA Small Business Learning Center!

The Small Business Innovative Research Program - SBIR Program

The Small Business Innovation Research (SBIR) program is a highly competitive program that encourages domestic small businesses to engage in Federal Research/Research and Development (R/R&D) that has

the potential for commercialization. Through a competitive awards-based program, SBIR enables small businesses to explore their technological potential and provides the incentive to profit from its commercialization. By including qualified small businesses in the nation's R&D arena, high-tech innovation is stimulated and the United States gains entrepreneurial spirit as it meets its specific research and development needs.

SBIR Mission and Program Goals

The mission of the SBIR program is to support scientific excellence and technological innovation through the investment of Federal research funds in critical American priorities to build a strong national economy.

The program's goals are four-fold:

- Stimulate technological innovation
- Meet Federal research and development needs.
- Foster and encourage participation in innovation and entrepreneurship by socially and economically disadvantaged persons.
- Increase private-sector commercialization of innovations derived from Federal research and development funding.

SBIR-Participating Agencies

Each year, Federal agencies with extramural research and development (R&D) budgets that exceed \$100 million are required to allocate 2.5 percent of their R&D budget to these programs. Currently, eleven Federal agencies participate in the program:

- [Department of Agriculture](#)
- Department of Commerce - [National Institute of Standards and Technology](#)
- Department of Commerce - [National Oceanic and Atmospheric Administration](#)
- [Department of Defense](#)
- [Department of Education](#)
- [Department of Energy](#)
- [Department of Health and Human Services](#)
- [Department of Homeland Security](#)
- [Department of Transportation](#)
- [Environmental Protection Agency](#)
- [National Aeronautics and Space Administration](#)
- [National Science Foundation](#)

Each agency administers its own individual program within guidelines established by Congress. These agencies designate R&D topics in their solicitations and accept proposals from small businesses. Awards are made on a competitive basis after proposal evaluation.

Three-Phase Program

The SBIR Program is structured in three phases:

Phase I. The objective of Phase I is to establish the technical merit, feasibility, and commercial potential of the proposed R/R&D efforts and to determine the quality of performance of the small business awardee organization prior to providing further Federal support in Phase II. SBIR Phase I awards normally do not exceed \$150,000 total costs for 6 months.

Phase II. The objective of Phase II is to continue the R/R&D efforts initiated in Phase I. Funding is based on the results achieved in Phase I and the scientific and technical merit and commercial potential of the project proposed in Phase II. Only Phase I awardees are eligible for a Phase II award. SBIR Phase II awards normally do not exceed \$1,000,000 total costs for 2 years.

Phase III. The objective of Phase III, where appropriate, is for the small business to pursue commercialization objectives resulting from the Phase I/II R/R&D activities. The SBIR program does not fund Phase III. Some Federal agencies, Phase III may involve follow-on non-SBIR funded R&D or production contracts for products, processes or services intended for use by the U.S. Government
